BROOKLINE TOWN RECORDS.

FOR THE MUNICIPAL YEAR 1890-91.

ANNUAL MEETING, MARCH 31, 1890.

WARRANT.

COMMONWEALTH OF MASSACHUSETTS.

NORFOLK, ss.

To either of the Constables of the Town of Brookline, Greeting:—

In the name of the Commonwealth of Massachusetts, you are hereby required to notify and warn the inhabitants of the town of Brookline, qualified to vote in elections, to meet at the Town Hall, on Monday, the thirty-first day of March, current, at eight o'clock in the morning, for the following purposes, to wit:

First, To choose a Moderator.

Second, To choose the usual Town Officers for the ensuing year; also, to give in their votes, "Yes" or "No," on a separate ballot, in answer to the question, "Shall licenses be granted for the sale of intoxicating liquors in this town?"

Third, To accept the list of Jurors as revised by the Selectmen, and posted according to law.

Fourth, To hear and act upon the reports of Town Officers and Committees.

Fifth, To see if the town will authorize the selectmen to settle suits and claims against the town, and to employ counsel in cases where they shall consider it necessary.

Sixth, To appropriate money for the construction of Centre, Freeman, and Station Streets, and for the payment of land damages thereon, and to authorize the Treasurer to borrow the amounts appropriated.

Seventh, To appropriate money for the widening of Tappan Street, and to authorize the Treasurer to borrow the same.

Eighth, To appropriate money for an Engine House, to be erected on the lot purchased for this purpose on Boylston Street, and to authorize the Treasurer to borrow the same.

Ninth, To authorize the Selectmen to sell at auction or private sale, the old house standing on the lot purchased by the town, of the trustees of the estate of Edward S. Philbrick.

Tenth, To authorize the Selectmen to restrain the sale by minors of goods, wares, and merchandise, in accordance with section 2, of chapter 68, of the Public Statutes.

Eleventh, To act on the petition for the widening of Walnut Street, now pending before the County Commissioners.

Twelfth, To authorize the Selectmen to purchase a carpet for the upper Town Hall.

Thirteenth, To see if the town will change the name of Pearl Street to Winthrop Street.

Fourteenth, To see if the town will name the square formed by the junction of Emerald Street and Pearl Street, Winthrop Square.

Fifteenth, To see whether the town will accept an act passed by the Legislature of the Commonwealth in the year eighteen hundred and eighty-two, entitled "An act authorizing towns and cities to lay out public parks within their limits."

Sixteenth, To prescribe the terms of office of Park Commissioners, elected under the "Act authorizing towns and cities to lay out public parks within their limits."

Seventeenth, To elect three Park Commissioners, under the "Act authorizing towns and cities to lay out public parks within their limits."

Eighteenth, To see if the town will purchase for a public playground or park the lot of land lying between Longwood Avenue and Francis Street, directly opposite the end of Toxteth Street, and adjoining the Lawrence School, and appropriate money or issue the bonds of the town for the payment for the said land, or take such other action in relation thereto as may be deemed expedient.

Nineteenth, To see if the town will appoint a special committee to take into consideration the subject of a new High School building.

Twentieth, To consider the expediency of placing seats on the borders of Beacon Street, and other ways of the town, for the accommodation of the public walking on said ways.

Twenty-first, To consider the subject of preserving the records and valuable documents of the town.

Twenty-second, To consider the expediency of having stenographic reports of town meetings, and of hearings in which the town's interests are involved.

Twenty-third, To accept and allow Walnut Path, as laid out by the Selectmen, and reported to the town at this meeting.

Twenty-fourth, To see what action the town will take in relation to Riverdale Park, and to the proposed change of boundary between Brookline and Boston in connection therewith, and to appropriate

and raise, by borrowing or otherwise, such sums of money as may be required for the taking of land for said Park, for the construction of said Park, or for any other of the purposes of this article.

Twenty-fifth, To appropriate money for land for the extension of our water supply, and to authorize the Treasurer to borrow the same.

Twenty-sixth, To accept and allow Sewall Avenue as laid out by the Selectmen, and reported to the town at this meeting.

Twenty-seventh, To raise and appropriate, by borrowing or otherwise, such sums of money as may be necessary for all or any of the purposes mentioned in the foregoing articles, and especially to act upon all the appropriations asked for or proposed by the Selectmen, or by any town officers or committees.

Hereof fail not, and make due return of this warrant to the Selectmen, with your doings thereon, four days at least before the day of said meeting.

Given under our hands, at Brookline aforesaid, this twenty-first day of March, in the year of our Lord eighteen hundred and ninety.

ALBERT L. LINCOLN, JR.,
WATTS H. BOWKER,
TUCKER DALAND,
W. R. CHESTER,
HORACE JAMES,
Selectmen of Brookline.

NORFOLK, ss. BROOKLINE, March 22, 1890.

In pursuance of the within warrant I have notified and warned the inhabitants of Brookline, qualified to vote in elections, to meet at the time and place, and for the purposes herein named, by causing a printed copy of the same to be left at their last and usual place of abode ; also, by posting the same in three or more public places seven days at least before the said day of meeting. W. Y. GROSS, *Constable.*

In pursuance of the foregoing warrant, the inhabitants of the town of Brookline, qualified to vote in elections, met in the Town Hall in said town, on Monday, the thirty-first day of March, in the year of our Lord one thousand eight hundred and ninety, and were called to order at eight of the clock in the forenoon, by the Town Clerk, who read the warrant calling said meeting, and the return thereon of the officer who served the notice of the same on the inhabitants.

First Article taken up, — "To choose a Moderator."

Voted, That the polls be kept open twenty minutes.

The polls were then declared open for the reception of votes for Moderator and were kept open twenty minutes, when they were declared closed. The Town Clerk then proceeded to sort and count the votes for Moderator, and the whole number given in was one hundred and fifty-seven, as follows:

For Moderator, — Scattering, three. Thomas H. Talbot had fifty, William I. Bowditch had one hundred and four, and was declared elected.

The meeting was then called to order, and prayer was offered by the Rev. Marshall M. Cutter.

On motion of Mr. Charles A. Williams, it was —

Voted, That the consideration of the twenty-fourth article in the warrant, and of the Park Commissioners' report, be postponed to an adjournment of this meeting, to be held on Wednesday, the ninth of April next, at half-past seven of the clock in the evening, and that when this meeting adjourns, it adjourn to meet at that time.

On motion of Hon. William Aspinwall, it was voted:

Voted, That the Moderator of this meeting, with the retiring Selectmen, the Selectmen to be elected, the Town Clerk and the Town Treasurer, and ten citizens who have held the office of Selectman since 1870, and ten citizens at large, to be appointed by the Moderator, constitute a committee who shall consider the remaining articles in the warrant after the second article, except the twenty-fourth article, and report at an adjourned meeting what action they recommend the town to take thereon, with suitable forms of votes for carrying out their recommendations. They shall also publish in *The Chronicle*, previous to said adjourned meeting, the report they intend to make thereon.

The Moderator appointed the following gentlemen to serve on said committee, viz.:

William Aspinwall,
James W. Edgerly,
Nathaniel Lyford,
R. G. F. Candage,
Marshall Russell,
Thomas H. Talbot,
Albert Mason,
Frederic Cunningham,
Edward W. E. Tompson,
James Driscoll, Jr.
Moses Williams,
Francis W. Lawrence,
Charles H. Drew,
Alfred D. Chandler,
James B. Hand,
Moorfield Storey,
Desmond FitzGerald,
Edward Atkinson,
L. Shannon Davis,
William H. Lincoln.

Second Article taken up, — "To choose the usual town officers for the ensuing year; also, to give in their votes, 'Yes' or 'No,' on a separate ballot, in answer to the question, 'Shall licenses be granted for the sale of intoxicating liquors in this town?'"

Voted, That the polls be kept open for the reception of votes, until thirty minutes past six of the clock in the afternoon.

Voted, That the meeting now proceed to choose the following town officers for the ensuing year, all to be voted for on one ticket, viz.: A Town Clerk, five Selectmen, who shall be Surveyors of Highways, and a Board of Health; seven Overseers of the Poor, two of whom shall be women; a Treasurer and Collector; three Assessors; three Auditors; three members of the School Committee for three years; four Trustees of the Public Library for three years; one Trustee of the Public Library for one year; two Trustees of Walnut Hills Cemetery for three years; a Committee of three for Planting Trees; one Commissioner of the Sinking Fund for three years; one Park Commissioner for three years; one member of the Water Board for three years; two Fence Viewers; five Constables; also to give in their vote, "Yes" or "No," on a separate ballot, in answer to the question, "Shall licenses be granted for the sale of intoxicating liquors in this town?"

The Moderator appointed the following Committee, to assist as tellers in sorting and counting the votes, viz.: Edward W. Baker, Henry Collins, Patrick O'Laughlin, Frank Sullivan, Alfred Eugene Kenrick, Michael J. O'Hearn, George P. Johnson, Stuart W. Wise, and Andrew Noland, and they were sworn by the Town Clerk.

Before opening the polls, the Moderator stated that the ballot-box for registering and cancelling ballots was out of order and could not be used, and that the ballots on the license question would have to be deposited with the other ballots.

The polls were then declared open for the reception of votes, and were kept open until half-past six of the clock in the afternoon, when, after due notice, they were declared closed, in accordance with the vote of the meeting.

The Moderator and Town Clerk then assisted in sorting and counting the votes given in, and the whole number given in was one thousand three hundred and thirty-three, fifty-five of

which were women's votes for School Committee; and the following persons having a plurality, were declared elected to the following offices, viz:

BROOKLINE, April 1, 1890.

To Benjamin F. Baker, Town Clerk, Brookline, Mass.:

DEAR SIR, — The undersigned, citizens of Brookline, hereby petition you for a re-count of the votes cast for James B. Hand and Walstein R. Chester, candidates for the office of Selectmen in the town of Brookline, at a Town Meeting held in the aforesaid town of Brookline on March 31, 1890, for the following reasons, viz: That more votes were counted for Walstein R. Chester than were cast for him; and that James B. Hand was declared elected by the Moderator.

Signed,

W. G. CURRIER,
C. M. ATKINSON,
B. W. NEAL,
RICHARD JOHNSON,
THOMAS MAHON,
JAMES O'BEIRNE,
PATRICK JOHNSON,
M. F. KENDRICK,
T. J. MURRAY,
JAMES DRISCOLL,
J. M. SEAMANS.

Brookline, April 1, 1890.

To Benjamin F. Baker, Town Clerk, Brookline:

Sir, — The undersigned, citizens of Brookline, hereby petition for a re-count of the votes cast for Walstein R. Chester and James B. Hand, candidates for the office of "Overseers of the Poor" in the Town of Brookline, at a Town Meeting held in the aforesaid Town of Brookline on March 31, 1890, for the following reasons, viz: That more votes were counted for James B. Hand than were cast for him.

William Aspinwall,
Geo. M. Towle,
David Hall Rice,
George N. Carpenter,
H. S. Burdett,
J. E. Haseltine,
Samuel Williams,
Jos. H. Wellman,
F. W. Burdett,
Geo. F. Winch.

Brookline, April 2, 1890.

To Benjamin F. Baker, Esq., Town Clerk:

Dear Sir, — The undersigned, citizens of Brookline, hereby petition for a re-count of the votes cast for Edward W. E. Tompson and Nathaniel A. Francis, candidates for the office of Assessor in the Town of Brookline, at a Town Meeting held in the aforesaid Town of Brookline, on March 31, 1890, for the following reasons, viz: That more votes were counted for Nathaniel A. Francis than were cast for him.

Francis H. Bacon,
Thomas S. Brown,
Ira B. Cushing,
J. H. Boody,
J. G. Nelson,
G. H. Paine,
F. F. Seamans,
P. S. Allen,
Nath'l Lyford,
Alfred E. Kendrick,
C. A. Delano,
M. Goodspeed.

In conformity with the foregoing petitions, the Moderator appointed to meet in the Assessors' Room in the Town Hall,

on Thursday, the third day of April, in the year of our Lord eighteen hundred and ninety, at half-past eight of the clock in the forenoon, to re-count the votes cast on Monday, the thirty-first day of March, eighteen hundred and ninety, for Selectmen, Overseers of the Poor, and Assessors, and notice of the same was served on Messrs. James B. Hand, Walstein R. Chester, Edward W. E. Tompson, and Nathaniel A. Francis.

In pursuance of the foregoing notice the Moderator and Town Clerk met in the Assessors' Room, in the Town Hall on Thursday, the third day of April, in the year eighteen hundred and ninety, at half-past eight of the clock in the forenoon.

The Moderator appointed Mr. Alfred E. Kenrick to assist in canvassing and counting the votes cast as aforesaid, and he was sworn to the faithful discharge of that duty.

The Moderator and Town Clerk then opened the package of votes which had been sealed up by the Town Clerk and were in his custody, and the whole number were canvassed and counted, and were as follows, as shown by the following certificate of the Moderator, to wit:

To Benjamin F. Baker, Clerk of the Town of Brookline, Mass.:

The undersigned Moderator of the annual Town Meeting of the inhabitants of the Town of Brookline, duly notified and warned, and holden on Monday, the thirty-first day of March, in the year eighteen hundred and ninety, for the election of town officers and the transaction of other business, hereby certify that the ballots cast at said meeting for Selectmen, Surveyors of Highways, Board of Health, Overseers of the Poor, and Assessors, have, upon the petition of ten citizens of said town, for each of said offices, been re-counted in accordance with the provisions of Chapter 262 of the Acts of 1886, and the result of the re-count, so far as it relates to the offices above-named, is as follows, to wit:

For Selectmen, Surveyors of Highways, and Board of Health.

James B. Hand had six hundred and forty-two.
Walstein R. Chester had six hundred and thirty-three.

For Overseers of the Poor.

James B. Hand had six hundred and forty-one.
Walstein R. Chester had six hundred and twenty-seven.

For Assessors.

Nathaniel A. Francis had six hundred and thirty-eight.
Edward W. E. Tompson had six hundred and nineteen.
And James B. Hand is elected to the offices of Selectmen, Surveyor of Highways, Board of Health, and Overseer of the Poor.
Nathaniel A. Francis is elected to the office of Assessor.

WILLIAM I. BOWDITCH,
Moderator.

The ballots were again sealed up and delivered into the custody of the Town Clerk.

Attest: B. F. BAKER, *Town Clerk.*

BROOKLINE, MASS., April 3, 1890.

ADJOURNED ANNUAL MEETING, APRIL 9, 1890.

Pursuant to adjournment the inhabitants of the town of Brookline, qualified to vote in elections, met in the Town Hall in said town on Wednesday, the ninth day of April, in the year of our Lord one thousand eight hundred and ninety, and were called to order at half-past seven of the clock in the evening, by the Moderator, William I. Bowditch.

Twenty-fourth article taken up, — "To see what action the town will take in relation to Riverdale Park, and to the proposed change of boundary between Brookline and Boston in connection therewith; and to appropriate and raise by borrowing, or otherwise, such sums of money as may be required for the taking of land for said park, for the construction of said park, or for any other of the purposes of this article."

Mr. Henry M. Whitney, one of the Park Commissioners, stated, that more land would be required to complete the area

needed for the park, and that for the first time since the beginning of the enterprise, we had reached the time when the town could begin and push on the work. That the Park Commissioners of Boston had agreed with the Park Commissioners of Brookline, that they would proceed at once to take before the first of May next, all the land needed to carry out Boston's part of the work. Mr. Whitney also stated, that he estimated that the land now necessary for the town to acquire, would cost some seventy thousand dollars; and that the work of construction would cost about one hundred and fifty thousand dollars; he also spoke of the advantage of having the work all contracted for at one time, and that, if that course was followed, in his opinion, a considerable saving could be made.

Mr. Whitney offered the following vote, to wit:

Voted, That the sum of sixty-six thousand dollars be and the same is hereby appropriated for the taking in fee by purchase or otherwise of land for the purpose of a public park or parks to be laid out in Brookline, under the provisions of Chapter 185 of the Acts of 1875.

The Moderator appointed Edward W. Baker and Frederick Higginson to act as Tellers, and they were sworn by the Town Clerk.

The vote was then put upon its passage and the whole number of votes was one hundred and twenty-nine, and were as follows, to wit: Yeas, one hundred and twenty-nine (129); Nays, none (0); and the vote was declared passed in the affirmative.

Mr. Whitney offered the following vote, to wit:

Voted, that the treasurer be, and he is hereby authorized to borrow, under the direction of the Park Commissioners elected under chapter 185 of the Acts of the year 1875, the sum of sixty-six thousand dollars appropriated at this meeting, and the ten thousand dollars appropriated February 20, 1889, at a rate of interest not exceeding four per cent per annum, the bonds or certificates of indebtedness to be given therefor to be denominated upon their face, "Public Park Loan," to be issued from time to time as the said Park Commissioners of the town may require them, and to be made payable in such annual proportionate payments as will extinguish the same in or within ten years from their

date ; and the said Park Commissioners are authorized to expend the said sum for the taking in fee by purchase or otherwise of land for the purpose of a public park, under said act, — the bonds to be signed by the Treasurer and countersigned by a majority at least of the Selectmen.

The vote was then put upon its passage the same Tellers acting; and the whole number of votes was one hundred and forty-four, as follows, to wit: Yeas, one hundred and forty-four (144); Nays, none (0); and the vote was declared passed in the affirmative.

Mr. Whitney offered the following vote, to wit:

Voted, That the sum of one hundred and fifty thousand dollars be, and the same is hereby appropriated to be expended by the Park Commissioners of the town elected under Chapter 185 of the Acts of 1875, for defraying the cost and expenses of constructing Muddy River or Riverdale Park, so called, in Brookline, in connection with the sanitary improvement of Muddy River.

The vote was then put upon its passage, the same tellers acting, and the whole number of votes was one hundred and forty-four as follows, to wit: Yeas, one hundred and forty-four (144); Nays, none (0); and the vote was declared passed in the affirmative.

Mr. Whitney offered the following vote, to wit:

Voted, That the Treasurer be, and he is hereby authorized to borrow under the direction of the Park Commissioners of the town elected under Chapter 185 of the Acts of 1875, the sum of one hundred and fifty thousand dollars, at a rate of interest not exceeding four per cent per annum, the bonds or certificates of indebtedness to be given therefor to be denominated on their face, "Brookline Park Construction Loan," to be issued from time to time as the said Park Commissioners may direct, and to be made payable in such annual proportionate payments as will extinguish the same in or within twenty years from their date ; and the said Park Commissioners are authorized to expend the said sum of one hundred and fifty thousand dollars for defraying the cost and expenses of constructing Muddy River or Riverdale Park, so called, in Brookline, in connection with the sanitary improvement of Muddy River, — the bonds to be signed by the Treasurer and countersigned by a majority at least of the Selectmen.

The vote was then put upon its passage, the same tellers acting, and the whole number of votes was one hundred and thirty-nine, as follows, to wit: Yeas, one hundred and thirty-nine (139); Nays, none (0); and the vote was declared passed in the affirmative.

Voted, To adjourn, to meet in this place on Wednesday next, the sixteenth, at half-past seven of the clock in the evening.

Adjourned.

Attest: B. F. Baker, *Town Clerk.*

ADJOURNED ANNUAL MEETING, APRIL 16, 1890.

Pursuant to adjournment the inhabitants of the town of Brookline, qualified to vote in elections, met in the Town Hall in said town, on Wednesday, the sixteenth day of April, in the year of our Lord, eighteen hundred and ninety, and were called to order at half-past seven of the clock in the evening, by the Moderator, William I. Bowditch.

Second Article taken up, — "To choose the usual town officers for the ensuing year; also, to give in their votes, "Yes" or "No," on a separate ballot, in answer to the question, "Shall licenses be granted for the sale of intoxicating liquors in this town?"

The meeting then nominated and chose the following officers in place of those who had not qualified, viz.:

Merrill V. Brown, John E. Cousens,	Surveyors of Lumber, and Measurers of Wood and Bark.	April 22, 1890. Sworn by the Town Clerk.
Samuel A. Robinson,	Sealer of Leather.	April 22, 1890. Sworn by the Town Clerk.

On motion of Mr. Albert L. Lincoln, Jr., it was —

Voted, That this meeting adjourn at ten of the clock this evening, and that when it adjourns it be to meet in this place on Wednesday, the sixteenth instant, at half-past seven of the clock in the evening.

Twenty-seventh Article taken up, — "To raise and appropriate, by borrowing or otherwise, such sums of money as may be necessary for all or any of the purposes mentioned in the foregoing articles, and especially to act upon all the appropriations asked for or proposed by the Selectmen, or by any town officers or committees."

The meeting then proceeded to make the following appropriations, to wit:

Voted, That the salary of the Clerk and Registrar of the Water Board be fixed at $1,500 per annum, the same to be paid from the appropriation for maintenance of the water-works.

Voted, That the salary of the Superintendent of the water-works be fixed at $2,000 per annum, the same to be paid from the appropriation for maintenance.

*Such sums as may be assessed on the Town. (County tax, $28,840.23; State Tax, $37,502.50.)

The subject of lighting the streets was taken up, and the different methods and manner of lighting, and the cost of the same, were considered and discussed at considerable length.

Mr. John J. McCormack moved the following vote:

Voted, That a committee of seven be appointed by the Moderator to consider the subject of lighting the town with electricity, gas, or naphtha, and report at the adjourned meeting.

The Moderator appointed as tellers Messrs. Thomas Aspinwall and Alfred D. Chandler, and they were sworn by the Town Clerk.

The motion was then put upon its passage, and the whole number of votes was two hundred and eight, and were as follows, to wit: Yeas, One hundred and sixty-three (163); Nays, forty-five (45), and the motion was declared passed in the affirmative.

The Moderator appointed the following gentlemen to compose said committee, viz: The Board of Selectmen, consisting of Albert L. Lincoln, Jr., Horace James, Watts H. Bowker, Tucker Daland, and James B. Hand, with David Hall Rice, and Jerome Jones.

Third Article taken up, — "To accept the list of Jurors as revised by the Selectmen, and posted according to law."

The list of Jurors which had been revised by the Selectmen, and posted according to law, was then presented, and after the names of Herbert W. Carnes and Charles A. Fuller had been struck off at their own request, it was submitted to the meeting as follows, viz:

LIST OF JURORS FOR THE TOWN OF BROOKLINE, FOR THE YEAR 1890.

Attest: B. F. Baker, *Town Clerk.*

Brookline, Mass., March 17, 1890.

Voted, To accept the foregoing list.

Fourth Article taken up, — "To hear and act on the reports of town officers and committees."

Voted, That the reports of town officers and committees which have been printed and distributed through the town, be accepted.

The report of the committee on warm baths was taken up, considered and discussed at considerable length.

On motion of Mr. John J. McCormack, it was —

Voted, That the subject of bath-houses be referred to the Selectmen to report thereon at a future meeting.

Fifth Article taken up, — "To see if the town will authorize the Selectmen to settle suits and claims against the town, and to employ counsel in cases where they shall consider it necessary."

On motion of Mr. Albert L. Lincoln, Jr., it was —

Voted, That the Selectmen be authorized to settle any claims or suits against the town, which in their opinion cannot be successfully defended, when such suit or claim does not exceed the sum of one thousand dollars, and that the Selectmen be authorized to employ counsel in suits against the town, and to consult counsel in cases where they deem it necessary.

Fourth Article taken up, — "To hear and act upon the reports of town officers and committees."

Mr. William H. Lincoln, Chairman of the School Committee, called the attention of the meeting to that part of their report which relates to the enlargement of the Heath School-House, and stated that it was necessary that the building should be enlarged this season.

On motion of Mr. William H. Lincoln, it was —

Voted, That the sum of three thousand and five hundred dollars be appropriated for the enlargement of the Heath School House.

Eighteenth Article taken up, — "To see if the town will purchase for a public playground or park the lot of land lying between Longwood Avenue and Francis Street, directly opposite the end of Toxteth Street, and adjoining the Lawrence School, and appropriate money or issue the bonds of the town for the payment of the said land, or take such other action in relation thereto as may be deemed expedient."

Mr. Samuel Y. Nash offered the following vote, to wit:

Voted, That the town buy for any uses to which it may lawfully apply the same, the lot of land containing about 245,000 square feet, owned by Henrietta Thomas, wife of Hon. Edward I. Thomas, and lying between Longwood Avenue and Francis Street.

The subject-matter of the motion was discussed until ten of the clock, when, in pursuance of the vote passed the first of the evening, the meeting adjourned to meet in this place on Wednesday the twenty-third instant, at half-past seven of the the clock in the evening.

Adjourned.

Attest: B. F. Baker, *Town Clerk.*

ADJOURNED ANNUAL MEETING, APRIL 23, 1890.

Pursuant to adjournment the inhabitants of the town of Brookline, qualified to vote in elections, met in the Town Hall in said town on Wednesday, the twenty-third day of April, in the year of our Lord eighteen hundred and ninety, and were called to order at half-past seven of the clock in the evening, by the Moderator, William I. Bowditch.

The motion of Mr. Samuel Y. Nash, which was up for consideration and action at the close of the last meeting, to wit:

"That the town buy, for any uses to which it may lawfully apply the same, the lot of land containing about 245,000 square feet, owned by Henrietta Thomas, wife of Hon. Edward I. Thomas, and lying between Longwood Avenue and Francis Street," was taken up.

Mr. Samuel Y. Nash then withdrew his motion.

On motion of Mr. Edward W. E. Tompson, it was —

Voted, That the Eighteenth Article be laid on the table.

Twenty-fifth Article taken up, — "To appropriate money for land for the extension of our water supply, and to authorize the Treasurer to borrow the same."

Voted, That such land shall be purchased or taken for the extension of the water supply of the town as the Selectmen and Water Board for the time being shall decide to be for the best interests of the town, and that the sum of twenty thousand dollars ($20,000) be and the same is hereby appropriated to pay for the land so purchased or taken.

Mr. Albert L. Lincoln, Jr., offered the following vote, to wit:

Voted, That the Town Treasurer be authorized to borrow, when so directed by the Selectmen, to pay for land purchased or taken for the extension of the water supply, under the provisions of Chapter 343 of the Acts of 1872, and Chapter 131 of the Acts of 1888, the sum of twenty thousand dollars ($20,000), paying therefor a rate of interest not exceeding four per cent. per annum, payable semi-annually, and giving therefor the notes of the town, to be denominated on their face, "Brookline Water Loan," signed by the Treasurer and countersigned by a majority at least of the Selectmen. Such indebtedness shall be made payable in such annual proportional payments as will extinguish the same in thirty years from the date of the delivery of said notes.

The Moderator appointed as Tellers, Samuel Y. Nash and James Driscoll, Jr., and they were sworn by the Town Clerk.

The vote was then put upon its passage, and the whole number of votes was two hundred and fifty-six, as follows, to wit: Yeas, two hundred and fifty-six (256); Nays, none (0); and the vote was declared passed in the affirmative.

The committee to whom was referred the matter of lighting the town, reported verbally, that the committee had had several meetings and carefully considered the matter, and unanimously agreed to a course of action which was embodied in the votes to be offered.

On motion of Mr. Albert L. Lincoln, Jr., it was —

Voted, That the Selectmen be instructed to inquire into the subject of the town's procuring and establishing a plant for lighting its streets and public buildings with electricity, and to report thereon at a future meeting.

Voted, That the matter of lighting the streets of the town for the ensuing year be left to the Selectmen with full powers, and that the sum of thirty-five thousand dollars ($35,000) be appropriated therefor.

Sixth Article taken up, — "To appropriate money for the construction of Centre, Freeman, and Station Streets, and for the payment of land damages thereon, and to authorize the Treasurer to borrow the amounts appropriated."

On motion of Mr. Albert L. Lincoln, Jr., it was —

Voted, That the sum of thirty-five thousand dollars be appropriated for paying land damages, and for the construction of Centre, Freeman, and Station Streets.

Seventh Article taken up, — "To appropriate money for the widening of Tappan Street, and to authorize the Treasurer to borrow the same."

Voted, That the sum of seven thousand dollars be appropriated, to be used for the widening of Tappan Street to its full width.

Eighth Article taken up, — "To appropriate money for an Engine-House, to be erected on the lot purchased for the purpose on Boylston Street, and to authorize the Treasurer to borrow the same."

Voted, That the sum of ten thousand dollars be appropriated, to pay for the erection of an engine-house on the lot purchased for this purpose on Boylston Street.

Mr. Albert L. Lincoln, Jr., offered the following vote, to wit:

Voted, That the Town Treasurer be authorized to borrow, when so directed by the Selectmen, the sum of fifty-two thousand dollars, ($52,000), paying therefor a rate of interest not exceeding four per centum per annum, for not more than four years, to pay for the following objects: thirty-five thousand dollars ($35,000) for the construction of Centre, Freeman, and Station Streets, and of the land damages thereon; seven thousand dollars ($7,000) for the widening of Tappan Street, and ten thousand dollars ($10,000) for the new engine-house on Boylston Street; giving therefor the notes of the town, signed by the Treasurer and countersigned by a majority at least of the Selectmen.

The vote was then put upon its passage, the same Tellers acting, and the whole number of votes was two hundred and sixty, as follows, to wit: Yeas, two hundred and sixty (260); Nays, none (0); and the vote was declared passed in the affirmative.

Ninth Article taken up, — "To authorize the Selectmen to sell at auction or private sale the old house standing on the lot purchased by the town of the trustees of the estate of Edward S. Philbrick."

Voted, That the Selectmen be authorized to sell at auction or private sale, or to otherwise dispose of the same as they shall deem best, the old house standing on the lot purchased by the town of the trustees of the estate of Edward S. Philbrick.

Tenth Article taken up, — "To authorize the Selectmen to restrain the sale by minors of goods, wares, and merchandise, in accordance with Section 2, of Chapter 68, of the Public Statutes."

Voted, That the tenth Article be indefinitely postponed.

Eleventh Article taken up, — "To act on the petition for the widening of Walnut Street, now pending before the County Commissioners."

Voted, That the Selectmen be instructed to appear before the County Commissioners and urge the widening of Walnut Street to a width of not less than forty feet.

Twelfth Article taken up, — "To authorize the Selectmen to purchase a carpet for the upper Town Hall."

Voted, That the Selectmen be authorized to purchase a carpet for the upper Town Hall, and that $500 be appropriated therefor.

Thirteenth Article taken up, — "To see if the town will change the name of Pearl Street to Winthrop Street."

Voted, That the Thirteenth Article be indefinitely postponed.

Fourteenth Article taken up, — "To see if the town will name the square formed by the junction of Emerald Street and Pearl Street, Winthrop Square."

Voted, That the square formed by the junction of Emerald Street and Pearl Street be named "Woodward Square."

Voted, That the Fifteenth, Sixteenth, and Seventeenth Articles be laid on the table.

Nineteenth Article taken up. — "To see if the town will appoint a special committee to take into consideration the subject of a new High School building."

Voted, That a committee consisting of two members of the board of Selectmen, two members of the board of School Committee, and three citizens, be appointed by the Moderator to take into consideration the subject of a new High School building, to report at a future meeting.

The Moderator appointed the following gentlemen to compose said committee, viz.: Albert L. Lincoln, Jr., and Tucker Daland, of the board of Selectmen; William H. Lincoln and John D. Runkle, of the board of School Committee, and Francis W. Lawrence, Moorfield Storey, and Moses Williams.

Twentieth Article taken up, — "To consider the expediency of placing seats on the borders of Beacon Street and other ways of the town, for the accommodation of the public walking on said ways."

Voted, That the Twentieth Article be indefinitely postponed.

Twenty-first Article taken up. — "To consider the subject of preserving the records and valuable documents of the town."

Voted, That the sum of eight hundred dollars be appropriated for building a fireproof vault for the preservation of the valuable documents of the town.

Twenty-second Article taken up. — "To consider the expediency of having stenographic reports of town meetings and of hearings in which the town's interests are involved."

Voted, That the Twenty-second Article be indefinitely postponed.

Twenty-third Article taken up. — "To accept and allow Walnut Path, as laid out by the Selectmen, and reported to the town at this meeting."

The Selectmen presented the following report on the laying out of said path:

The undersigned, Selectmen of Brookline, having given printed and written notices to Alfred Winsor and Horace D. Chapin, trustees of the estate of Edward S. Philbrick, Augustine Shurtleff, Adam Halfenstine, and the Town of Brookline, being the only persons or parties known to us to be interested in the subject-matter of the foot-path to be laid out, of our intention to lay out a foot-path, ten feet in width, from Boylston Street to Walnut Street, opposite the estate of Edward S. Philbrick, such notices requiring such persons to appear before us in the Town Hall, on Thursday, the thirteenth day of March, 1890, at 7½ o'clock, P. M. ; and having caused such notices to be actually served according to law upon all such persons by a constable of this town, seven days at least before the time so appointed for the hearing; and having also given notice to them and all other persons (if any) who may be interested in the subject-matter of said path, whose names are not known to us, or who have no place of abode in the town, or who have no tenant or authorized agent known to us, by posting up copies of the printed and written notice in three public places in the town at least seven days before the time appointed for the hearing.

Pursuant to such notice, we met at the time and place appointed for the hearing, and, after hearing the parties and their remarks and objections, and the route of the proposed path having been examined by us, after fully considering the subject, adjudged that it was necessary for the public convenience that a foot-path should be laid out and maintained by the town as hereinafter described by its side lines.

Beginning at the intersection of the southerly line of Boylston Street and the easterly line of a passage-way now existing, four feet in width, and running south 13° 20′ west by the easterly line of said passage-way for a distance of 225.27 feet, to the northerly line of Walnut Street; thence running westerly by the said northerly line of Walnut Street for a distance of 10.19 feet; thence running north 13° 20′ east by a line parallel with and 10 feet distant from the first described line for a distance of 227.02 feet to the southerly line of Boylston Street; thence running easterly by said southerly line of Boylston Street for a distance of 10 feet to the point of beginning, and taking land as follows, viz.:

From the town of Brookline a parallel strip 6 feet in width, extending from Boylston Street to land of the estate of Edward S. Philbrick, containing 678 sq. feet.

From the estate of Edward S. Philbrick a parallel strip 6 feet in width, extending from land of town of Brookline to Walnut Street, containing 680 sq. feet.

From the estate of Edward S. Philbrick, owning the fee of the present passage-way, a parallel strip 4 feet in width, extending from Boylston Street to Walnut Street, containing 902 sq. feet.

Reserving, however, to the estate of Edward S. Philbrick the right to use and maintain the drain now in use in the existing passage-way.

The location of said foot-path is in accordance with a plan of the same, made by Alexis H. French, dated March 19, 1890, approved by us, and such plan is adopted by us as a part of this record.

We have estimated the damages sustained by the owners of lands, rights, and interests caused by the laying out and construction of said foot-path, whether by taking property or by injuring property in any manner whatsoever, and do estimate and determine the amount to be paid to the said parties as follows :

To the estate of Edward S. Philbrick, owning the fee of the present passage-way	$1 00
To estate of Edward S. Philbrick, for land taken for the widening of the present passage-way	$500 00

We make no other awards. Augustine Shurtleff and Adam Halfenstine, claiming rights in the present passage-way, in consideration of the Selectmen widening and laying out and the town accepting the same, agree to waive all claim for damage, and release all right, title, and interest in and to the same.

We estimate the cost of construction to be $500.00.

We allow the owners of the fee of the present passage-way and of other persons claiming rights therein, as well as the owners of other land taken for said foot-path, thirty days in which to remove fences, trees, shrubs, or any other property from the same.

And said foot-path, called by us Walnut Path, so laid out, located, and described, is hereby reported to the town for acceptance, and, when so accepted, allowed, and recorded, is to be known as a public path.

The said plan and this record, with the releases herein referred to, have this day been filed in the office of the Town Clerk.

Albert L. Lincoln, Jr.,
Watts H. Bowker,
Tucker Daland,
W. R. Chester,
Horace James,

Selectmen of the Town of Brookline.

Brookline, Mass., March 20, 1890.

Brookline, Mass., March 20, 1890.

Filed in the office of the Town Clerk.

Attest: B. F. Baker, *Town Clerk.*

WHEREAS, the undersigned, claiming to enjoy rights in a private passage-way four feet wide, leading from Boylston Street to Walnut Street, opposite the estate of Edward S. Philbrick, are desirous that the same should be widened and laid out as a public footpath as shown on a plan by Alexis H. French, C. E., dated March 19, 1890,

Now, therefore, know all men by these presents, that we Augustine Shurtleff and Frank L. Halfenstine, both of Brookline, Massachusetts, in consideration of the premises and one dollar to us paid by the inhabitants of the Town of Brookline aforesaid, hereby approve and authorize the laying out by the Selectmen of the said path and its acceptance by the town; and we, the said Augustine Shurtleff and Frank L. Halfenstine hereby remise, release, and forever quitclaim to the said Town of Brookline and its assigns, all claim or right to damages or compensation of any kind whatsoever on account of the said laying out by the Selectmen, and the acceptance by the town as aforesaid, or on account of any grading or constructing the same.

In testimony whereof, we hereunto for ourselves and our heirs, executors, administrators, and assigns, set our hands and seals this twentieth day of March, in the year 1890.

In presence of [SEAL] AUGUSTINE SHURTLEFF,
for myself and estate of S. A. Shurtleff.

GEORGE F. JOYCE, [SEAL] FRANK L. HALFENSTINE.

NORFOLK, ss. March 20, 1890.

Then personally appeared the above-named Augustine Shurtleff and Frank L. Halfenstine, and acknowledged the foregoing instrument to be their free act and deed. Before me

GEORGE F. JOYCE, *Justice of the Peace.*

BROOKLINE, MASS., March 20, 1890.

Filed in the office of the Town Clerk.

Attest: B. F. BAKER, *Town Clerk.*

Voted, That Walnut Path be accepted and allowed as laid out and located by the Selectmen and reported to the town at this meeting.

Voted, That the sum of one thousand dollars be appropriated for the construction of Walnut Path, and the payment of land damages thereon, and that the Selectmen be authorized to enter to construct the same at once.

Twenty-sixth Article taken up, — "To accept and allow Sewall Avenue as laid out by the Selectmen and reported to the town at this meeting."

The Selectmen presented the following report on the laying out of said way:

The undersigned, Selectmen of Brookline, having given printed and written notices to Charles H. Stearns, Amos S. Young, Mrs. Harry Young, E. Mortimer Ferris, Fanny S. Bittenbender, Almira F. Harrington, Joseph G. Stearns, Mary A. Putnam, John G. Stearns *et al.*, trustees, being all the persons known to us to be interested in the subject-matter of the street to be laid out, of our intention to lay out under the betterment law, a townway from Charles Street to Harvard Street, being an extension of Sewall Avenue, over the private way known as Sewall Avenue, such notices requiring such persons to appear before us at our room in the Town Hall, on Thursday, the fourteenth day of November, 1889, at 7½ o'clock P. M., and having caused such notices to be actually served according to law upon all such persons, by a constable of this town, at least seven days before the day appointed for the hearing, and having given notice to them and all other persons (if any) who may be interested in the subject-matter of said street, whose names are not known to us, or who have no place of abode in the town, neither tenant nor authorized agent, by posting up copies of the printed and written notices in three public places in the town, at least seven days before the day appointed for the hearing.

Pursuant to such notice, we met at the time and place appointed for the hearing, and thence by adjournment to 3 o'clock on Monday, November 18, 1889, at the same place, and having heard all the parties and their remarks and objections, and the route of the street having been viewed and examined by us, after fully considering the subject, adjudged that it was necessary for the public convenience that a street should be laid out by us, and accepted and maintained by the town as hereinafter described by its centre line as follows, viz:

Beginning at a point on the easterly side of Harvard Street, situated 26.82 feet northerly from an angle in said Harvard Street, and running north 26° 48′ 45″ east (across Longwood Avenue) for a distance of 428.01 feet; thence curving to the right by a radius of 256.35 feet for a distance of 108.72 feet; thence running north 50° 6′ 45″ east for a distance of 120.71 feet; thence curving to the right with a radius of 120 feet for a distance of 61.57 feet; thence curving to the right with a radius of 476.25 feet for a distance of 106.46 feet, to a point within the location of a part of Sewall Avenue already accepted by the town, and taking a parallel width of 20 feet on the southeasterly side of said centre line throughout its entire length; also a parallel width of 20 feet on the northwesterly side of the centre line from Harvard Street to a point situated 67.96 feet westerly from the easterly end of the last described line, where the side line is 20 feet distant from and opposite

said point in the centre line. From this point in the northwesterly line the street runs easterly by a tangent for a distance of 29.67 feet; thence curving to the left with a radius of 10 feet and running a distance of 18.02 feet to Charles Street.

The intersection of the easterly line of Harvard Street and the northwesterly line of said street is curved with a radius of 14.95 feet. The intersection of the southeasterly line of said street and the easterly line of Harvard Street is curved with a radius of 356.64 feet.

Land is taken for the laying out of said street as follows.

From J. G. Stearns, *et al.*, trustees	1,299 sq. feet.
" Fanny S. Bittenbender	870 " "
" Charles H. Stearns	4,268 " "
" Mary Ann Putnam	140 " "
" Joseph G. Stearns	989 " "
" Almira F. Harrington	810 " "
" E. Mortimer Ferris	517 " "
" Laura F. Young	253 " "
" Amos S. Young	151 " "
From the owners of the fee of Sewall Avenue, about	21,000 " "

The location of said Sewall Avenue is in accordance with a plan and profile of the same, made by Alexis H. French, C. E., dated October 18, 1889, approved by us, and such plan and profile are adopted by us as a part of this record.

We have estimated the damages sustained by the owners of lands, rights, and interests caused by the laying out and construction of said street, whether by taking land or by injuring property in any manner whatsoever, and do estimate and determine the amount to be paid to the said parties respectively, as follows:

To J. G. Stearns, *et al.*, trustees	$1,299
" Fanny S. Bittenbender	870
" Charles H. Stearns	4,618
" Mary Ann Putnam	140
" Joseph G. Stearns	1,022
" Almira F. Harrington	810
" E. Mortimer Ferris	537
" Laura F. Young	328
" Amos S. Young	151
" the owners of the fee of Sewall Avenue	1
	——$9,776

The Selectmen have given the owners of land taken for the street thirty days from the date of its acceptance by the town in which to remove all loam, trees, fences, and walls from said land.

The estimated cost of constructing the street is $3,250.

The said plan and profile, with this record, have this day been filed by us in the office of the Town Clerk.

ALBERT L. LINCOLN, JR.,
WATTS H. BOWKER,
TUCKER DALAND,
W. R. CHESTER,
HORACE JAMES,
Selectmen of the Town of Brookline.

BROOKLINE, March 21, 1890.

BROOKLINE, MASS., March 21, 1890.

Filed in the office of the Town Clerk.

Attest: B. F. BAKER, *Town Clerk.*

Voted, That Sewall Avenue be accepted and allowed as laid out and located by the Selectmen and reported to the town at this meeting, but that no entry be made therein and no work done thereon at present, and that no appropriation of money be made therefor.

Voted, That the money appropriated by the town at this annual town meeting, and the adjournment thereof, together with that appropriated since the last annual assessment of taxes not otherwise provided for, be assessed, after deducting the balance in the treasury and the estimated receipts for the ensuing town year, upon the polls and estates taxable in this town, and be collected as the town charges are usually assessed and collected.

Voted, That the Town Treasurer be authorized to borrow, in anticipation of taxes for the present year, such sums of money as may be needed from time to time, not exceeding altogether two hundred thousand dollars, paying therefor the current market rate of interest, giving the note or notes of the town therefor, signed by the Treasurer, and countersigned by at least a majority of the Selectmen, and to be paid from the taxes to be raised this year.

Voted, To adjourn to meet in this place on Wednesday the thirtieth instant, at half-past seven of the clock in the evening.

Adjourned.

Attest: B. F. BAKER, *Town Clerk.*

ADJOURNED ANNUAL MEETING, APRIL 30, 1890.

Pursuant to adjournment the inhabitants of the town of Brookline, qualified to vote in elections, met in the Town Hall in said town on Wednesday, the thirtieth day of April, in the year of our Lord eighteen hundred and ninety, and were called to order, at half-past seven of the clock in the evening, by the Moderator, William I. Bowditch.

Fifteenth Article taken up, — "To see whether the town will accept an act passed by the Legislature of the Commonwealth in the year eighteen hundred and eighty-two, entitled 'An act authorizing towns and cities to lay out public parks within their limits.'"

The Moderator appointed Edward W. Baker, Teller, to assist in sorting and counting the votes, and he was sworn by the Town Clerk.

The following motion was then presented for the action of the meeting, to wit:

Shall an act passed by the Legislature of the Commonwealth, in the year eighteen hundred and eighty-two, entitled "An act authorizing town and cities to lay out public parks within their limits," and the amendments thereto, be accepted?

Voted, That the polls be kept open until eight o'clock in the evening.

The polls were then declared open for the reception of votes on the question of accepting said act and its amendments, and they were kept open until eight o'clock when they were declared closed.

The Moderator, Town Clerk, and Teller then proceeded to sort and count the votes so given in, and the whole number was one hundred and eighty-nine and were as follows, to wit: No, sixty-eight (68); Yes, one hundred and twenty-one (121); and the motion was declared passed in the affirmative.

Sixteenth and Seventeenth Articles taken up, to wit:

Sixteenth, — "To prescribe the terms of office of Park Commissioners, elected under the 'Act authorizing towns and cities to lay out public parks within their limits.'"

Seventeenth, — "To elect three Park Commissioners, under the 'Act authorizing towns and cities to lay out public parks within their limits.'"

On motion of Mr. Albert L. Lincoln, Jr., it was —

Voted, That three Park Commissioners be elected by the town, under Chapter 154 of the Acts of 1882 and any amendments thereof, one to hold office until the next annual town meeting, one to hold office until the annual meeting in 1892, and one to hold office until the annual meeting in 1893, and that hereafter at each annual town meeting one Commissioner shall be elected, who shall hold office for three years, — said Commissioners so elected to hold office in each case until their successors are elected and qualified.

Voted, That the polls be kept open ten minutes.

The polls were then declared open for the reception of votes for three Park Commissioners for one, two, and three years, and were kept open ten minutes when they were declared closed.

The Moderator, Town Clerk, and Teller then proceeded to sort and count the votes given in, and the whole number was fifty-seven, and the following persons having all the votes cast were declared elected, viz:

Henry M. Whitney, for one year; Charles S. Sargent, for two years; William H. Lincoln, for three years.

Eighteenth Article taken up, — "To see if the town will purchase for a public playground or park the lot of land lying between Longwood Avenue and Francis Street, directly opposite the end of Toxteth Street, and adjoining the Lawrence School, and appropriate money or issue the bonds of the town for the payment of the said land, or take such other action in relation thereto as may be deemed expedient."

On motion of Mr. Samuel Y. Nash, it was —

Voted, That the Eighteenth Article be indefinitely postponed.

Fifth Article taken up, — "To see if the town will authorize the Selectmen to settle suits and claims against the town, and to employ counsel in cases where they shall consider it necessary."

On motion of Mr. Albert L. Lincoln, Jr., it was —

Voted, That the Selectmen be authorized to agree on behalf of the town, to the reference of any land damage cases now pending against the town to a board of auditors, as suggested by Mr. Justice Barker of the Superior Court; also that the said Selectmen have power to agree upon the terms approved by them that such reference shall be final; also, that said Selectmen have power to settle any of said cases at their discretion.

The act in relation to public parks referred to in Article Fifteen and accepted at this meeting, with the amendments thereto, is as follows, to wit:

[Acts of 1882 — Chapter 154.]

AN ACT AUTHORIZING TOWNS AND CITIES TO LAY OUT PUBLIC PARKS WITHIN THEIR LIMITS.

Be it enacted, etc., as follows:

Section 1. Any town in this Commonwealth which accepts the provisions of this act in the manner hereinafter prescribed may, at a legal meeting called for the purpose, elect three competent persons, who shall constitute a board of Park Commissioners for such town, and may prescribe their terms of office; and the mayor of any city which in such manner accepts said provisions may, with the approval of the city council, as soon as may be after such acceptance, appoint five competent persons, who shall constitute a board of park commissioners for such city, and who shall hold their offices until the expiration of terms of one, two, three, four, and five years respectively, from the first Monday in May next following such appointment; and the mayor shall, before the first Monday in May in each year thereafter, with like approval appoint one such commissioner to continue in office for five years from the expiration of the term of the commissioner then next outgoing. No person shall be such commissioner who is at the same time a selectman, or other officer of such town, or a member of the city council, clerk or treasurer, of such city; and any such commissioner may be removed by a vote of two-thirds of the legal voters of such town, at a legal town meeting called for the purpose, or by a concurrent vote of two-thirds of the whole of each branch of such city council.

Section 2. Any vacancy occurring in such board shall be filled for the residue of the term of the commissioner whose place is to be filled in the manner in which such commissioner was originally appointed. Such commissioners shall serve without compensation.

SECTION 3. Such boards of park commissioners shall have power to locate within the limits of their respective towns or cities a public park or parks, and for that purpose from time to time to take in fee by purchase, gift, devise, or otherwise, any and all such lands as they may deem desirable therefor, or to take bonds for the conveyance thereof to their respective towns or cities; to lay out and improve any such park or parks; to make rules for the use and government thereof, and for breaches of such rules to affix penalties not exceeding twenty dollars for one offence, to be imposed by any court of competent jurisdiction; to appoint all necessary engineers, surveyors, clerks, and other officers, including a police force to act in such parks; to define the powers and duties of such officers and fix the amount of their compensation; and generally to do all acts needful for the proper execution of the powers and duties granted to or imposed upon such town or city or upon such boards by this act: *provided, however*, that no land shall be taken, or any other thing involving an expenditure of money be done, under this act until an appropriation sufficient to cover the estimated expense thereof shall in a town have been made by a vote of two-thirds of the legal voters present and voting in a legal town meeting called for the purpose, or in a city by a vote of two-thirds of each branch of the city council; and such expenditures shall in no case exceed the appropriations made therefor, and all contracts made for expenditures beyond the amount of such appropriations shall be void; *provided, further*, that in a town no taking of land otherwise than by purchase shall be valid unless such taking is reported to the town, filed, accepted, and allowed, as provided by section seventy-one, of chapter forty-nine, of the Public Statutes in the case of laying out town ways.

SECTION 4. Such board shall, within sixty days after the taking of any land under this act, file and cause to be recorded in the registry of deeds for the county or district in which any land so taken is situated a description thereof sufficiently accurate for identifying the same.

SECTION 5. Such boards shall respectively estimate and determine all damages sustained by any person by the taking of land or by other acts of such boards in the execution of the powers vested in them respectively by this act; but a person aggrieved by any such determination of the board may have his damages assessed by a jury of the superior court in the same manner as is provided by law with respect to damages sustained by reason of the laying out of ways. If upon trial damages are increased beyond the award, the party in whose favor the award was made shall recover his costs; otherwise he shall pay costs; and costs shall be taxed as in civil cases.

SECTION 6. The fee of any land taken or purchased by such boards in any town or city for a park under this act shall vest in the town or city in which such park is laid out; and such town or city shall be liable

to pay all damages assessed or determined, as provided in the preceding section, and all other costs and expenses incurred by its board of park commissioners in the execution of the powers vested in such board by this act. Any town or city shall also be authorized to take and hold in trust or otherwise any devise, grant, gift, or bequest that may be made for the purpose of laying out, improving or ornamenting any park or parks therein.

Section 7. The boards of park commissioners in their respective towns and cities shall have the same authority to determine the value of, and assess upon real estate the amount of betterments accruing to said real estate by the locating and laying out of a park or parks under this act that is conferred by chapter fifty-one, of the Public Statutes upon boards of city or town officers authorized to lay out streets or ways; and the provisions of the first eight sections of said chapter relating to ways, shall apply to such assessments by boards of park commissioners in respect to the location and laying out of parks as aforesaid: *provided*, *however*, that no assessment shall be laid upon any real estate except such as abuts upon the park from the laying out of which the betterment accrues, or upon a street or way bounded by such park.

Section 8. Any town or city in which a public park is laid out under this act may raise, appropriate, and expend such sums of money as may be deemed best for the purchase and improvement of such park or parks, subject to the laws of this Commonwealth limiting municipal indebtedness.

Section 9. For the purpose of defraying the expenses incurred under the provisions of this act, the city council of any city shall have authority to issue from time to time, and to an amount not exceeding the sum actually expended for the purchase or taking of lands for a park or parks, bonds or certificates of debt, to be denominated on the face thereof the "Public Park Loan," and to bear interest at such rates and to be payable at such times as said city council may determine. For the redemption of such loan such city council shall establish a sinking fund sufficient, with the accumulating interest, to provide for the payment of such loan at maturity. All amounts received for betterment shall be paid into such sinking fund until such fund shall amount to a sum sufficient, with its accumulations, to pay at maturity the bonds for the security of which the fund was established.

Section 10. All lands taken or held under this act shall be forever kept open and maintained as a public park or parks. No building covering more than six hundred square feet shall be placed or allowed to remain on any such park; and no street or way, and no steam or horse railroad, shall be laid out over any portion of a park located

under this act, except at such places and in such manner as the board of park commissioners shall approve.

SECTION 11. No military encampment, parade, drill, review, or other military evolution or exercise shall be held or performed on any park laid out as aforesaid except with the consent of such board, nor shall any military body without such consent enter or move in military order within such park, except in case of riot, insurrection, rebellion, or war.

SECTION 12. All such boards of park commissioners shall make reports of their respective doings, including detailed statements of all receipts, expenditures, and liabilities for the preceding year; such reports to be made in towns at the annual town meetings, and at such other times as the town may direct, and in cities to the city council annually in the month of December.

SECTION 13. This act shall not take full effect in any town or city unless accepted by a majority of the legal voters of such town or city present and voting thereon by ballot and using the check list, at a meeting or meetings, notice whereof has been duly given at least seven days beforehand. Such ballots shall be "yes" or "no" in answer to the question, "Shall an act passed by the Legislature of the Commonwealth in the year eighteen hundred and eighty-two, entitled 'An Act authorizing towns and cities to lay out public parks within their limits,' be accepted?" In a town such meetings shall be called and notified in the manner in which meetings for the election of town officers are called and notified; and in a city meetings to act thereon shall be held at one time in the usual voting places of the city, on such days as shall be designated by the board of aldermen at any regular meeting, and shall be called and notified by the board of aldermen in the manner in which meetings for the election of municipal officers are called and notified. The ballots cast shall be assorted, counted, and public declaration made thereof in open town or ward meeting, and the number of ballots respectively cast shall be registered in the town or ward records as the case may be. The clerk of each ward in a city shall, within forty-eight hours of the close of the polls, make return to the board of aldermen of the number of ballots cast in his ward in favor of the acceptance of this act and of the number cast against its acceptance. The selectmen and town clerk of a town and the board of aldermen of a city in which such meeting or meetings are held shall certify, as soon as may be thereafter, to the secretary of the Commonwealth, the whole number of ballots cast in favor of the acceptance of this act, and the whole number cast against its acceptance; and if it shall appear that a majority of the ballots have been cast in favor of acceptance, the said secretary shall immediately issue and publish his

certificate declaring this act to have been duly accepted by such town or city.

Section 14. No second meeting for the purpose of voting upon the question of accepting this act shall be called within twelve months from the first, unless the first meeting shall have failed through illegality or irregularity in the proceedings.

Section 15. This act shall take effect upon its passage. [*Approved April 13, 1882.*

Amendment. [Acts of 1890 — Chapter 240.]

AN ACT TO AMEND AN ACT AUTHORIZING TOWNS AND CITIES TO LAY OUT PUBLIC PARKS WITHIN THEIR LIMITS.

Be it enacted by the Senate and House of Representatives, in General Court assembled, and by the authority of the same, as follows :

Section 1. Section one of chapter one hundred and fifty-four of the acts of the year eighteen hundred and eighty-two, entitled An Act authorizing towns and cities to lay out public parks within their limits, is hereby amended by striking out from the last sentence of said section the following words, "or other officer," and inserting in place thereof the words, — or treasurer or clerk, — so that said section as amended shall read as follows: Section 1. Any town in this Commonwealth which accepts the provisions of this act in the manner hereinafter prescribed may, at a legal meeting called for the purpose, elect three competent persons who shall constitute a board of park commissioners for such town, and may prescribe their terms of office ; and the mayor of any city which in such manner accepts said provisions may, with the approval of the city council, as soon as may be after such acceptance, appoint five competent persons who shall constitute a board of park commissioners for such city, and who shall hold their offices until the expiration of terms of one, two, three, four, and five years respectively, from the first Monday in May next following such appointment ; and the mayor shall, before the first Monday in May in each year thereafter, with like approval, appoint one such commissioner to continue in office for five years from the expiration of the term of the commissioner then next outgoing. No person shall be such commissioner who is at the same time a selectman, or treasurer, or clerk of such town, or a member of the city council, clerk, or treasurer of such city ; and any such commissioner may be removed by a vote of two-thirds of the legal voters of such town, at a legal town meeting called for the purpose, or by a concurrent vote of two-thirds of the whole of each branch of such city council.

Section 2. This act shall take effect upon its passage. [*Approved April 30, 1890.*

Dissolved.

Attest: B. F. Baker, *Town Clerk.*

SPECIAL MEETING, SEPTEMBER 18, 1890.

WARRANT.

COMMONWEALTH OF MASSACHUSETTS.

NORFOLK, ss.

To either of the Constables of the Town of Brookline, Greeting : —

In the name of the Commonwealth of Massachusetts, you are hereby required to notify and warn the inhabitants of the town of Brookline, qualified to vote in elections, to meet at the Town Hall, in said town, on Thursday, the eighteenth day of September, current, at seven and one-half o'clock in the evening, for the following purposes, to wit :

First, To choose a Moderator.

Second, To accept and allow Browne Street as laid out by the Selectmen and reported to the town at this meeting.

Third, to see if the town will change the name of Sullivan Road to Rawson Road, as petitioned for by Reuen Thomas and others.

Fourth, To appropriate money for the widening of Harvard Street as ordered by the County Commissioners, and for the repair of the road bed.

Fifth, To accept and allow Upland Road and Maple Street as laid out by the Selectmen and reported to the town at this meeting.

Sixth, To appropriate money for the extension of sewers.

Seventh, To accept and allow Auburn Street as laid out by the Selectmen and reported to the town at this meeting.

Eighth, To appropriate money for the printing of town records.

Ninth, To accept and allow Deane Road and Druce Street as laid out by the Selectmen and reported to the town at this meeting, and to appropriate money for the construction of the bridge for said roads or ways across the Boston and Albany Railroad, and to authorize the Treasurer to borrow the same.

Tenth, To adopt a by-law in reference to the numbering of buildings.

Eleventh, To consider and act upon the report of the Committee on Additional Water Supply, and appropriate a further amount for the completion of the proposed work.

Twelfth, To consider and act upon the extension of water mains in Brook Street, Newton Street, and Road No. 6, Aspinwall Hill, as recommended by the Water Board, and appropriate money therefor.

Thirteenth, To accept and allow Winthrop Road as laid out by the Selectmen and reported to the town at this meeting.

Fourteenth, To appropriate money for the construction of the approaches to the Cypress Street bridge over the Boston and Albany Railroad, and to authorize the Treasurer to borrow the same.

Fifteenth, To see if the town will authorize the School Committee to appoint a Superintendent of Schools, in accordance with Public Statutes, Chapter 44, Section 43.

Sixteenth, To authorize the Selectmen to apply to the General Court for an act giving to the Selectmen original or concurrent jurisdiction with the County Commissioners over the highways of the town.

Seventeenth, To appropriate and raise by borrowing or otherwise, such sums of money as may be necessary for all or any of the purposes mentioned in the foregoing articles.

Hereof fail not, and make due return of this warrant to the Selectmen, with your doings thereon, four days at least before the day of said meeting.

Given under our hands at Brookline aforesaid, this ninth day of September, in the year of our Lord eighteen hundred and ninety.

ALBERT L. LINCOLN, JR.,
TUCKER DALAND,
JAMES B. HAND,
HORACE JAMES,
Selectmen of Brookline.

NORFOLK, ss. BROOKLINE, September 17, 1890.

In pursuance of the within warrant, I have notified and warned the inhabitants of the town of Brookline, qualified to vote in elections, to meet at the time and place, and for the purposes herein named, by causing an attested printed copy to be left at their last and usual place of abode; and also by posting the same in at least three public places in said town, all which was done four days at least before the day of said meeting.

W. Y. GROSS, *Constable.*

In pursuance of the foregoing warrant, the inhabitants of the town of Brookline, qualified to vote in elections, met in the Town Hall in said town, on Thursday, the eighteenth day of September, in the year of our Lord eighteen hundred and ninety, and were called to order by the Town Clerk, at half-past seven of the clock in the evening. The Clerk then read the warrant calling said meeting, and the return thereon of the officer who served the same upon the inhabitants.

First Article taken up, — "To choose a Moderator."

The meeting nominated and chose for Moderator Moses Williams.

Second Article taken up, — "To accept and allow Browne Street as laid out by the Selectmen, and reported to the town at this meeting."

The Selectmen presented the following report on the laying out of said street, to wit:

Location. — Browne Street.

The undersigned, Selectmen of Brookline, having given printed and written notices to Grace W. Rives, heirs of David Sears, F. S. G. de Hauteville, and McPherson LeMoyne, being all the parties known to us to be interested in the subject-matter of the street to be laid out by us, that we intend to lay out as a townway the private way known as Browne Street from Pleasant Street to St. Paul Street of a uniform width of forty feet, substantially along the line of the private way known as Browne Street as at present existing between said termini; such notices requiring such parties to appear before us at our room in the Town Hall, on Monday, the 28th day of July, 1890, at 5 o'clock P. M; and having caused such notices to be actually served according to law upon all such parties by a constable of this town, seven days at least before the day appointed for the hearing, and having also given notice to them and all other parties (if any), who may be interested in the subject-matter of said street whose names are not known to us, or who have no place of abode in the town, or who have no tenant or authorized agent known to us, by posting up a copy of the printed and written notices in three public places in the town seven days at least before the day appointed for the hearing.

Pursuant to such notice, we met at the time and place appointed for the hearing, and after hearing the parties and their remarks and objections, and the route of the proposed street having been viewed and examined by us, after fully considering the subject, adjudged that it was necessary for the public convenience that the street should be laid out and maintained by the town, as hereinafter described by its centre line.

Beginning at a point on the easterly side of Pleasant Street 20.08 feet from the northeasterly corner of a stone bound which marks the southeasterly corner of Pleasant Street and said Browne Street, and running south 80° 48′ east, 410.49 feet to the westerly side of St. Paul Street, taking a parallel width of twenty feet on both sides of the centre line from the owners of the fee of said private way. The location of said Browne Street is in accordance with a plan and profile of the same made by Aspinwall and Lincoln, civil engineers, dated July 25, 1890, approved by us, and adopted as a part of this record.

We award as damages to the owner or owners of the fee of the land over which said street is laid out, the sum of one dollar.

We have given the abutters fifteen days from the date of the acceptance of this report by the town in which to remove their buildings, structures, trees, hedges, walls, and fences.

And said street or way, as so laid out, located, and described, having been already constructed, is hereby reported to the town for acceptance and when so accepted, allowed, and recorded is to be a townway, which may be entered upon at once for use and travel.

The said plan, profile, and this record have this day been filed by us in the Town Clerk's office.

ALBERT L. LINCOLN, JR.,
TUCKER DALAND,
JAMES B. HAND,
HORACE JAMES,
Selectmen of Brookline.

BROOKLINE, September 9, 1890.

BROOKLINE, MASS., September 9, 1890.

Filed in the office of the Town Clerk.

Attest: B. F. BAKER, *Town Clerk.*

Voted, That Browne Street as laid out by the Selectmen and reported to the town at this meeting, be accepted and allowed as a townway.

Third Article taken up, — "To see if the town will change the name of Sullivan Road to Rawson Road, as petitioned for by Reuen Thomas and others."

On motion of Mr. Albert L. Lincoln, Jr., it was —

Voted, That the name of Sullivan Road be changed to Rawson Road.

Fourth Article taken up, — "To appropriate money for the widening of Harvard Street as ordered by the County Commissioners, and for the repair of the road-bed."

Voted, That the sum of three thousand and eight hundred dollars ($3,800) be appropriated for the widening and improvement of Harvard Street, the same to be taken from any money in the treasury not otherwise appropriated.

Fifth Article taken up, — "To accept and allow Upland Road and Maple Street as laid out by the Selectmen and reported to the town at this meeting."

The Selectmen presented the following report on the laying out of said road and street, to wit:

The undersigned, Selectmen of Brookline, having given printed and written notices to Helen G. Swan, James W. Edgerly, Anna G. Clay, Charles R. Cross, Reuben L. Roberts, Mabel H. Foster, Horace D. Chapin, trustee, Mary B. Chapman, Lydia C. Head, and Horace D. Chapin and Alfred Winsor, trustees of the estate of Edward S. Philbrick, being all the parties known to us to be interested in the subject-matter of the streets to be laid out by us, that we intend to lay out as a townway, the private way known as Walley Avenue, and a street forty feet in width leading therefrom through land of estate of Samuel Philbrick to Irving Street, such notices requiring such parties to appear before us at our room at the Town Hall, on Monday, the twenty-third day of June, 1890, at 4 o'clock P. M.; and having caused such notices to be actually served according to law upon all such parties by a constable of this town at least seven days before the day appointed for the hearing, and having also given notice to them and all other parties (if any) who may be interested in the subject-matter of said street whose names are not known to us or who have no place of abode in the town, or who have no tenant or authorized agent known to us, by posting up a copy of the printed and written notices in three public places in the town at least seven days before the day appointed for the hearing.

Pursuant to such notice, we met at the time and place appointed for the hearing, and after hearing the parties and their remarks and objections, and the route of the proposed streets having been viewed and examined by us, after fully considering the subject, adjudged that it was necessary for the public convenience that the streets should be laid out and maintained by the town, as hereinafter described by the centre line.

Beginning at a point on the westerly side of Irving Street situated 249.37 feet from Walnut Street and running south 55° 26′ 23″ west 116.45 feet; thence curving to the right with a radius of 1920.48 feet, 185.95 feet; thence running south 60° 59′ 15″ west 30.00 feet; thence curving to the left with a radius of 115.89 feet, 191.80 feet; thence running south 33° 50′ 13″ east 221.29 feet; thence curving to the left with a radius of 200 feet, 87.31 feet; thence curving to the left with a radius of 40 feet, 33.91 feet; thence running north 23° 59′ 55″ east 262.38 feet; thence curving to the right with a radius of 205.64 feet, 112.16 feet; thence running north 55° 15′ 0″ east 56.83 feet to Irving Street, and taking a parallel width of (20) twenty feet on both sides of the centre line, and curving the corners of the southerly connection with Irving Street with a radius of (20) twenty feet. Also beginning at

a point on the centre line of the above described street situated 694.60 feet from Irving Street and running north 63° 53′ 55″ east 262.29 feet to the centre of the previously described street, and taking a parallel width of twenty (20) feet on each side of the centre line. The intersection of the northwesterly side of this street and the westerly side of the street previously described is curved with a radius of 95.41 feet, and the northwesterly and the southwesterly corners of the same with a radius of 20 feet. Taking land as follows:

From Estate of Samuel Philbrick, about . . . . 20,968 feet.
From the owners of the fee of the private way heretofore known as Walley Avenue, about . . . . . 39,862 feet.

And taking also from the owners of adjoining lands the right to support the said streets by sloping upon their lands, leaving to them the right to use the land covered by said slopes in any manner not inconsistent with the stability of the road-bed of said streets. The location of said ways is in accordance with a plan and profile of the same made by Alexis H. French, C. E., dated June 3, 1890, approved by us and made a part of this record.

No awards are made, the owners of land abutting upon said ways and of the fee of the land over which such ways are laid out, in consideration of the laying out of the same as townways, agree to waive all claim or right to damages or compensation of any kind whatsoever on account of the said laying out by the Selectmen and the acceptance by the town, or on account of any grading or constructing of the streets. The said streets having been constructed by the abutters may be entered upon at once for use and travel. And the said streets as so laid out, located, and described, are hereby reported to the town for acceptance, and when so accepted, allowed, and recorded, are to be known as public ways. The said plan and profile, with this record and the release herein referred to, have this day been filed by us in the office of the Town Clerk.

Release. — Upland Road and Maple Street.

Whereas the undersigned, owners of the fee in, or owners of, or parties having an interest in the sewer in, or in lands or buildings in, near or abutting upon, Maple Street and Walley Street, now private ways leading southwesterly from Irving Street in Brookline, over land of the estate of Edward S. Philbrick, are desirous that the said Maple Street and Walley Street be laid out by the Selectmen, of a uniform width of forty (40) feet, as townways, in accordance with a plan thereof made by Alexis H. French, C. E., dated June 3, 1890, and that the said ways be accepted by the town.

Now, therefore, know all men by these presents that we, the undersigned, in consideration of the premises, and of one dollar to us paid, the receipt whereof is hereby acknowledged, and for other good and valuable considerations, do hereby approve and authorize the laying out of said Maple Street and Walley Street as townways and the acceptance thereof by the town; and we do hereby remise, release, and forever quitclaim to the said town of Brookline and its assigns, all our right, title, and interest in the existing sewer in said streets, and all claim or right to damages or compensation of any kind whatsoever on account of the said laying out by the Selectmen and said acceptance by the town as aforesaid, or on account of any grading or constructing, or of supporting by slopes or otherwise the road-bed of said streets. But this release is not intended to affect or impair at all the right of any owner of abutting land to use such slopes or supports for building or for any other purposes or use incident to the ownership of the fee in such slopes or supports that will not impair the security of the road-bed.

In testimony whereof we have hereunto, for ourselves, our heirs, executors, administrators, successors, and assigns, set our hands and seals this fourth day of June, in the year eighteen hundred and ninety, hereby adopting a common seal.

Whereas the undersigned, owners of the fee in, and of the sewer in, and owners of lands or buildings in, near, or abutting upon, Maple Street and Walley Street, now private ways leading southwesterly from Irving Street in Brookline over land of the estate of Edward S. Philbrick, are desirous that the said Maple Street and Walley Street be laid out by the Selectmen, of a uniform width of forty (40) feet, as townways, in accordance with a plan thereof made by Alexis H. French, C. E., dated June 3, 1890, and that the said ways be accepted by the town.

Now, therefore, know all men by these presents, that we the undersigned, in consideration of the premises, and of four hundred forty-four and $\frac{50}{100}$ dollars to us paid, the receipt whereof is hereby acknowledged, and for other good and valuable considerations, do hereby approve and authorize the laying out of said Maple Street and Walley Street as townways and the acceptance thereof by the town; and we do hereby remise, release, and forever quitclaim to the said town of Brookline and its assigns all our right, title, and interest in the existing sewer in said streets and all claim or right to damages or compensation of any kind whatsoever on account of the said laying out by the Selectmen and said acceptance by the town as aforesaid, or on account of any grading or constructing, or of supporting, by slopes or otherwise, the road-bed of said streets. But this release is not intended to affect or impair at all the right of any owner of abutting land to use such slopes or supports for building or for any other purposes or use incident to the ownership of the fee in such slopes or supports that will not impair the security of the road-bed.

In testimony whereof we have hereunto, for ourselves, our heirs, executors, administrators, successors, and assigns, set our hands and seals this fourth day of June, in the year eighteen hundred and ninety.

Alfred Winsor,
Horace D. Chapin,
Trustees under will of Edw. S. Philbrick.

Brookline, Mass., September 9, 1890.

Filed in the office of the Town Clerk.

Attest: B. F. Baker, *Town Clerk.*

On motion of Mr. Albert L. Lincoln, Jr., it was —

Voted, That the street laid out by the Selectmen September 9, 1890, to be known in part as Upland Road and in part as Maple Street, and reported to the town at this meeting be accepted and allowed as a townway.

Sixth Article taken up, — "To appropriate money for the extension of sewers."

On motion of Mr. Albert L. Lincoln, Jr., it was —

Voted, That the sum of six thousand dollars be appropriated for the extension of sewers, the same to be charged to sewer assessments, or any money in the treasury not otherwise appropriated.

Seventh Article taken up, — "To accept and allow Auburn Street as laid out by the Selectmen and reported to the town at this meeting."

The Selectmen presented the following report on the laying out of said street, to wit:

The undersigned, Selectmen of Brookline, having given printed and written notices to John L. Stoddard, Francis J. Nash, Edward C. Wilson, Daniel W. Russell, Ella M. Burgett, Susan R. Chase, Jerusha A. Burgess, David H. McKay, Francis Hunnewell, James R. Watson, and Elizabeth T. Dow, being all the parties known to us to be interested in the subject-matter of the street to be laid out by us, that we intend to lay out under the provisions of law authorizing the assessment of betterments, being Chapter 51 of the Public Statutes, a street 40 feet in width from Harvard Street to Park Street, such notices requiring such parties to appear before us at our room at the Town Hall, on Monday, the twenty-third day of June, 1890, at 5 o'clock P. M.; and having caused such notices to be actually served according to law upon all such parties by a constable of this town at least seven days before the day appointed for the hearing, and having also given notice to them and all other parties (if any) who may be interested in the subject-matter of said street whose names are not known to us or who have no place of abode in the town, or who have no tenant or authorized agent known to us, by posting up a copy of the printed and written notices in three public places in the town at least seven days before the day appointed for the hearing:

Pursuant to such notice, we met at the time and place appointed for the hearing, and after hearing the parties and their remarks and objections and the route of the street having been viewed and examined by us, after fully considering the subject, adjudged that it was necessary for the public convenience that Auburn Street should be laid out and maintained by the town, as hereinafter described by its northerly line.

Beginning at a point on the easterly side of Park Street situated 277.50 feet northerly from Harvard Avenue, measured on said easterly line of Park Street, and running south 74° 14′ 0″ east 881.32 feet to the

westerly side of Harvard Street. The southerly line of said Auburn Street is parallel with and forty (40) feet distant from the above described northerly line. The northwesterly corner of Harvard Street and Auburn Street is curved with a radius of fifteen (15) feet, and the southwesterly corner of the same with a radius of twenty-five (25) feet. The northeasterly and the southeasterly corners of Park Street and Auburn Street are each curved with a radius of ten (10) feet. And taking land as follows :

From John L. Stoddard, about	1,245 feet
" Francis J. Nash	1,405 "
" Edward C. Wilson	2,009 "
" Daniel W. Russell	2,715 "
" Ella M. Burgett	1,621.50 "

We have estimated the damages sustained by the owners of land, rights, and interests caused by the laying out and construction of said street in the manner aforesaid, whether by taking property or by injuring property in any manner whatsoever, and do estimate and determine the amounts to be paid to said parties respectively, as follows, viz :

To John L. Stoddard	$871.50
" Francis J. Nash	772.75
" Edward C. Wilson	904.05
" Daniel W. Russell	1,221.75
" Ella M. Burgett	1,135.05

To the owners of the fee of Auburn Street, so called, as now constructed, one dollar.

The location of said street is in accordance with a plan and profile of the same, dated June 15, 1890, made by A. H. French, C. E., approved by us, and such plan and profile are adopted by us as a part of this record.

We have given the owners of the lands through which said street or way is laid out fifteen days from the date of the acceptance of this report by the town in which to remove their buildings, structures, trees, hedges, walls, and fences standing on said land. And said street as so laid out, located, and described is hereby reported to the town for acceptance, and when so accepted, allowed, and recorded, is to be known as a townway.

The said plans, profile, and this record, have this day been filed by us in the office of the town Clerk.

The cost of land and other damages we estimate at . . $4,727.90
The estimated cost of constructing the street . . . 3,615.00

JAMES B. HAND,
HORACE JAMES,
Selectmen of Brookline.

BROOKLINE, MASS., September 9, 1890.

BROOKLINE, MASS., September 9, 1890.

Filed in the office of the Town Clerk.

Attest: B. F. BAKER, *Town Clerk.*

On motion of Mr. Albert L. Lincoln, Jr., it was —

Voted, That Auburn Street as laid out by the Selectmen, and reported to the town at this meeting, be accepted and allowed as a townway.

Voted, That the sum of eight thousand four hundred and fifty dollars be appropriated for the construction of Auburn Street and for the payment of the land damages thereon, the same to be taken from any money in the treasury not otherwise appropriated.

Voted, That the Selectmen are hereby authorized to enter upon and construct Auburn Street as laid out by them September 9, 1890, before all claims for damages by reason of such laying out shall have been finally adjusted.

Eighth Article taken up, — "To appropriate money for the printing of town records."

On motion of Mr. Albert L. Lincoln, Jr., it was —

Voted, That the sum of two thousand two hundred dollars be appropriated for printing the town records for the years 1838 to 1871, inclusive, said sum to be taken from any money in the treasury not otherwise appropriated.

Ninth Article taken up, — "To accept and allow Dean Road and Druce Street as laid out by the Selectmen and reported to the town at this meeting, and to appropriate money for the construction of the bridge for said roads or ways across the Boston and Albany Railroad, and to authorize the Treasurer to borrow the same."

The Selectmen presented the following report on the laying out of said ways, to wit:

The undersigned, Selectmen of Brookline, having given printed and written notices to Eugene R. Knapp, West End Land Co., Arthur Rotch, Estate of Jacob W. Pierce, and Boston and Albany Railroad Co., being all the parties known to us to be interested in the subject-matter of the streets to be laid out by us, that we intend to lay out as townways the private ways known as Dean Road and Druce Street, from Beacon Street to Buckminster Road, crossing the Boston and Albany Railroad by a bridge at a point about 2,000 feet easterly from Chestnut Hill Avenue; such notices requiring such parties to appear before us at our room in the Town Hall, on Monday, the fourteenth day of July, 1890, at 4½ o'clock P. M.; and having caused such notices to be actually served according to law upon all such parties by a constable of this town, seven days at least before the day appointed for the hearing, and having also given notice to them and all other parties (if any) who may be interested in the subject-matter of said streets whose names are not known to us, or who have no place of abode in the town, or who have no tenant or authorized agent known to us, by posting up a copy of the printed and written notices in three public places in the town seven days at least before the day appointed for the hearing:

Pursuant to such notice, we met at the time and place appointed for the hearing, and after hearing the parties and their remarks and objections, and the route of the proposed streets having been viewed and examined by us, after fully considering the subject, adjudged that it was necessary for the public convenience that the streets should be laid out and maintained by the town, as hereinafter described by the centre lines of Druce Street and Dean Road, each being 50 feet in width.

Druce Street.— Beginning at a point in the northerly side of Buckminster Road, said point being 715.50 feet easterly by the northerly side of said Buckminster Road from the easterly side of Fisher Avenue, thence running northerly on land of Arthur Rotch and estate of J. W. Pierce by a curved line to the left having a radius of 124.34 feet, 76.77 feet to a point tangent; thence on land of said Arthur Rotch and said estate of J. W. Pierce by a straight line 260.44 feet to a point curvature; thence on said estate of J. W. Pierce and land of said Arthur Rotch by a curved line to the right having a radius of 121.70 feet, 194.42 feet to a point of reverse curvature, said point being at the intersection of the centre lines of said Druce Street and Dean Road.

Dean Road. — Thence from said point of reverse curvature described herein as at the intersection of Druce Street and Dean Road and continuing on said Dean Road on land of Arthur Rotch by a

curved line to the left, having a radius of 955.37 feet, 479.66 feet to a point tangent; thence on land of said Arthur Rotch and across the location of the Boston and Albany Railroad Co. by a straight line 130 feet to a point curvature; thence on land of the West End Land Co. by a curved line to the left having a radius of 269.83 feet, 189.40 feet to a point tangent; thence on land of the said West End Land Co. by a straight line 372.85 feet to a point in the southerly side of Beacon Street, said point being about 93.03 feet easterly by the southerly side of said Beacon Street from the end of a curve on said side of said Beacon Street, having a radius of 17,268.80 feet.

Taking land as follows:

From Estate of Jacob W. Pierce	9,965 feet.
From Arthur Rotch	41,095 "
From City of Boston	2,000 sq.ft.
Boston & Albany R. R. Co.	3,710 "
From West End Land Co.	28,390 "

And taking also from the owners of adjoining lands the right to support the said streets, by sloping upon their lands, leaving to them the right to use the land covered by said slopes in any manner not inconsistent with the stability of the road-bed.

The location of said streets is in accordance with a plan and profile of the same by Ernest W. Bowditch, C. E., dated September, 1890, approved by us; and such plan and profile are adopted by us as a part of this record.

No awards are made. Certain owners of land abutting upon said roads or ways and of the fee of the land over which said roads or ways is laid out, in consideration of the laying out of said roads and its acceptance by the town, and an agreement by the town to build within one year a bridge for the roads or ways across the Boston and Albany Railroad, as allowed by the County and Railroad Commissioners, agree to waive all claims to land or grade damages. The said abutters further agree on their part to build the unfinished portion of the road, including a new and suitable culvert for the brook, in the same manner and of as good quality as that already built.

The Selectmen have considered the claims of the West End Land Co. and find that the benefit to its estate from the laying out of the road or way is equal to the damages, and therefore make no award.

There being no structures, buildings, trees, walls, fences, or hedges standing upon the land taken requiring to be removed, excepting such as will be removed by the abutters building the road or way, the same may be entered upon at once for the purpose of constructing the bridge across the Boston and Albany Railroad. The estimated cost of the bridge is $14,500.

And said road or way so laid out, located, and described, is hereby reported to the town for acceptance; and when so accepted, allowed, and recorded, is to be a townway.

The said plan, profile, and this record, with the releases and agreements herein referred to, have this day been filed by us in the office of the Town Clerk.

Attest: B. F. BAKER, *Town Clerk.*

Release. — Druce Street and Dean Road.

WHEREAS the undersigned, owners of or parties having an interest in lands or buildings in, near, or abutting upon Druce Street and Dean Road, so called, private ways between Buckminster Road and Beacon Street in Brookline, the said Druce Street having been constructed and the said Dean Road having been partially constructed, are desirous that the said private ways shall be laid out by the Selectmen of Brookline as townways and be accepted by the town:

Now, therefore, know all men by these presents, that we, the undersigned, in consideration of the premises and of one dollar to us paid, the receipt whereof is hereby acknowledged, and for other good and valuable considerations, do hereby approve and authorize the laying out of the said ways as townways, and their acceptance by the town; and we do hereby remise, release, and forever quitclaim to the said town of Brookline and its assigns all claim or right to damages or compensation of any kind whatsoever, on account of the said laying out by the Selectmen and the said acceptance by the town as aforesaid, or on account of any grading or constructing, or of supporting by slopes or otherwise the road-bed, or the bridge or abutments at the crossing of the Boston and Albany Railroad, of the said Dean Road and of the said Druce Street. But this release is not intended to affect or impair at all the right of any owner of abutting land to use such slopes or supports for building or for any other purpose or use incident to the ownership of the fee in such slopes or supports that will not impair the security of the road-bed or of the bridge and abutments, which right is expressly reserved.

This release is made upon the condition that if the said ways or either of them are located, laid out, or constructed under the betterment law, the town shall make a binding agreement in writing to assume any betterments assessed on our respective estates, or any portion thereof, for such location, laying out, and construction.

In testimony whereof we have hereunto for ourselves, our heirs, executors, administrators, successors, and assigns, set our hands and seals this eighth day of July, in the year one thousand eight hundred and ninety.

In the presence of

Agreement. — Dean Road.

Whereas it is desirable that a townway or ways should be laid out by the Selectmen and be accepted by the town of Brookline, so as to conform substantially to the location of Druce Street, so called, and Dean Road, so called, forming a thoroughfare between Buckminster Road and Beacon Street:

And whereas Druce Street has been constructed and opened for use by the land-owners, and that part of Dean Road between Druce Street and the location of the Boston and Albany railroad has also been constructed and opened for use by the landowners:

And whereas the rest of the said Dean Road including a bridge over the tracks of the Boston and Albany Railroad has not been fully constructed:

Now, therefore, know all men by these presents, that we, the undersigned, hereby agree with the inhabitants of the town of Brookline that if within four months from the date hereof the selectmen will lay out and the town will accept the foregoing Druce Street and Dean Road as a townway or ways, that is to say, a townway or ways to conform substantially to the location of Druce Street, so called, and Dean Road, so called, forming a thoroughfare between Buckminster Road and Beacon Street, and further, if within the said time the town will make an appropriation for the construction of a suitable bridge across the tracks of the Boston and Albany Railroad, with proper abutments, so as to make said Dean Road a continuous way over said railroad, and will

build the said bridge and abutments within one year after the town's vote of acceptance, as aforesaid, putting the same in proper condition for use in all respects, then we, the undersigned, will make or cause to be made without cost to the said town the said Dean Road from its present terminus on the south side of the railroad location to such point on the line of said Dean Road north of the railroad location as will meet the work of construction done by the West End Land Company, or by others, on the line of said Dean Road, including a new and suitable culvert for the brook, excepting the said bridge and the stone abutments to the said bridge, which the town is to make and pay for; the said part of the said way to be made by us within six months after the town's vote of acceptance as aforesaid, and according to such plan, profile, and specifications as the town shall provide; it being understood, however, that we shall not be compelled to build a road of better character than the part of the said Dean Road already built.

In testimony whereof we have hereunto for ourselves, our heirs, executors, administrators, and assigns, set our hands and seals this second day of July, in the year one thousand eight hundred and ninety.

BROOKLINE, MASS., September 9, 1890.

Filed in the office of the Town Clerk.

Attest: B. F. BAKER, *Town Clerk.*

On motion of Mr. Albert L. Lincoln, Jr., it was —

Voted, That the street laid out by the Selectmen to be known in part as Dean Road and in part as Druce Street, and reported to the Town at this meeting, be accepted and allowed as a townway.

Voted, That the Selectmen are hereby authorized to enter upon and construct Dean Road as laid out by them September 9, 1890, before all claims for damages by reason of such laying out shall have been finally adjusted.

Voted, That the sum of fifteen thousand five hundred dollars be appropriated for the construction of the bridge on Dean Road over the Boston and Albany Railroad.

Mr. Albert L. Lincoln, Jr., offered the following vote, to wit:

Voted, That the Town Treasurer be and he is hereby authorized to borrow, when so directed by the Selectmen, the sum of fifteen thousand five hundred dollars, paying therefor a rate of interest not exceeding four per cent. per annum, payable semi-annually, giving therefor the note or notes of the town bearing date at the time when said note or notes are issued and payable in ten years therefrom signed by the Treasurer, and countersigned by a majority, at least, of the Selectmen; the said sum to be applied to the payment of the construction of the bridge on Dean Road over the Boston & Albany Railroad. Such indebtedness shall be made payable in such annual proportionate payments as will extinguish the same within ten years from the date of delivery of said notes.

The Moderator appointed as Tellers Messrs. Alfred D. Chandler and Moorfield Storey, and they were sworn by the Town Clerk.

The vote was then put upon its passage and the whole number of votes was one hundred and fifteen, as follows, to wit: Yeas, one hundred and fifteen (115); Nays, none (0), and the vote was declared passed in the affirmative by more than two-thirds of the voters present and voting thereon.

Tenth Article taken up, — "To adopt a by-law in reference to the numbering of buildings."

Mr. Albert L. Lincoln, Jr., presented the following by-law, to wit:

By-Law as to Numbering Buildings:

"The Selectmen may order numbers to be affixed to or painted on the buildings on any street, in their discretion; and any owner refusing to comply with such order shall be liable to a fine of not less than one and not more than twenty dollars."

Voted, to adopt the foregoing by-law.

Eleventh Article taken up, — "To consider and act upon the report of the Committee on Additional Water Supply, and appropriate a further amount for completion of the proposed work."

On motion of Mr. Albert L. Lincoln, Jr., it was —

Voted, That the sum of four thousand dollars be appropriated for the purpose of completing the work for the water supply.

Mr. Albert L. Lincoln, Jr., then offered and moved the passage of the following vote, to wit:

Voted, That the Town Treasurer be authorized to borrow when so directed by the Selectmen to pay for the extension of the Water Works, under the provisions of Chapter 343 of the Acts of 1872 and Chapter 131 of the Acts of 1888, the sum of four thousand dollars, paying therefor a rate of interest not exceeding four per cent. per annum, payable semi-annually, and giving therefor the notes or scrip of the town to be denominated on the face "Brookline Water Scrip," signed by the Treasurer and countersigned by a majority at least of the Selectmen. Such indebtedness shall be payable in such annual proportional payments as will extinguish the same in thirty years.

The vote was then put upon its passage, the same Tellers acting, and the whole number of votes was one hundred and twenty-three, as follows, to wit: Yeas, one hundred and twenty-three (123); Nays, none (0); and the vote was declared passed in the affirmative by more than two-thirds of the voters present and voting thereon.

Twelfth Article taken up, — "To consider and act upon the extension of water mains in Brook Street, Newton Street, and Road No. 6 Aspinwall Hill, as recommended by the Water Board, and appropriate money therefor."

Voted, That the Water Board be authorized to extend water mains in Brook Street, Road No. 6 Aspinwall Hill, and Newton Street, as petitioned for, at an aggregate cost of five thousand six hundred and thirty dollars and that this amount, to be taken from water receipts, be and is hereby appropriated, for this purpose, the petitioners filing a bond with the Water Board, guaranteeing five per cent. income per annum for five years upon the cost of the extension represented in their respective petitions.

Thirteenth Article taken up, — "To accept and allow Winthrop Road as laid out by the Selectmen and reported to the town at this meeting."

The Selectmen presented the following report on the laying out of said road, to wit:

The undersigned, Selectmen of Brookline, having given printed and written notices to William Aspinwall, Rosetta J. P. Brown, Charles H. Drew, heirs of John D. Sturtevant, trustees of Boston University, heirs of J. D. Leland, Jr., Aspinwall Land Co., Charles A. Hopkins, C. S. Eaton, Robert W. Lord, Lizzie F. C. Richardson, and B. L. Hastings, being all the parties known to us to be interested in the subject-matter of the street to be laid out by us, that we intend to lay out Winthrop Road from Gardner Road to Beacon Street, substantially on the line of the private way known as Winthrop Road, such notices requiring such parties to appear before us at our room at the Town Hall, on Monday, the 21st day of July, 1890, at 5 o'clock P. M.; and having caused such notices to be actually served according to law upon all such parties by a constable of this town, at least seven days before the day appointed for the hearing, and having also given notice to them and all other parties (if any) who may be interested in the subject-matter of said street, whose names are not known to us or who have no place of abode in the town, or who have no tenant or authorized agent known to us, by posting up a copy of the printed and written notices in three public places in the town at least seven days before the day appointed for the hearing:

Pursuant to such notice, we met at the time and place appointed for the hearing, and after hearing the parties and their remarks and objections, and the route of the proposed street having been viewed and examined by us, after fully considering the subject, adjudged that it was necessary for the public convenience that the street should be laid out and maintained by the town, as hereinafter described by its centre line.

Beginning at a point on the northerly side line of Gardner Road, this said point being distant (in a general easterly direction measured on the curved line of said Gardner Road) 104.26 feet from the easterly end of the tangent in the said line of said Gardner Road opposite the estate of Rosetta J. P. Brown; thence running in a general northerly direction, curving to the right with a radius of 636.80 feet, 190.86 feet; thence running on a straight line N. 27° 23′ 30″ W. 45.00 feet; thence curving to the left with a radius of 198.41 feet, 88.88 feet; thence curving to the left with a radius of 240.60 feet, 149.70 feet; thence on a straight line N. 88° 42′ 30″ W. 31.29 feet; thence curving to the right

with a radius of 929.57 feet, 491.32 feet; thence curving to the left with a radius of 250.32 feet, 84.32 feet; thence curving to the left with a radius of 1063.65 feet, 177.18 feet; thence on a straight line N. 87° 16′ 10″ W. 83.51 feet; thence curving to the right with a radius of 251.70 feet, 120.81 feet; thence curving to the right with a radius of 6978.56 feet, 649.60 feet; thence curving to the right with a radius of 2865 feet, 565.01 feet; thence on a straight line N. 43° 8′ 10″ W. 34.95 feet to the southerly side line of Beacon Street as widened and altered; the said road above described by its centre line having a uniform width of 40 feet and taking from the owners of the fee of said Winthrop Road 20 feet on each side of the said described line, and the corners of the said road at Gardner Road and Beacon Street, aforesaid, being rounded as follows, to wit: The southeasterly corner at Gardner Road with a radius of 91.43 feet, the southwesterly corner at Gardner Road with a radius of 28.76 feet, the northeasterly corner at Beacon Street with a radius of 25 feet, and the northwesterly corner at Beacon Street with a radius of 75 feet, all as shown on a plan drawn by Aspinwall and Lincoln, of Boston, civil engineers, entitled, Plan and Profile of Winthrop Road, Brookline, Mass., and dated July 14, 1890, which plan is hereby made part of this description.

We take from the owners of adjoining lands the right to support the said road by sloping upon their lands, leaving to them the right to use the land covered by said slopes in any manner not inconsistent with the stability of the road-bed.

No awards are made. The owners of the fee of the land over which said road is laid out, in consideration of the laying out of the same and its acceptance by the town, agree to waive all claims to land or grade damages. The said road having been constructed may be entered upon at once for use and travel. And said road or way so laid out, located, and described, is hereby reported to the town for acceptance, and when so accepted, allowed, and recorded, is to be known as a townway.

The said plan and profile, with this record and the releases herein referred to, have this day been filed in the office of the Town Clerk.

ALBERT L. LINCOLN, JR.,
TUCKER DALAND,
JAMES B. HAND,
HORACE JAMES,
Selectmen of Brookline.

BROOKLINE, September 9, 1890.

BROOKLINE, MASS., September 9, 1890.

Filed in the office of the Town Clerk.

Attest: B. F. BAKER, *Town Clerk.*

Release on Winthrop Road.

WHEREAS, the undersigned, owners of or parties having an interest in lands or buildings in, near, or upon Winthrop Road, now a private way in the town of Brookline, forming a connecting route between Gardner Road and Beacon Street, said way being measured and described as follows, viz. :

Commencing on Gardner Road and running westerly nearly parallel with Washington Street to Beacon Street, with a uniform width of forty feet, as shown upon a plan filed herewith, drawn by Aspinwall and Lincoln, Civil Engineers, and described as "Plan and Profile of Winthrop Road, Brookline, Mass.," are desirous that the said Winthrop Road should be laid out by the Selectmen as a townway, and be accepted by the town :

Now, therefore, know all men by these presents, that we, the undersigned, in consideration of the premises, and of one dollar to us paid, the receipt whereof is hereby acknowledged, and for other good and valuable considerations, do hereby approve and authorize the laying out of the said Winthrop Road as a townway, and its acceptance by the town : and we do hereby remise, release, and forever quitclaim to the said town of Brookline and its assigns, all claim or right to damages or compensation of any kind whatsoever, on account of the said laying out by the Selectmen and the acceptance by the town as aforesaid : or on account of any grading or constructing, or of maintaining where necessary the established grade of the said road, by sloping or banking on our adjoining lands.

But this release is not intended to affect or impair at all the right of any owner of abutting land to use such slopes or banks for building or any other purpose or use incident to the ownership of the fee in such slopes or banks that will not impair the security of the road-bed, which right is expressly reserved.

This release is made upon the condition that the said Winthrop Road shall not be laid out by the Selectmen under the betterment law.

In testimony whereof we have hereunto, for ourselves, our heirs, executors, administrators, successors, and assigns, set our hands and seals this sixteenth day of May, in the year 1890.

Witness :

HERBERT G. WHITE, to E. I. B. and W. L. K. } EDWARD I. BROWNE, [SEAL.]
WILLIAM L. KINSMAN, [SEAL.]

As Trustees of the Aspinwall Land Company.

The Trustees of Boston University,

By WILLIAM CLAFLIN, *President.* { CORPORATE SEAL. }

RICHARD W. HUSTED, *Treasurer.*

At a regular meeting of the Directors of the Aspinwall Land Company, duly called and notified, and held in Boston this sixteenth day of May, 1890, a quorum being present, the foregoing instrument having been read, considered, and approved by the Directors, it was —

Voted, That Edward I. Browne and William L. Kinsman, the trustees of this company, be and they are hereby required and directed to execute and deliver the same as the free act and deed of this company.

A true copy from the records of Directors.

Attest: Wm. L. Candler, *Clerk.*

At a regular meeting of the Trustees of Boston University, duly called and notified, and held in Boston this twenty-third day of June, 1890, a quorum being present, the foregoing instrument having been read, considered, and approved, it was —

Voted, That the President and Treasurer be and they are hereby required and directed to execute and deliver the same as the free act and deed of this Corporation.

A true copy.

Attest: Wm. R. Clark, *Secretary.*

Brookline, Mass., September 8, 1890.

Filed in the Office of the Town Clerk.

Attest: B. F. Baker, *Town Clerk.*

On motion of Mr. Albert L. Lincoln, Jr., it was —

Voted, That Winthrop Road as laid out by the Selectmen September 9, 1890, and reported to the town at this meeting, be accepted and allowed as a townway.

Fourteenth Article taken up, — "To appropriate money for the construction of the approaches to the Cypress-Street bridge over the Boston & Albany Railroad, and to authorize the Treasurer to borrow the same."

On motion of Mr. Albert L. Lincoln, Jr., it was —

Voted, That the sum of thirty-five thousand dollars is hereby appropriated to pay for the construction of the approaches to the Cypress-Street bridge over the Boston & Albany Railroad.

Voted, That the sum of twelve thousand dollars be appropriated to pay for the land damages awarded by the County Commissioners in their order of July 3, 1888, decreeing a separation of the grade of Cypress Street and the Boston & Albany Railroad.

Mr. Albert L. Lincoln, Jr., then offered the following vote, to wit:

Voted, That the Town Treasurer be and he is hereby authorized to borrow, when so directed by the Selectmen, the sum of thirty-five thousand dollars, paying therefor a rate of interest not exceeding four per cent. per annum, payable semi-annually, giving therefor the note or notes of the town, signed by the Treasurer and countersigned by a majority at least of the Selectmen; the said sum to be applied to the payment of the construction of the approaches to the Cypress-Street bridge over the Boston & Albany Railroad. Such indebtedness shall be made payable in such annual proportional payments as will extinguish the same within ten years from the date of delivery of said notes.

The vote was then put upon its passage, the same Tellers acting, and the whole number of votes was one hundred and twenty-five, as follows, to wit: Yeas, one hundred and twenty-five (125); Nays, none (0); and the vote was declared passed in the affirmative by more than two-thirds of the voters present and voting thereon.

Fifteenth Article taken up, — "To see if the town will authorize the School Committee to appoint a Superintendent of Schools, in accordance with Public Statutes, Chapter 44, Section 43."

On motion of Mr. Albert L. Lincoln, Jr., it was —

Voted, That the town authorizes the School Committee annually to appoint a Superintendent of Public Schools in accordance with the Public Statutes.

Sixteenth Article taken up, — "To authorize the Selectmen to apply to the General Court for an Act giving to the Select-

men original or concurrent jurisdiction with the County Commissioners over the highways of the town."

Voted, That the Selectmen are hereby instructed to apply to the Legislature for an Act giving the Selectmen original, exclusive, or concurrent jurisdiction with the County Commissioners over the highways in the town.

Nays, sixty (60); Yeas, sixty-three (63); and the vote was declared passed in the affirmative.

Dissolved.

Attest: B. F. Baker, *Town Clerk.*

GENERAL ELECTION, NOVEMBER 4, 1890.

WARRANT.

Commonwealth of Massachusetts.

Norfolk, ss.

To either of the Constables of the Town of Brookline, Greeting: —

In the name of the Commonwealth of Massachusetts, you are hereby required to notify and warn the inhabitants of the Town of Brookline qualified to vote in elections, to meet at the Town Hall, in said town, on Tuesday, the fourth day of November, next, it being the Tuesday next after the first Monday in said month, at seven o'clock in the forenoon, at which time and place the polls will be opened and kept open until thirty minutes past four o'clock in the afternoon, during which time they will be required to give in their votes for the following National, State, and County Officers, to wit:

A member of the Congress of the United States for the Ninth Congressional District; Governor; Lieutenant-Governor; Councillor for the Second District; Secretary; Treasurer and Receiver-General; Auditor; Attorney-General; Senator for the Second Norfolk District; a Representative to the General Court for the Second Norfolk District; one County Commissioner for the County of Norfolk for three years; a District Attorney for the Southeastern District for two years, to fill a vacancy; all to be voted for on one ticket.

Also to give in their votes, Yes or No, on the following articles of amendment to the Constitution :

ARTICLE OF AMENDMENT TO PREVENT THE DISFRANCHISEMENT OF VOTERS BECAUSE OF A CHANGE OF RESIDENCE WITHIN THE COMMONWEALTH.

No person otherwise qualified to vote in elections for governor, lieutenant-governor, senators, and representatives, shall, by reason of a change of residence within the Commonwealth, be disqualified from voting for said officers in the city or town from which he has removed his residence, until the expiration of six calendar months from the time of such removal.

ARTICLE OF AMENDMENT RELATIVE TO SOLDIERS AND SAILORS EXERCISING THE RIGHT OF FRANCHISE.

Article twenty-eight of the amendments of the Constitution is hereby amended by striking out, in the fourth line thereof, the words "being a pauper," and inserting in place thereof the words: receiving or having received aid from any city or town ; and also by striking out, in said fourth line, the words "if a pauper," so that the article as amended shall read as follows :

ARTICLE XXVIII. No person having served in the army or navy of the United States in time of war, and having been honorably discharged from such service, shall be disqualified therefor on account of receiving or having received aid from any city or town, or because of the non-payment of a poll tax.

Hereof fail not, and make due return of this warrant to the Selectmen, with your doings thereon, four days at least before the day of said meeting.

Given under our hands at Brookline aforesaid, this twentieth day of October, in the year of our Lord one thousand eight hundred and ninety.

ALBERT L. LINCOLN, JR.,
WATTS H. BOWKER,
JAMES B. HAND,
HORACE JAMES,
TUCKER DALAND,
Selectmen of Brookline.

NORFOLK, ss. BROOKLINE, October 28, 1890.

In pursuance of the within warrant, I have notified and warned the inhabitants of the town of Brookline, qualified to vote in elections, to meet at the time and place, and for the purposes within named, by

causing an attested copy of the same to be left at their last and usual place of abode ; and also, by posting in three or more public places in said town seven days at least before the day of said meeting.

W. Y. Gross, *Constable.*

In pursuance of the foregoing warrant the inhabitants of the Town of Brookline qualified to vote in elections met in the Town Hall in said town on Tuesday, the fourth day of November, in the year of our Lord one thousand eight hundred and ninety, it being the Tuesday next after the first Monday in said month, and were called to order at seven of the clock in the forenoon by Mr. Albert L. Lincoln, Jr., chairman of the Board of Selectmen. The Town Clerk then read the warrant calling said meeting and the return thereon of the officer who served the same upon the inhabitants.

In pursuance of, and in conformity with, the laws of this Commonwealth in relation to elections, the Town Hall had been fitted up as a polling place, a space railed off, and thirty shelves or compartments provided for the use and convenience of the voters to examine and mark their ballots, each compartment supplied with cards of instruction and suitable conveniences for marking the ballots.

The Inspectors, Edward C. Hovey and Aaron H. Latham, the Deputy Inspectors, Charles H. Utley and D. Blakely Hoar, and the Tellers, Edward W. Baker, Edwin P. Bowker, Frederic Cunningham, Charles A. Harris, Nathaniel A. Francis, Charles H. Utley, and D. Blakely Hoar, who had been appointed by the Selectmen were sworn by the Town Clerk to the faithful discharge of their duties. Messrs. Edward C. Hovey and Aaron H. Latham, who acted as ballot clerks, were then stationed at the entrance to the polling place, and were furnished with a list of the registered voters of the town.

One package of the ballots supplied by the Secretary of the Commonwealth, marked "First set two thousand two hundred and fifty, Town of Brookline," was then delivered to the chairmen of the selectmen, by the Town Clerk, who took his receipt therefor. The chairman of the Selectmen then publicly broke the seal of said package and delivered said ballots to the

Ballot Clerks, who furnished them to the voters as they presented themselves, and checked their names on the list. The cards of instruction and specimen ballots were also posted in different parts of the hall outside the railing.

The ballot box to be used at elections was then opened in public meeting, and was examined by the Selectmen and Town Clerk and shown to be empty.

The register of the box was then set at zero (0) and locked; the key of the lower part was delivered to Mr. Willard Y. Gross, the Constable in charge of the meeting, and the key of the upper part to Mr. Albert L. Lincoln, Jr., chairman of the Board of Selectmen.

The polls were then declared open for the reception of votes, and were kept open until thirty minutes past four of the clock in afternoon when, after due notice, they were declared closed.

The Selectmen and Town Clerk had charge of the election and the ballot box and check list were in their care, and during the time of voting the ballot box, by unanimous consent, was opened three times for the purpose of making room and counting the votes, and again at the close of the polls when the register stood at one thousand five hundred and sixty-two (1562).

During the voting the box had failed to take in the ticket six (6) times, but registered the numbers. The names on the list of voters which had been checked were then counted, and the whole number was one thousand five hundred and fifty-six, which was found to agree with the register on the ballot box after deducting the six times which the box had failed to take in the ballot, but registered the numbers of the same.

The list of voters used by the ballot clerks at the entrance to the place of voting was then compared with the one kept by the Town Clerk at the ballot box, and was found to agree.

The Selectmen, Town Clerk, and Tellers then proceeded to canvass the votes given in, and the whole number was one thousand five hundred and fifty-six, which were sorted, counted, and recorded, and declaration thereof made in open town meeting as required by law, and were for the following national, state, county, and district officers, viz:

For Governor: One thousand five hundred and fourteen.
John Blackmer, of Springfield, had thirty-eight.
John Q. A. Brackett, of Arlington, had six hundred and ninety-three.
William E. Russell, of Cambridge, had seven hundred and eighty-three.

For Lieutenant-Governor: One thousand four hundred and eighty-one.
John W. Corcoran, of Clinton, had seven hundred and seven.
William H. Haile, of Springfield, had seven hundred and thirty-eight.
George Kempton, of Sharon, had thirty-six.

For Secretary: One thousand four hundred and fifty-four.
George D. Crittenden, of Buckland, had thirty-eight.
Elbridge Cushman, of Lakeville, had six hundred and seventy-six.
William M. Olin, of Boston, had seven hundred and thirty-nine.
Welland E. Howland, of Chelsea, had one.

For Treasurer and Receiver-General: One thousand four hundred and forty-seven.
William H. Gleason, of Boston, had forty-six.
George A. Marden, of Lowell, had seven hundred and sixty-two.
Edwin L. Munn, of Holyoke, had six hundred and thirty-eight.
W. O'Connell had one.

For Auditor: One thousand three hundred and eighty-nine.
Charles R. Ladd, of Springfield, had six hundred and ninety-five.
Augustus R. Smith, of Lee, had fifty-three.
William D. T. Trefry, of Marblehead, had six hundred and forty-one.

For Attorney-General: One thousand four hundred and thirty-seven.
Wolcott Hamlin, of Amherst, had thirty-nine.
Elisha B. Maynard, of Springfield, had six hundred and forty-four.
Albert E. Pillsbury, of Boston, had seven hundred and fifty-four.

For Representative in Congress, Ninth District: One thousand five hundred and four.
John W. Candler, of Brookline, had seven hundred and fifty-three.
Melvin H. Walker, of Westboro, had thirteen.
George Fred Williams, of Dedham, had seven hundred and thirty-six.

For Councillor, Second District: One thousand four hundred and thirty-two.
Charles T. Dunklee, of Brookline, had seven hundred and three.
Charles L. Smith, of Norwood, had forty.
Arthur W. Tufts, of Boston, had six hundred and eighty-nine.

For County Commissioner: One thousand four hundred and thirty-nine.

Joshua B. Hanners, of Walpole, had thirty-one.

William H. White, of Brookline, had seven hundred and sixty-three.

George W. Wiggin, of Franklin, had six hundred and forty-five.

For District Attorney, Southeastern District: One thousand four hundred and eight.

Harvey H. Pratt, of Abington, had seven hundred and fifty-two.

Alonzo B. Wentworth, of Dedham, had six hundred and fifty-six.

For Senator, Second Norfolk District: One thousand four hundred and forty-two.

Erastus L. Metcalf, of Franklin, had forty.

Frank Smith, of Dover, had six hundred and twenty.

George Makepeace Towle, of Brookline, had seven hundred and eighty-two.

Representative in General Court, Second Norfolk District: One thousand two hundred and ten.

Enoch E. Doran, of Brookline, had one hundred and thirteen.

George N. Carpenter, of Brookline, had one thousand and ninety-seven, and was declared elected to the next General Court from the Second Norfolk District.

Amendment to the Constitution to Prevent the Disfranchisement of Voters because of a Change of Residence within the Commonwealth.

No person otherwise qualified to vote in elections for governor, lieutenant-governor, senators, and representatives, shall, by reason of a change of residence within the Commonwealth, be disqualified from voting for said officers in the city or town from which he has removed his residence, until the expiration of six calendar months from the time of such removal.

Whole number of votes nine hundred and ten. Yes, six hundred and sixty-nine. No, two hundred and forty-one.

Amendment to the Constitution relative to Soldiers and Sailors Exercising the Right of Franchise.

Article twenty-eight of the amendments of the Constitution is hereby amended by striking out, in the fourth line thereof, the words, "being a pauper," and inserting in place thereof the words: receiving or having received aid from any city or town; and also by striking out, in said fourth line, the words "if a pauper," so that the article as amended shall read as follows:

ARTICLE XXVIII. No person having served in the army or navy of the United States in time of war, and having been honorably discharged from such service, shall be disqualified therefor on account of receiving or having received aid from any city or town, or because of the non-payment of a poll tax.

Whole number of votes seven hundred and ninety-three. Yes, five hundred and fifty-seven. No, two hundred and thirty-six.

In voting, the check list was used, and no person was allowed to deposit his vote until his name was found on the list and checked.

The business of the meeting being completed, the returns were filled up, signed by the Selectmen, countersigned by the Town Clerk, and sealed up in open Town Meeting as required by law, and delivered to the Town Clerk to forward to their several places of destination.

The votes cast and the list of voters used at the polls were then sealed up and endorsed by the Selectmen, and the list of voters used by the ballot clerks at the entrance to the voting place and the damaged ballots returned, were also sealed up and endorsed by the ballot clerks, and both packages were delivered to the Town Clerk, in conformity with the law in such cases made and provided.

The meeting was then declared dissolved by Mr. Albert L. Lincoln, Jr., chairman of the Board of Selectmen.

Dissolved.

Attest: B. F. BAKER, *Town Clerk.*

BROOKLINE, MASS., November 8, 1890.

Received the following petition for a recount of votes cast in this town for a member of Congress for the Ninth Congressional District, November 4, 1890, to wit:

To the Clerk of the Town of Brookline, Mass.

The undersigned, qualified voters of Brookline, Mass., respectfully represent that they have reason to believe that the returns of the election officers of this town for Member of Congress, at the election held on Tuesday, the fourth day of November, 1890, were erroneous in this, that the said election officers improperly counted certain

ballots at said election for George Fred Williams, and failed to count certain other ballots properly for John W. Candler; and further because the said election officers failed to properly foot or add up the votes cast for Member of Congress at said election.

Walstein R. Chester,	R. G. F. Candage,
Robert A. Southworth,	Jacob P. Bates,
H. E. Abbott,	J. R. Winch,
John C. Cobb,	David Hall Rice,
Frederick M. Bond,	A. S. Arthur,

M. Goodspeed.

In pursuance of the foregoing petition, the Selectmen and Town Clerk met in the Selectmen's room, in the Town Hall, on Tuesday, the eleventh day of November, in the year eighteen hundred and ninety, at half past seven of the clock in the evening, pursuant to notice, and proceeded to open the package of ballots cast at the election held by the town on Tuesday, the fourth day of November, 1890, which were in the custody of the Town Clerk, and canvassed and counted the ballots cast for Member of Congress for the Ninth Congressional District, and the whole number was one thousand and five hundred, and were as follows, as shown by the certificate of the Selectmen, to wit:

To Benjamin F. Baker, Town Clerk of the Town of Brookline:

We, the undersigned Selectmen of the town of Brookline, hereby certify that the ballots cast in the election, on Tuesday, November 4, 1890, have been recounted by us, upon a petition of ten citizens of said town, in accordance with the provisions of Chapter 423 of the Acts of 1890, and the result of the recount, so far as it relates to the vote cast for Member of Congress from the Ninth Massachusetts District, is as follows:

Whole number of votes cast		1500
For John W. Candler, of Brookline	753	
For George Fred Williams, of Dedham	736	
For Melvin H. Walker, of Westboro	11	
		1500

Witness our hands this eleventh day of November, A. D. 1890.

Albert L. Lincoln, Jr.
Tucker Daland,
James B. Hand,
Horace James,
Selectmen of the Town of Brookline.

The ballots were again sealed up and delivered into the custody of the Town Clerk.

Dissolved.

Attest: B. F. Baker, *Town Clerk.*

SPECIAL MEETING JANUARY 29, 1891.

WARRANT.

Commonwealth of Massachusetts.

Norfolk, ss.

To either of the Constables of the Town of Brookline, Greeting :—

In the name of the Commonwealth of Massachusetts, you are hereby required to notify and warn the inhabitants of the town of Brookline, qualified to vote in elections, to meet at the Town Hall, in said town, on Thursday, the twenty-ninth day of January, current, at half-past seven o'clock in the evening, for the following purposes, to wit :

First, To choose a Moderator.

Second, To see if the town will accept the provisions of Chapter 386 of the Acts of 1890, entitled "An Act to authorize the printing and distribution of ballots for town elections at the public expense."

Third, To determine what town officers, if any, not required by law to be chosen by ballot, shall be so chosen, also the number and terms of such officers.

Fourth, To fix the number and terms of officers now required by law to be chosen by ballot.

Fifth, To accept and allow Lancaster Terrace, as laid out by the Selectmen, and reported to the town at this meeting.

Sixth, To appropriate money for sidewalks.

Seventh, To appropriate money for the purchase of land for the use of the Water and Highway Departments, and to authorize the Treasurer to borrow the same.

Eighth, To see if the town will amend Section 9 of the Water Ordinances.

Ninth, To act upon the recommendation of the Water Board for an appropriation of ($5,000) five thousand dollars for the purchase of water pipe, and for the extensions petitioned for.

Tenth, To consider and act upon the transfer of balances standing to the credit of the extension and maintenance accounts of the water works.

Eleventh, To see if the town will appropriate the sum of ($1,200) twelve hundred dollars to meet the deficiency in the appropriation for the enlargement of the Heath Street School, and for a further equipment of the same.

Twelfth, To appropriate money for sewers.

Thirteenth, To hear and act upon reports of town officers and committees.

Fourteenth, To appropriate and raise, by borrowing or otherwise, such sums of money as may be needed for all or any of the purposes mentioned in the foregoing articles; and, especially, to act upon all the appropriations asked for, or proposed, by the Selectmen, or by any town officers or committees.

Hereof fail not, and make due return of this warrant with your doings thereon, to the Selectmen, four days at least before the day of said meeting.

Given under our hands at Brookline aforesaid, this twenty-second day of January, in the year of our Lord eighteen hundred and ninety-one.

ALBERT L. LINCOLN, JR.,
TUCKER DALAND,
HORACE JAMES,
JAMES B. HAND,
Selectmen of Brookline.

NORFOLK, ss. BROOKLINE, January 26, 1891.

In pursuance of the within warrant, I have notified and warned the inhabitants of the Town of Brookline, qualified to vote in elections, to meet at the time and place, and for the purposes herein named, by causing a printed copy of the same to be left at their last and usual place of abode; and also by posting copies in three or more public places four days at least before the day of said meeting.

W. Y. GROSS, *Constable.*

In pursuance of the foregoing warrant, the inhabitants of the Town of Brookline, qualified to vote in elections, met in the Town Hall in said town, on Thursday, the twenty-ninth day of January, in the year of our Lord eighteen hundred and ninety-one, and were called to order at half-past seven of the clock in the evening, by the Town Clerk, who read the warrant calling said meeting, and the return thereon of the officer who served the same upon the inhabitants.

First Article taken up, — "To choose a Moderator."

The meeting nominated and choose for Moderator, Hon. William Aspinwall.

Sixth Article taken up, — "To appropriate money for sidewalks."

On motion of Mr. Albert L. Lincoln, Jr., it was —

Voted, That the sum of two thousand dollars be appropriated for sidewalks, the same to be taken from any money in the treasury not otherwise appropriated.

Eighth Article taken up, — "To see if the town will amend Section 9 of the Water Ordinances."

On motion of Mr. Albert L. Lincoln, Jr., it was —

Voted, That Section nine of the Water Ordinances be amended by substituting the following amendment, to wit :

SECTION 9. The Water Board shall cause to be made out as near the first day of January of each year as practicable, and at such other periods during every year as there is occasion therefor, all bills for water becoming due at such times, and shall cause the same to be sent, either by mail or otherwise, to each person owing a bill, stating upon the face of the bills the limit of time for payment, and that they are payable at the office of the Treasurer and Collector. They shall also arrange that their Registrar shall be in his office at stated hours, to be agreed upon with the Treasurer and Collector, during the periods when the bills are payable, for the purpose of adjusting any claims which may be made for rebate, or any matter connected therewith.

Ninth Article taken up, — "To act upon the recommendation of the Water Board for an appropriation of ($5,000) five thousand dollars for the purchase of water pipe, and for the extensions petitioned for."

On motion of Mr. Francis Hunnewell, it was —

Voted, That the Water Board be authorized to lay water-mains as follows, to wit :

(1) A six-inch pipe on Winthrop Road, a distance of 500 feet, as petitioned for by Charles H. Drew, at an estimated cost of $606.00.

(2) Eight hundred and fifty feet six-inch, and four hundred and fifty feet eight-inch pipe, on petition of Jos. H. White, at an estimated cost of $1,637.00.

(3) A six-inch pipe on Gorham Avenue to replace the two-inch pipe now there, at an estimated cost of $1,317.00.

(4) A six-inch pipe on Green Street, a distance of 550 feet, at an estimated cost of $634.00.

Voted, That the sum of five thousand ($5,000) dollars, to be taken from water receipts, be appropriated for the purchase of water pipes, the same to be charged to Extension of Water Works.

Tenth Article taken up, — "To consider and act upon the transfer of balances standing to the credit of the extension and maintenance accounts of the water works."

Voted, That the balances found to be standing to the credit of the Extension and Maintenance accounts of the Water Works, respectively, at the close of the financial year of 1890–91, be reappropriated and passed to the credit of same accounts for 1891–92 ; these amounts to be charged against the tax levy for 1891.

Eleventh Article taken up, — "To see if the town will appropriate the sum of ($1,200) twelve hundred dollars to meet the deficiency in the appropriation for the enlargement of the Heath Street School, and for a further equipment of the same."

On motion of Mr. Albert L. Lincoln, Jr., it was —

Voted, That the sum of ($1,200) twelve hundred dollars be appropriated for the enlargement of the Heath-Street School and for a further equipment of the same ; said sum to be taken from any money in the treasury not otherwise appropriated.

Twelfth Article taken up, — "To appropriate money for sewers."

On motion of Mr. Albert L. Lincoln, Jr., it was —

Voted, That the sum of ($30,000) thirty thousand dollars be appropriated for the extension of sewers during the fiscal year 1891–2.

Voted, That the Treasurer be authorized to borrow, when so directed by the Selectmen, in anticipation of the taxes for the year 1891 the sum of ($30,000) thirty thousand dollars, to pay for the extension of sewers, paying therefor the current market rate of interest, giving the note or notes of the town therefor, signed by the Treasurer and countersigned by a majority at least of the Selectmen, and to be paid from the taxes to be raised in the year 1891.

Fifth Article taken up, — "To accept and allow Lancaster Terrace as laid out by the Selectmen and reported to the town at this meeting.

The Selectmen presented the following report on the laying out of said terrace, to wit:

The undersigned, Selectmen of Brookline, having given printed and written notice to Salome B. Chase, Alice E. Sias, William H. Allen, Dwight Braman, Eben D. Jordan, Eben D. Jordan, Jr., Henry M. Whitney, Robert W. Lord, Anna L. Wiswell, Thomas C. Bond, and Edward H. Clement, being all the parties known to us to be interested in the subject-matter of the street to be laid out, that we intend to lay out a street forty feet in width, leading from Beacon Street at the estate of Caleb Chase to Summit Avenue about opposite the estate occupied by Anna L. Wiswell, such notices requiring such persons to appear before us at our room in the Town Hall on Friday, the sixteenth day of January, 1891, at five o'clock in the afternoon, and having caused such notices to be actually served according to law upon all such persons by a constable of this town at least seven days before the day so appointed for the hearing, and having also given notice to them and all other persons (if any) who may be interested in the subject-matter of said street whose names are not known to us, or who have no place of abode in the town, or who have no tenant or authorized agent known to us, by posting up copies of the printed and written notice in three public places in the town at least seven days before the time so appointed for the hearing.

Pursuant to such notice we met at the time and place appointed for the hearing, and having heard all the parties and their remarks and objections, and having viewed and examined the route of the proposed street, after fully considering the subject, adjudged that public convenience and necessity require that a street should be laid out and maintained by the town as hereinafter described by its centre line.

Beginning on the northeasterly side line of Beacon Street at a point distant in an easterly direction 354.26 feet from the tangent point in said side line opposite land formerly owned by Caroline E. Clark, thence running on a line curving to the left, with a radius of 149.44 feet, 149.75 feet; thence curving to the left, with a radius of 620.87 feet, 200.89 feet; thence N. 75° 16′ W. on a straight line 150 feet; thence curving to the right, with a radius of 598.83 feet, 314.42 feet; thence curving to the right, with a radius of 1,433.45 feet, 198.34 feet; thence curving to the right, with a radius of 880.83 feet, 150.15 feet; thence in a straight line N. 27° 29′ 20″ W. 60 feet; thence curv-

ing to the left, with a radius of 866.72 feet, 140.85 feet; thence in a straight line N. 36° 48′ W. 71.70 feet; thence curving to the right, with a radius of 587.88 feet, 189.30 feet; thence on a straight line N. 18° 21′ W. 50 feet; thence curving to the left, on a radius of 424.56 feet, 146.10 feet; thence on a straight line N. 38° 4′ W. 158.50 feet; thence curving to the right on a radius of 125 feet, 179.67 feet, to the southwesterly side line of Summit Avenue; the said road having a width of 20 feet on each side of its centre line, the easterly corner at Beacon Street being rounded with a radius of 30 feet, and the westerly corner being rounded with a radius of 20 feet; the corners at Summit Avenue being rounded each with a radius of 20 feet, — taking land from different parties as follows, to wit:

From the Trustees of the West End Land Co., 9,693 square feet; from Henry D. Hyde, 10,165 square feet; from Henry M. Whitney, 11,273 square feet; from Eben D. Jordan, 40,720 square feet; from Anna L. Wiswell or Thomas C. Bond, 14,997 square feet, and taking also from each of said owners the right to support the said road by sloping upon their several lands, leaving to them the right to use the land covered by said slopes in any manner not inconsistent with the stability of the said road.

The hereinbefore described road is laid out in accordance with a plan and profile of the same drawn by Aspinwall and Lincoln, of Boston, civil engineers, dated November 20, 1890, entitled "Plan and Profile of Lancaster Terrace, Brookline, Mass." No awards are made. The Trustees of the West End Land Co., Henry M. Whitney, and Eben D. Jordan, owners of abutting land, in consideration of the street being laid out by the Selectmen and accepted by the town, release to the town all claims for land or grade damages, for the laying out or construction of the street. Said Jordan also further agrees to construct the remainder of the road not already built; but no agreement has been made with Anna L. Wiswell or Thomas C. Bond, from whose estate 14,997 square feet of land are taken. The Selectmen find, however, that the benefit to her or his remaining land is equal to the value of the land and rights taken, and therefore make no award. We allow the owners of the land so taken, on which are trees or other property which will obstruct the building of the road, 20 days from its acceptance by the town in which to remove the same. No release has yet been received from Henry D. Hyde; but the same has been promised, and the Selectmen expect to receive the same before the date of the meeting called for the acceptance of the street.

And the said street so laid out, located, and described, is hereby reported to the town for acceptance, and, when so accepted, allowed, and recorded, is to be known as a town way, to be named Lancaster Terrace.

The said plan and profile, with this record, have this day been filed in the office of the Town Clerk.

ALBERT L. LINCOLN, Jr.,
TUCKER DALAND,
JAMES B. HAND,
HORACE JAMES,
Selectmen of the Town of Brookline.

BROOKLINE, MASS., January 21, 1891.

BROOKLINE, MASS., January 21, 1891.

Filed in the office of the Town Clerk.

Attest: B. F. BAKER, *Town Clerk.*

Release and Agreement — Lancaster Terrace.

Whereas, the undersigned, owner of land in, near, or upon a proposed road known as Lancaster Terrace between Beacon Street and Summit Avenue in Brookline, county of Norfolk and Commonwealth of Massachusetts, and shown in particular upon a plan drawn by Aspinwall and Lincoln, of Boston, civil engineers, entitled "Plan and Profile of Lancaster Terrace in Brookline," and dated November 20, 1890, is desirous that the said road should be laid out by the Selectmen as a town way and be accepted by the town:

Now, therefore, know all men by these presents, that I, Eben D. Jordan, of Boston, County of Suffolk and Commonwealth aforesaid, owner of certain lands through, over, or near which the said road is shown by said plan to be laid out, for myself, my heirs, executors, administrators, and assigns, in consideration of one dollar to me paid, the receipt whereof is hereby acknowledged, and for other good and valuable considerations, do hereby approve and authorize the laying out of the said road as a town way and its acceptance by the town, and I do hereby remise, release, and forever quitclaim to the said town of Brookline and its assigns, all claims or right to damages, or compensation of any kind whatsoever, on account of the said laying out by the selectmen and the acceptance by the town as aforesaid, or on account of any grading or constructing or of maintaining the established grades of the said proposed road. And I further grant to the said town the right to support the said road by sloping as may be necessary upon my land, provided, however, that nothing herein contained shall be construed to prevent the use by me, or my assigns, of the land covered by said slopes in any way not injurious to the stability of the said road, and provided also that I may substitute at my own expense retaining walls in place of said slopes. This release is made upon the condition that the said road be laid out in accordance with the plan and profile hereinbefore referred

to, and that the said road shall not be laid out by the Selectmen under the betterment law.

And for the consideration aforesaid, I, the said Eben D. Jordan, do also covenant with the said town that if the said road shall be laid out and accepted as aforesaid within the period of sixty (60) days from the date hereof, I will make and construct and fit for public travel, to the satisfaction of the Selectmen and in accordance with the specifications hereinafter contained, that part of the said road where it passes through my land and that of Anna L. Wiswall or Thomas C. Bond, provided that the said town will give authority to enter upon such construction immediately after the said road shall have been laid out and accepted as aforesaid, and without waiting for the settlement of land damages as required by the By-Laws of the said town. It is expressly understood that the Selectmen shall not call for a better or more expensive method of construction than that given in the specifications; and, especially, that the said town shall save me harmless from any suits or claims for damages by reason of entering, within the limits of the road as laid out, for purposes of construction the land of Anna L. Wiswall or Thomas C. Bond, and that the said town shall furnish to me the right to support the said road as may be necessary by sloping upon the land of the said Anna L. Wiswall or Thomas C. Bond, and that the said town shall not require me to build in any place retaining walls for the support of the said road.

And it is further understood that the said road shall be constructed in the following manner, to wit: The road-bed shall be excavated or filled, as circumstances may require, to the full width of forty (40) feet, and brought to a smooth sub-grade not less than six (6) inches below finished grade.

The road shall be constructed with a plank sidewalk, on the outer or down-hill side, and a carriage-way twenty-four (24) feet wide, the remainder of the full width of forty feet being covered with loam and sown with grass-seed. The sidewalk shall be a five-plank walk constructed of two-inch spruce planks laid on cypress bearings, and equal in every respect to those usually built by the town of Brookline. The carriage-way shall be constructed with broken stone not less than six (6) inches thick after being compacted, and shall have cross-drains not less than three (3) feet deep, the trenches being filled with broken stone to the under side of the surfacing material. The said cross-drains shall be not more than two hundred (200) feet apart, measured along the centre line of the road, and shall be connected with tile drains laid at the foot of the bank on the up-hill side of the road. The surface of the carriage-way shall be finished with a coating of crushed stone screenings, or of gravel suitable for the purpose, sufficient to properly bind the lower course, and make a good, firm road. The

carriage-way shall, after the finishing layer has been applied, be watered and rolled until hard, smooth, and fit for public travel.

And I further agree to construct and complete the said road to the satisfaction and acceptance of the Selectmen, and in accordance with the foregoing specifications, within six months from the date of the acceptance of the said road by the said town.

In witness whereof I have set my hand and seal this sixteenth day of January, A. D. 1891.

EBEN D. JORDAN. [L. S.]

BROOKLINE, MASS., January 21, 1891.

Filed in the office of the Town Clerk.

Attest: B. F. BAKER, *Town Clerk.*

Voted, To accept and allow Lancaster Terrace as laid out by the Selectmen and reported to the town at this meeting.

Voted, That entry may be made for the purpose of constructing Lancaster Terrace before all claims for damages by reason of the laying out and acceptance thereof shall have been finally adjusted and determined.

Seventh Article taken up, — "To appropriate money for the purchase of land for the use of the Water and Highway departments, and to authorize the Treasurer to borrow the same."

On motion of Mr. Albert L. Lincoln, Jr., it was —

Voted, That the Selectmen be authorized to purchase of the Brookline Gas Light Company, a lot of land for the use of the Water and Highway departments of the town, situated on Pearl Street and containing 23,221 square feet, at a price not to exceed fifty-five cents per square foot, and that the sum of $12,850 be appropriated therefor.

Mr. Albert L. Lincoln, Jr., then offered the following vote, to wit:

Voted, That the Town Treasurer be authorized to borrow, when so directed by the Selectmen, the sum of ($12,850) twelve thousand eight hundred and fifty dollars, paying therefor a rate of interest not exceeding four per cent. per annum for the term of five years, to pay for the purchase of land of the Brookline Gas Light Company, for the use of the Water and Highway departments of the town, giving therefor the note or notes of the town, signed by the Treasurer and countersigned by a majority at least of the Selectmen.

The Moderator appointed as Tellers, Messrs. Tucker Daland and Charles T. Duncklee, and they were sworn by the Town Clerk.

The vote was then put upon its passage, and the whole number of votes was seventy-one, as follows, to wit: Yeas, sixty (60); Nays, eleven (11); and the vote was declared passed in the affirmative by more than two-thirds of the voters present and voting thereon.

Second Article taken up, — "To see if the town will accept the provisions of Chapter 386 of the Acts of 1890, entitled 'An Act to authorize the printing and distribution of ballots for town elections at the public expense.'"

On motion of Mr. Albert L. Lincoln, Jr., it was —

Voted, That the provisions of Chapter 386 of the acts of 1890, entitled "An Act to authorize the printing and distribution of ballots for town elections at the public expense," be accepted by the town.

Third Article taken up, — "To determine what town officers, if any, not required by law to be chosen by ballot, shall be so chosen; also the number and terms of such officers."

Voted, That the following town officers not required by law to be chosen by ballot be so chosen, and that the number and terms of such officers be as follows: Three Park Commissioners, under Chapter 185 of the Acts of 1875, and Chapter 154 of the Acts of 1882, one of whom shall be elected annually for the term of three years; six Trustees of the Walnut Hills Cemetery, one-third of whom shall be elected annually for the term of three years; two Fence Viewers for the term of one year.

Fourth Article taken up,—"To fix the number and terms of officers now required by law to be chosen by ballot."

Voted, That the number and terms of the town officers now required by law to be chosen by ballot, be as follows:

One Town Clerk, for the term of one year.
Five Selectmen, for the term of one year.
One Collector of Taxes, for the term of one year.
One Treasurer, for the term of one year.

Three Assessors, for the term of one year.

A School-Committee of nine members, one third of whom shall be elected annually for the term of three years.

Twelve Trustees of the Public Library, one third of whom shall be elected annually for the term of three years.

Three Commissioners of the Sinking Fund, one of whom shall be elected annually for the term of three years.

A Water Board of three members, one of whom shall be elected annually for the term of three years.

A Committee for Planting Trees of three members, for the term of one year.

Three Auditors, for the term of one year.

Five Constables, for the term of one year.

Thirteenth Article taken up,—"To hear and act on the reports of town officers and Committees."

Under the vote passed April 23, 1890, in relation to the town's procuring and establishing an electric light plant;

The Selectmen reported that they were not prepared to make a final report on this matter; that it was supposed that a law would be passed at the last Legislature authorizing cities and towns to do their own lighting, but they failed to do so; and the Supreme Court has decided that cities and towns cannot establish a plant to do their own lighting. That the Selectmen have endeavored to get a satisfactory proposition for the lighting of the town from the Brookline Gas Light Company, but have not been able to do so; and they recommended that the town authorize them to appear before the Legislature in support of any petition or bill for the purpose of giving towns and cities the right to do their own lighting.

On motion of Mr. Albert L. Lincoln, Jr., it was —

Voted, That the Selectmen be authorized and instructed to appear in behalf of the town before any committee of the Legislature having the matter in charge, to urge the passage of a law which shall give to cities and towns the right to establish and maintain plants for the purpose of furnishing their own municipal lighting.

Yeas, sixty-six (66); Nays, three (3); and the vote was declared passed in the affirmative.

On motion of Mr. John J. McCormack, it was —

Voted, that the Selectmen be instructed to invite citizens interested in the subject-matter to appear with them before the committee of the Legislature to advocate the passage of a general law allowing towns and cities to establish plants for municipal lighting.

On motion of Mr. Albert L. Lincoln, Jr., it was —

Voted, That our Representative in the General Court be instructed, that it is the sense of the town that any proper bill which has for its object the giving to cities and towns the right to establish and maintain plants for the purpose of furnishing their municipal lighting should receive his support.

The committee to whom was referred the subject of a new High School building, reported, that in their opinion, the present High School building is inadequate to properly accommodate the pupils, and accomplish the best results, and they recommended for the present the enlargement of the present building, by adding another story and making some changes in the internal arrangements.

Voted, To accept the report, and that the committee be discharged.

The Act in relation to "the printing and distribution of ballots for town elections at the public expense," referred to in Article Two and accepted at this meeting, is as follows:

1890. — CHAPTER 386.

AN ACT TO AUTHORIZE THE PRINTING AND DISTRIBUTING OF BALLOTS FOR TOWN ELECTIONS AT THE PUBLIC EXPENSE.

Be it enacted, etc., as follows:

SECTION 1. In any town which at a meeting duly called for the purpose shall accept the provisions of this act, elections of town officers shall thereafter be held as herein provided.

SECT. 2. When any town accepts the provisions of this act it shall at the same meeting determine what officers, if any, not required by law to be chosen by ballot shall be so chosen, also the number and terms of such officers; and for this purpose may accept any existing act providing a system or manner of electing any town officers. All

such matters shall be notified in the warrant for such meeting. No change shall be thereafter made in the officers to be chosen by ballot or in the number or terms thereof except at a meeting held at least thirty days before any annual town election.

SECT. 3. All warrants for town-meetings for the election of officers as herein provided shall specify the time of opening the polls and the time when the same may be closed; but the polls shall be kept open at least four hours.

SECT. 4. Nominations of candidates may be made by caucus, or by nomination papers signed in the aggregate for each candidate by qualified voters of such town, not less in number than one for every fifty voters who were registered for the last preceding State election in such town; but the voter so signing shall in no case be less than twenty in number. Each voter signing a nomination paper shall add to his signature his place of residence, with the street and number thereof, if any; and each voter may subscribe to as many nominations for each office as there are persons to be elected thereto, and no more. Women qualified to vote for members of the school committee may sign nomination papers for candidates for the school committee.

SECT. 5. All certificates of caucus nominations shall be signed by the presiding officer and secretary of the caucus. Such certificates and nomination papers shall, besides containing the names of candidates, specify as to each candidate the office for which he is nominated, and his place of residence, with street and number thereon, if any, and may include a designation of such candidacy, expressed in not more than three words.

SECT. 6. Certificates of nomination shall be filed with the town clerk at least eight days previous to the day of the election, and nomination papers shall be so filed at least six days previous to the day of election. The certificates of nomination and nomination papers being so filed, and being in apparent conformity with the provisions of this act, shall be deemed to be valid unless objection thereto is duly made in writing. Such objections or questions arising in the case of nominations shall be considered by the board of registrars of voters, and the decision of a majority of the board shall be final. In case such objection is made, notice shall forthwith be delivered to the candidates affected thereby. All certificates of nomination and nomination papers, when filed, shall be open, under proper regulations, to public inspection, and the town clerk shall preserve the same in his office not less than one year.

SECT. 7. All ballots for use in such elections shall be prepared by the town clerk. Every general ballot, or ballot intended for the use of all male voters, which shall be printed in accordance with the provisions of this act, shall contain the names of all candidates whose

nominations for any offices specified in the ballot have been duly made, and shall contain no other names. The names of candidates for each office shall be arranged under the designation of the office, in alphabetical order according to surnames. There shall be left, at the end of the list of candidates for each different office, as many blank spaces as there are persons to be elected to such office, in which the voter may insert the name of any person not printed on the ballot for whom he desires to vote as candidate for such office. Whenever any question is submitted to the vote of the people of a town, in accordance with a statute providing for such submission, such question shall be printed upon the ballot after the list of candidates. Special ballots, containing only the names of candidates for the school committee, shall also be prepared in like manner, and printed for the use of women, qualified according to law to vote for members of the school committee. The ballots shall be so printed as to give to each voter a clear opportunity to designate, by a cross mark [×] in a square, at the right of the name and designation of each candidate, his choice of candidates, and his answer to the questions submitted; and on the ballot may be printed such words as will aid the voter to do this, as, "vote for one," "vote for three," "yes," "no," and the like. Before distribution the ballots shall be so folded in marked creases as to measure, when folded, not less than four and one-half nor more than five inches in width, and not less than six nor more than thirteen and one-half inches in length. On the back and outside, when folded, shall be printed, "Official Ballot for the Town of ——," and the date of the election, and the signature or fac-simile of the signature of the town clerk. The special ballots, printed for the use of women qualified to vote for school committee, shall contain the additional endorsement, that they are for such use only, and shall be on tinted paper, but of a different tint from that of specimen ballots.

SECT. 8. All ballots when printed shall be folded as hereinbefore provided, and fastened together in convenient numbers in packages, books, or blocks, in such manner that each ballot may be detached and removed separately. A record of the number of ballots printed and furnished shall be kept and preserved by the town clerk.

SECT. 9. There shall be provided in each town a set of such general ballots, of not less than seventy-five for every fifty and fraction of fifty registered male voters therein; and likewise a set of such special ballots, of not less than seventy-five for every fifty and fraction of fifty women qualified to vote for school committee therein.

SECT. 10. The town clerk shall provide full instructions for the guidance of voters at such elections, as to obtaining ballots, as to the manner of marking them, and the method of obtaining assistance, and as to obtaining new ballots in place of those accidently spoiled; and

shall cause the same, together with copies of sections twenty-seven, twenty-eight, twenty-nine, and thirty of chapter four hundred and thirteen of the acts of the year eighteen hundred and eighty-nine, and any amendments thereof, to be printed in large, clear type, on separate cards, to be called cards of instructions. He shall also cause to be printed on tinted paper, and without the endorsements, ten or more copies of the form of the ballot provided for such election, which shall be called specimen ballots, and shall be furnished with the other ballots provided therefor.

SECT. 11. At least four days prior to the day of the election, the town clerk shall cause to be conspicuously posted in one or more public places a printed list containing the names and residences of all candidates to be voted for in such town, and any designation as provided in section five, substantially in the form of the general ballot to be so used therein.

SECT. 12. The ballots, together with the specimen ballots and cards of instructions printed by the Town Clerk as herein provided, shall be packed by him in sealed packages, with marks on the outside designating the number of ballots of each kind enclosed.

SECT. 13. Before the opening of the polls the Selectmen shall appoint two ballot clerks, and in case of vacancies after the opening of the polls, the Moderator shall fill the same. The ballot clerks shall have charge of the ballots, and shall furnish them to the voters in the manner hereinafter provided.

SECT. 14. The Town Clerk shall, before the opening of the polls on the day of election, deliver the ballots to the ballot clerks, who shall receipt therefor, which receipt shall be kept in the Clerk's office. Before the opening of the polls the Town Clerk shall cause the cards of instructions to be posted at or in each voting shelf or compartment provided for the marking of the ballots, and not less than three such cards and not less than five specimen ballots to be posted in or about the polling room, outside the guard rails. No ballots prepared under this act shall be delivered to voters until a Moderator has been chosen in the manner now provided by law. A duplicate list of the qualified voters shall be prepared for the use of ballot clerks, and all the provisions of law relative to the preparation, furnishing, use, and preservation of check-lists shall apply to such duplicate lists.

SECT. 15. Except as herein provided, the election shall be conducted as now provided by law. In case of failure to elect any officers to be chosen as herein provided, the meeting shall be adjourned to a day certain, when such officers shall be chosen as herein provided.

SECT. 16. Sections twenty-one, twenty-two, twenty-three, twenty-four, twenty-five, twenty-six, twenty-seven, twenty-eight, twenty-nine,

and thirty of chapter four hundred and thirteen of the acts of the year eighteen hundred and eighty-nine, and any amendments thereof, shall be applicable to town elections held under this act.

[*Approved June 4, 1890.*

Dissolved.

Attest: B. F. Baker, *Town Clerk.*

Perambulation of Boundary Line between Newton and Brookline, October 29, 1890.

The undersigned, Tucker Daland, Albert L. Lincoln, Jr., Selectmen, and Michael Driscoll, Superintendent of Streets, thereto duly authorized by the Board of Selectmen of the town of Brookline, and Alderman William F. Harbach, Albert F. Noyes, City Engineer, and Isaac F. Kingsbury, City Clerk, thereto duly authorized by the Board of Aldermen of the city of Newton, met on Wednesday, the twenty-ninth day of October, A. D. 1890, and examined the line and established the bound marks between said town and city, which were described as follows, viz.:

First, A stone monument, marked N. and B., near the westerly end of Troublesome Swamp (so called), which forms the corner bound between Boston (formerly West Roxbury), Brookline, and Newton.

Second, Thence to an iron monument, marked N. and B., on a ledge in land of William I. Bowditch, Trustee, near to and southeasterly of the road known as Lagrange Street.

Third, Thence to a stone monument, marked N. and B., standing on the northwesterly side of the road known as Lagrange Street.

Fourth, Thence to a stone monument, marked N. and B., on the north side of the road, near and westerly from the old saw-mill.

Fifth, Thence to a stone monument, marked N. and B., in Stake Meadow (so called), in land of Samuel M. Jackson, which monument marks a corner.

Sixth, Thence to an iron monument, marked N. and B., at the corner of a wall on a ledge of rocks near Stake Meadow.

Seventh, Thence to an iron monument, marked N. and B., in the wall by the land now or formerly of Capt. Clark.

Eighth, Thence to a stone monument, marked N. and B., on the northerly side of the road, near the house of John Lecher, and where Florence Street in Newton joins Heath Street in Brookline.

Ninth, Thence to a stone monument, marked N. and B., on the southerly side of the Worcester Turnpike, or Boylston Street.

Tenth, Thence to a stone monument, marked N. and B., on the westerly side of the road known as Hammond Street, by land now of John Lowell, formerly of Daniel Kingsbury.

Eleventh, Thence to a stone monument, marked N. and B., on the southerly side of a road known as Middlesex Road.

Twelfth, Thence to a stone monument, marked N. and B., at the end of a wall on land now or formerly of the heirs of Joseph Lee.

Thirteenth, Thence to a stone monument, marked N. and B., in a swale.

Fourteenth, Thence to a stone monument, marked N. and B., R. and B. O., standing near to and south of the Boston & Albany Railroad, and southwestwardly of Reservoir Lane (so called), said monument forming the junction point between the town of Brookline and the cities of Newton and Boston.

The bound designated as "Eleventh" is an additional bound, and a new bound was set in the place of the bound designated as "Twelfth." Said changes made in conformity to Section 5, Chapter 27 of the Public Statutes.

TUCKER DALAND, MICHAEL DRISCOLL, *For the Town of Brookline.*

WM. F. HARBACH, ALBERT F. NOYES, I. F. KINGSBURY, *For the City of Newton.*

SPECIAL MEETING FEBRUARY 20, 1891.

WARRANT.

COMMONWEALTH OF MASSACHUSETTS.

NORFOLK, ss.

To either of the Constables of the Town of Brookline, Greeting : —

In the name of the Commonwealth of Massachusetts, you are hereby required to notify and warn the inhabitants of the Town of Brookline, qualified to vote in elections, to meet at the Town Hall, in said town, on Friday, the twentieth day of February, current, at half-past seven o'clock in the evening, for the following purposes, to wit :

First, To choose a Moderator.

Second, To see if the Town will increase the number of Selectmen to be elected at the next annual town meeting, to seven or nine.

Third, To authorize the Treasurer to borrow, in anticipation of taxes for the year 1891, a sum of money not exceeding in all three hundred thousand dollars.

Hereof fail not, and make due return of this warrant with your doings thereon, to the Selectmen, four days at least before the day of said meeting.

Given under our hands at Brookline aforesaid, this thirteenth day of February, in the year of our Lord eighteen hundred and ninety-one.

Albert L. Lincoln, Jr.,
Watts H. Bowker,
Tucker Daland,
James B. Hand,
Horace James,
Selectmen of Brookline.

Norfolk, ss. Brookline, February 17, 1891.

In pursuance of the within warrant, I have notified and warned the inhabitants of said Brookline, qualified to vote in elections, to meet at the time and place, and for the purposes herein named, by causing a printed copy of the same to be left at their last and usual place of abode; and also by posting printed copies of the same in three or more public places in said Brookline, all of which was done four days at least before the day of said meeting.

W. Y. Gross, *Constable.*

In pursuance of the foregoing warrant, the inhabitants of the town of Brookline, qualified to vote in elections, met in the Town Hall in said town, on Friday the twentieth day of February, in the year of our Lord one thousand eight hundred and ninety-one, and were called to order at half-past seven of the clock in the evening, by the Town Clerk, who read the warrant calling said meeting, and the return thereon of the officer who served the same upon the inhabitants.

First Article taken up, — "To choose a Moderator."

The meeting nominated and chose for Moderator Rufus G. F. Candage.

Third Article taken up, — "To authorize the Treasurer to borrow in anticipation of taxes for the year 1891, a sum of money not exceeding in all three hundred thousand dollars."

On motion of Mr. Albert L. Lincoln, Jr., it was unanimously

Voted, That the Town Treasurer be authorized to borrow, in anticipation of taxes for the year 1891, such sums of money as may be needed, from time to time, for the current expenses of the town, not exceeding altogether three hundred thousand dollars, paying therefor the current market rate of interest, giving the note or notes of the town therefor, signed by the Treasurer and countersigned by, at least, a majority of the Selectmen ; to be paid from the taxes to be raised in the year 1891, and said sums so borrowed are hereby expressly made payable therefrom.

Second Article taken up, — "To see if the town will increase the number of Selectmen, to be elected at the next annual town meeting, to seven or nine."

Under this article Mr. Charles T. Duncklee moved, —

That the number of the Board of Selectmen, to be elected at the next annual town meeting, be seven.

Mr. Desmond FitzGerald moved the following vote as a substitute for Mr. Duncklee's motion, to wit:

Voted, That the town of Brookline is satisfied with the present number comprising its Board of Selectmen, and deems it unwise to increase that number, especially as the business of the town is now conducted in a manner practically free from criticism, and as no necessity now exists for increasing the number of its Board of Selectmen.

The substitute motion was then put upon its passage, and it was carried by a large majority.

Voted, That this meeting be now dissolved.

Dissolved.

Attest. B. F. Baker, *Town Clerk.*

REPORTS

OF THE

TOWN OFFICERS OF BROOKLINE

FOR THE

YEAR ENDING JANUARY 31, 1891.

BOARD OF SELECTMEN.

ORGANIZATION, 1890-91.

ALBERT L. LINCOLN, JR., *Chairman.*
WATTS H. BOWKER. HORACE JAMES.
TUCKER DALAND. JAMES B. HAND.
GEORGE F. JOYCE, *Clerk.*

STANDING COMMITTEES.

ACCOUNTS — Mr. Daland.
FIRE DEPARTMENT — Messrs. Bowker and Daland.
POLICE — Messrs. Daland and Hand.
PUBLIC BATH-HOUSE — Mr. Hand.
PUBLIC BUILDINGS — Messrs. James and Bowker.
PUBLIC GROUNDS — Messrs. Lincoln and Hand.
SEWERS — Messrs. James and Hand.
STREET LIGHTING — Messrs. Lincoln and James.
TOWN HALL — Mr. James.
TOWN STABLE — Messrs. Bowker and Daland.

REPORT OF THE SELECTMEN.

The selectmen have the honor to submit the following report for the year ending January 31, 1891:

Finances.

It was hoped when the report was made last year that we might keep our debt within the figures which had then been reached; but the financial crisis of the past fall affected us in two ways: first, in delaying the payment of the taxes assessed by the town; and second, in reducing the amount of corporation taxes received from the State which experienced the same delay in collecting its taxes from the corporations. We have, therefore, been obliged to carry over a loan of $40,000 in anticipation of the taxes of the year 1890, and have also borrowed thus early in the year in anticipation of the taxes of the year 1891:

The statement of our debt is as follows:

Gross debt January 31, 1890	$1,594,200 00
Borrowed during the year:	
For Muddy River improvement:	
Construction	80,000 00
Purchase of lands	50,000 00
For Centre, Freeman, Station, and Tappan Streets, and new engine house	39,000 00
" Dean Road Bridge	10,000 00
" Extension of water supply at Cow Bay, for lands	8,000 00
" " " " " " construction	22,000 00
In anticipation of taxes of the year 1890 . .	40,000 00
In anticipation of taxes of the year 1891 . .	30,000 00
	$1,873,200 00

Amount brought forward	$1,873,200 00
Debt paid from sinking fund	125,000 00
	$1,748,200 00
Debt paid from taxes and receipts	89,200 00
Gross debt, February 1, 1891	$1,659,000 00

A temporary increase of $64,800.

Of the debt paid by the sinking fund $100,000 was borrowed January 1, 1871, at six per cent., to pay in part for our Town Hall; the balance, $25,000, was a water loan borrowed July 1, 1880, at four and one-half per cent.

The debt paid by taxes and receipts was as follows:

High service water scrip . . .	borrowed	Feb. 1, 1885	$10,000 00
Reconstruction of White Place .	"	July 21, 1885	2,400 00
Washington Street Bridge improvement	"	July 13, 1886	4,800 00
Boylston Street Grammar School	"	Sept. 6, 1886	5,000 00
Primary School-house, Brookline Avenue	"	Feb. 9, 1887	3,000 00
Beacon Street widening . . .	"	July 1, 1887	20,000 00
Primary School-house, Marion Street	"	Feb. 1, 1888	5,000 00
Pond Avenue sewer . . .	"	Feb. 1, 1888	6,000 00
Public lands, Tappan Street . .	"	Feb. 1, 1888	6,000 00
Beacon Street widening . . .	"	May 1, 1888	10,000 00
Enlargement of Pierce Primary School	"	June 1, 1888	1,000 00
Brookline Avenue play-ground .	"	June 1, 1888	3,000 00
Public Library enlargement . .	"	June 1, 1888	2,000 00
Boylston Street Grammar School	"	June 1, 1888	1,000 00
Beacon Street widening . . .	"	Jan. 1, 1889	10,000 00
			$89,200 00

Our expenditures the past year, exclusive of payments of money borrowed in anticipation of taxes, were $916,520 against $748,112.75 in 1889-90; the great increase being due to the final payments of land damages on Beacon Street, and on

account of the Muddy River Improvement. The latter object will call for further heavy outlays, and we cannot expect to reduce our debt materially while carrying on such extensive works.

Our valuation continues to increase, having risen last year to $46,537,300, from $42,533,300 the year before; of this $16,510,100 is personal estate. This total valuation is exceeded by that of only four cities in the State. Of course, with such a valuation, the tax rate should be low, unless the town indulges in extravagant outlays. No municipality, probably, does more for its citizens at the public expense, and great care should be taken that such a system is not abused. We expend more per capita than even the city of Boston; but as we feel that every dollar is honestly spent and accounted for, and a fair return received, little fault is found. We are still raising a sinking fund, and paying a high rate of interest on debts contracted at an unfortunate time for the borrower, and the larger part of our tax rate of $9 on a thousand last year was for these purposes. Of this rate almost exactly $5 was for interest, for the sinking fund, and debt falling due. The sinking fund requirement ceases in the fiscal year 1897-98 when the last of our high interest bearing debt falls due.

For the past ten years four per cent. has been the maximum rate at which our loans have issued, and we have borrowed a very considerable amount as low as three per cent., as will be found in the very full report of our Treasurer.

Appropriations.

The following tables give the amount of the appropriations the past year; the expenditures and the appropriations asked for by the several boards and committees for the coming year; the exceptional appropriations, that is, those for special objects, in the way of improvements or extras, and the debt payable from the sinking fund and taxes:

ORDINARY APPROPRIATIONS.

	Object of Appropriation.	Amount Appropriated 1890-91.	Amount Expended 1890-91.	Amount Recommended 1891-92.
1.	Abatement of taxes	$4,000 00	$15,559 48	$10,000 00
2.	Assessors	3,000 00	3,000 00	3,000 00
3.	Assessors' Clerk	1,000 00	1,000 00	1,000 00
4.	Assessors' Plans	150 00	146 67	150 00

PAYMENTS TO BE MADE ON TOWN DEBT. 1891-92.

From taxes and receipts	$155,800 00
" sinking fund	nothing.

Police Department.

The number of officers and men comprising the police force of the town remains the same as last year,— twenty-four. The organization of the force consists of a Chief of Police, three sergeants, one inspector, and nineteen patrolmen.

Two of the men resigned during the year and new men were appointed in their place.

The patrol wagon has been improved by a full set of new wheels and new axles, and by being varnished. It is now in excellent order. The carry-all belonging to the department has also been repaired and varnished.

One of the old horses was exchanged for a younger horse for the use of the mounted men.

The police telegraph system, now in use in this department, is an important factor in the management of our police force ;

it ought gradually to be extended so as to bring all parts of the town into direct communication with the central station.

The attention of the Selectmen has been called to the propriety of having our patrol wagon covered, so as to prevent, as far as possible, the disagreeable exposure of prisoners while being carried through the streets to the station.

Upon investigation this change did not seem desirable, partly on account of the large expense to be incurred, and because of the objection of the police themselves. The subject is being discussed in other places, and pending some satisfactory experiment we feel disposed to continue the present arrangement.

In the case of female prisoners, however, a covered carry-all may be sent to the place of arrest, and the prisoner conveyed to the station without fear of exposure.

The chief of police in his report, recommends an increase in the number of men, so as to re-organize, and more closely connect, two of the regular police routes of the town. With our increasing population and thickly settled districts it seems to us that the suggestion merits consideration.

Fire Department.

The Fire Department has rendered its usual efficient service during the past year. Composed, as it is, entirely of call men, except drivers, its work has been performed with remarkable promptness, and any change of system does not seem necessary at present.

The loss, and number of fires, will be found in the report of the fire engineers.

At the adjourned annual meeting, held on April 9, an appropriation of ten thousand dollars was voted for the purpose of erecting an engine-house on Boylston Street near Chestnut Hill Avenue.

Some delay in its construction was occasioned by our original plans being too costly; but we were enabled after some reduction in size and other changes to let our contract at prices within the appropriation. The house was occupied on

the first day of January, 1891, by the hose wagon No. 3, which had been located on Heath Street.

The steamer now located in the village will also be removed to this house. An appropriation of $1,000 will be asked for at the coming annual town meeting for the purpose of supplying this house with a bell and striker; also an appropriation of $500 for completion of grading, fencing the lot, and some needed sanitary work.

We think the recommendation of the engineers, for connecting our fire-alarm system with the telephone, should be complied with; this would enable any person having telephone connection to give an alarm direct to the central station.

The suggestion of the engineers that the chemical engine located in the Longwood district be removed to the house vacated by the steamer, and its place supplied by a new chemical engine with modern improvements, seems to be a proper one for consideration.

The estimated cost of this new apparatus, including horses, is $2,800.

Fire and Police Alarm.

This department has been increased during the year by the addition of three police boxes of the Gamewell System. It was intended to add several new fire-alarm boxes; but the telephones in the police boxes becoming nearly useless after dark, probably on account of induction from the incandescent lighting, it was necessary to remedy the trouble by putting a complete metallic circuit on the police system. This work was not finished until nearly the close of the fiscal year, and it was not considered advisable to order the proposed fire-boxes and run any risk of over-drawing the appropriation.

This system is increasing in importance yearly, and requires and receives constant supervision and care.

It is in excellent condition, and although it has been subjected to severe strains from the late storms, it has only been out of order on two slight occasions.

Wherever new wire has been put in, it has been of galvanized iron, as being more durable than copper.

The fire engineers in their report recommend placing a heavy bell and striker on the new engine-house on Boylston Street, which we also recommend as a very useful addition to the fire-alarm.

Several new boxes are asked for in the report of the chief of police; these will tend to increase the efficiency of the police department, and should be added as the means of the town permit.

We also especially recommend a fire-alarm box with "break wheels" in some central engine-house, by which the officer in charge can, on receipt of a telephone message, immediately ring in the proper general alarm. (See also the report of the fire engineers.)

Fire-Alarm Service.

The fire-alarm of the town is equipped and located as shown in the following tables:

INSTRUMENTS IN CIRCUIT AT FIRE-ALARM OFFICE.

No. 35. Corner Harvard and Beacon Streets.
No. 41. Corner Longwood Avenue and Kent Street.
No. 42. Corner Sewall Avenue and St. Paul Street.
No. 43. Corner St. Paul and Freeman Streets.
No. 51. Corner Carlton and Monmouth Streets.
No. 52. Corner Essex and Mountfort Streets.

Citizens' keys are to be found at residences and places of business in the vicinity of each box.

The report of the superintendent is embodied in this report.

Sewers.

The annexed table gives the details of the sewer construction for the year 1890. All work of this department laid out during the year has been completed, except a portion of the sewer in Winthrop Road. This work is under contract and will be completed in the early spring.

In view of the possible widening by the city of Boston of that part of Commonwealth Avenue between Cottage Farm Station and the Foster Estate during the present year, we have directed Mr. French to prepare plans for the drainage of that portion of the town which must necessarily drain through that avenue.

At the town meeting held January 29, 1891, an appropriation of thirty thousand dollars was made to pay for sewer construction the coming year. This will probably be sufficient for the ordinary sewer extensions. If, however, it becomes necessary to lay a sewer in Commonwealth Avenue (which we have the right to do), or otherwise provide for the drainage of the section referred to, an extra appropriation will be required.

Metropolitan System of Sewers.

That part of this system which comes within our town is fast approaching completion. Application has been made to have commissioners appointed to apportion the cost among the several cities and towns embraced within the system; but as yet the appointment has not been made. It will not be very long, probably, before we shall be obliged to connect with the system, and to appropriate annually a considerable amount towards its maintenance; in addition to which the town will also be called upon to pay its proportional share of the cost of its construction. It is hardly worth while, pending the appointment of these commissioners, to speculate as to what these amounts may be.

List of Sewers Laid in 1890.

Totals	10479.43			15,045.00	22,972.38

Of these streets, Sewall Avenue and Auburn Street were laid out under the betterment law; the construction of Auburn Street has been begun, and would have been finished had the weather permitted. The construction of Sewall Avenue was postponed, and no appropriation therefor has yet been made. The expense attendant upon the laying out of Dean Road and Druce Street arises from the bridge across the tracks of the Boston & Albany Railroad. The amount given in the table above includes, also, the expense of changing the high service water-pipe. One abutment of this bridge is completed, and the other partly built, work upon it being stopped on account of the season. We have also advertised for proposals for building the bridge superstructure, to be opened Feb. 24.

Although no written release has been given by the Trustees of the West End Land Company, through whose land Dean Road passes, the plans have been approved by a majority of their number, and we have been told by them to go on with the work. We do not anticipate that any claim for damages will ever be made by them.

The ways, including, also, the culvert under Dean Road, are to be built by Messrs. Pierce and Rotch, at their expense.

WALNUT PATH has been constructed and opened to travel; but the land damages remain unsettled, the trustees of

the Philbrick estate being dissatisfied with our award and having appealed therefrom.

Browne Street was one of the original streets laid out through the Sears' estate at the expense of the owners. It has been open to travel for many years. Only the part between St. Paul and Pleasant Streets has been laid out, this being the part in which a sewer has been laid out and constructed.

Upland Road and Maple Street were constructed by the owners of the land through which they pass, the Philbrick estate, and offered to the town; they are open to travel.

Winthrop Road is one of the roads on Aspinwall Hill, passing through land of the Aspinwall Land Company and of the Boston University. It was constructed by the owners and offered to the town. The Aspinwall Land Company is to pay $50 and the University $250 towards putting the street in better condition. It is open to travel, though closed temporarily, on account of the construction of a sewer.

Lancaster Terrace on the south side of Corey Hill, is to be constructed by the owners of the larger part of the land through which it passes. A portion of it, as far as an extension of Prospect Avenue, is practically finished and open to travel.

Centre Street, accepted by the town April 11, 1889, has been constructed during the past year at an expense of $1,072.16, and is open to travel. The land damages paid were $1,500.

Station Street, accepted at the same date, has been constructed by the Telford method, at an expense of $5,301.10, and is open to travel. The land damages paid amount to $16,443.50.

Betterments have been assessed amounting in the aggregate to $5,818.

Freeman Street, also accepted April 11, 1889, has been constructed at an expense of $2,860.66. The land damages

paid were $6,500. Betterments have been assessed to the amount of $3,481.

Clinton Road, accepted by the town January 15, 1890, has not yet been constructed,— the legal question of our right to lay it out over the location of the Boston water pipes not yet having been settled.

Widening Streets.

Harvard Street.— April 15, 1889, the County Commissioners made their return ordering the widening and re-location of Harvard Street, as petitioned for by the Selectmen, May 22, 1888. The land damages were paid by the county. At the special meeting, September 18, 1890, an appropriation of $3,800 was made for carrying out the work ordered to be done, and the construction has been completed. Harvard Street is now of a minimum width of 55 feet throughout its entire length.

Tappan Street.— The work of widening this street has been continued; the laying of a surface water drain, and the extension of the sewer and gas pipes delayed its progress somewhat; but with the exception of loaming the slopes, and some work upon the sidewalk, it is practically finished. The cost of construction thus far has been $8,460.19.

Walnut Street.— In accordance with the vote of the town, passed at the annual meeting in April last, the Selectmen appeared before the County Commissioners at their hearing at the Town Hall, May 23, 1890, and urged the widening of Walnut Street, from High Street to Cypress Street, to a minimum width of 40 feet. Every information desired by the Commissioners has been furnished, and we confidently expect the order may soon be passed.

Cypress Street Bridge.— The decree of the court with reference to this subject, filed July 2, 1890, is as follows:

"The Boston and Albany Railroad Company shall build the bridge abutments, the culvert, and bridge superstructure. The town of Brookline shall do all other work required by said order. The cost of building said bridge abutments, culvert, and bridge superstructure, complete, shall be borne by said railroad corporation. Said railroad

company shall pay to the town of Brookline the sum of $10,000 when the work is completed, and said railroad company shall further pay one half of the net cost of constructing such retaining walls as may be required in the construction of the approaches to said bridge, and shall also pay one half of all land damages caused by said change of grade, and widening of the street, and the payment by said company of one half of the cost, which is four hundred dollars in all, of the hearing before the special commission is hereby confirmed. The town shall pay one half of the cost of the retaining walls to the approaches of said bridge, one half of all land damages caused by said change of grade and the widening of the street, one half of the cost of the hearing before the special commission, and all the remainder of the cost required by the order of the County Commissioners. Said town shall bear all future charges for keeping said bridge and the approaches thereto in repair. That the said county of Norfolk shall pay the cost of the hearing before the County Commissioners, and shall, in addition, pay to the town of Brookline the sum of two thousand three hundred dollars. The question whether the Boston & Albany Railroad Company shall pay to the town of Brookline costs in the Superior Court is reserved, and is to be dealt with by a supplemental decree."

Of the awards made by the County Commissioners the following have been paid, one-half by the railroad company:

Daniel W. Russell	$1,255 00
Moses Jones	5,500 00
Nathaniel Conant	2,500 00
Edward W. Seaver	400 00
John Lally	300 00

The following has been fixed by the lapse of time without an appeal at the amount awarded by the Commissioners, but has not been taken by the owner:

John Gaffey	$1,500 00

And the following abutters have filed petitions for an increased amount:

George A. Goddard	$8,000 00
E. S. Ritchie & Sons	4,000 00

The great delay in the work has been caused by our inability to get the Boston & Albany Railroad Company to go on

without a settlement with Mr. Goddard, as upon this settlement depends somewhat the nature of the construction of the bridge abutments, and whether the approaches shall be supported by retaining walls or slopes. We have been assured, however, that the work will be begun by the railroad, whose part is to be done first, as soon as the season permits.

At the special meeting of September 18, 1890, an appropriation for this matter was made of $47,000, and authority given to borrow $35,000 on ten years' time. The railroad company, by the decree, is to pay the town $10,000, and the county is to pay us $2,300 — so that the net cost to the town, unless the land damages of Messrs. Goddard and Ritchie are increased, will be $34,700.

Aspinwall Avenue Bridge.

Progress on this matter has been stopped by the negotiations which have been going on between our Park Commissioners and the Boston & Albany Railroad for the acquirement for the Muddy River Improvement of a part of the railroad location a little ways easterly of the bridge. If this land is acquired and added to the Park, it will necessitate a re-location of the railroad tracks and a consequent change in the location of the bridge abutments, the culvert for the brook and the length of the bridge. The necessity for a new bridge increases every day, and it is to be hoped that matters may soon be arranged so that the petition which has been pending before the County Commissioners since June 4, 1888, may be pushed and the bridge built.

St. Mary's Street Bridge.

In August last a petition was filed in the Superior Court for Norfolk County, by the Directors of the Boston & Albany Railroad Company, for the abolition of the grade crossing at St. Mary's Street. This is done under Chapter 428 of the Acts of 1890 which provides that "the railroad company shall pay sixty-five per centum of the total actual cost of the alterations, including in such cost the cost of the hearing, and the compensation of the commissioners and

auditors for their services, and all damages including those mentioned in Section 5 of this Act; and the said commission shall apportion the remaining thirty-five per centum of said cost between the Commonwealth and the city or town in which the crossing or crossings are situated; provided, however, that not more than ten per centum of such cost shall be apportioned to such city or town." After the separation of grades the town would also be bound to maintain the bridge superstructure and the approaches. This part of St. Mary's Street has never been laid out as a public way, although it has been open to travel for about thirty years, and the Selectmen, while willing to admit the great public benefit of the abolition of this crossing, did not feel authorized to admit that the street was a public way under the Statute for which the town would be liable. The railroad company contend that we are estopped to deny that the street is such a way, and we are content to leave this to the railroad company to prove. No further action has been taken as yet in the matter.

Jurisdiction Over Highways.

In the last annual report the efforts of the Selectmen, aided by Messrs. William Aspinwall and Charles A. Williams, as counsel, to obtain jurisdiction over the highways of the town, in accordance with votes of the town passed July 8, 1889, and January 15, 1890, were reported upon, the matter at that time being in the hands of the joint Committee on Towns. This Committee unanimously reported a bill conferring upon the town complete jurisdiction over the highways; but it was defeated in the House, principally through a misrepresentation of our attitude in the matter. At the special town meeting held September 18 last, the following vote was passed:

Voted, That the Selectmen are hereby instructed to apply to the Legislature for an Act giving the Selectmen original exclusive or concurrent jurisdiction with the County Commissioners over the highways of the town.

A petition was filed by the Selectmen in accordance with this vote. Before the hearing thereon our representative, Col.

Carpenter, introduced an order in the House for a general law, giving to towns of ten thousand or more inhabitants the same jurisdiction as County Commissioners have over county ways within town limits.

The Selectmen felt that such a law as this would meet the wishes of the town and, perhaps, be more favorably received by the General Court than a special bill for our town, and, accordingly, requested Hon. William Aspinwall to prepare a bill. This bill was presented to the Committee on Towns at a hearing given to us on February 12 inst., and was supported by the Selectmen, by Mr. Aspinwall, and also by the Chairman of the County Commissioners, Mr. Wiggin.

No opposition was made; but as no notice had been advertised of a hearing on this particular order, the committee have decided to give another hearing on the 24th inst.

The bill is as follows:

AN ACT TO GIVE CERTAIN TOWNS JURISDICTION OVER HIGHWAYS AND COUNTY BRIDGES.

Be it enacted, etc., as follows:

SECTION 1. Any town having ten thousand inhabitants which shall have accepted this act, as hereinafter provided, shall have and may exercise, concurrently, with the County Commissioners, within the limits of the town, any of the powers now vested in said commissioners in relation to the altering, widening, locating anew, or making specific repairs upon highways or country bridges within such town. Provided, however, that such town shall not have the power to discontinue any highway or county bridge, but in altering or locating anew the same, may discontinue such portions of the same as may become necessary for the public use, and provided also, that such discontinuance shall not diminish the width of such highway or bridge. The town shall have no right to assess any part of the expense upon the county.

SECT. 2. The proceedings of the town and its officers in exercising the powers aforementioned, and the remedies of parties whose rights are affected thereby, shall be the same as those provided by law in the case of townways.

SECT. 3. In any town which has accepted this act and which has accepted the provisions of chapter one hundred and sixty-nine of the statutes of the year one thousand eight hundred and sixty-nine, or of chapter three hundred and eighty-two of the statutes of the year one thousand eight hundred and seventy-one, or of the nine first sections of

chapter fifty-one of the Public Statutes, the provisions of law above referred to shall apply to the action of such town taken in pursuance of this act, in relation to any highway or county bridge therein.

SECT. 4. On appeals to the County Commissioners from the action of the Selectmen or of the town, the County Commissioners shall give not less than fourteen days' notice to all parties interested, in the manner and to the persons as required in the laying out of town ways, and also by causing a copy of such notice to be published in such newspaper as they shall order, not less than seven days before any hearing. At such hearing the County Commissioners may finally decide such appeal.

SECT. 5. Nothing in this act shall be construed as in any way affecting the provisions of sections one hundred and seventeen to one hundred and thirty-eight, both inclusive, of chapter one hundred and twelve of the Public Statutes, or of chapter four hundred and twenty-eight of the acts, one thousand eight hundred and ninety, or any acts heretofore or hereafter passed in amendment thereof.

SECT. 6. Within two weeks after any town has taken final action in pursuance of this act in relation to any highway or county bridge therein, the town clerk of such town shall send to the county commissioners a certified copy of the record of the town of such final action, and the County Commissioners shall cause said certified copy to be recorded in the same manner that the proceedings of the County Commissioners in relation to highways or county bridges are recorded by them.

SECT. 7. Within ten days after the acceptance of this act by any town in the manner hereinafter provided, the town clerk of such town shall send a certified copy of the vote accepting the same to the County Commissioners, and also to the secretary of the Commonwealth.

SECT. 8. This act shall take effect upon its passage, so far as to allow any town empowered hereby to vote upon the acceptance hereof, but shall take full effect in any such town only after it shall have been accepted by a majority of the voters of said town present and voting by ballot at a town meeting called for that purpose. The ballots shall be in the following form: "Shall the act, entitled 'An act to give certain towns jurisdiction over highways and county bridges,' be accepted? Yes, or No," — and shall be furnished by the town.

Change of Names.

At the adjourned annual meeting held April 23d last, the square formed by the junction of Emerald and Pearl Streets, hitherto known by various names, was named by vote of the town Woodward Square, in honor of our esteemed venerable citizen, Mr. Royal Woodward.

At the same meeting what was known as Cat Alley was laid out as Walnut Path.

At the special meeting of September 18th last, the name of Sullivan Road, on Aspinwall Hill, was changed, upon petition, by vote of the town, to Rawson Road.

Upland Road, laid out at the same meeting, was the private way known as Walley Avenue, the name being changed in the laying out by request of the petitioners.

Beacon Street.

At the time of the last annual report the questions of law which had arisen in the case of Austin W. Benton had not been decided. Shortly after the writing of that report the Supreme Court sustained four out of the six exceptions taken by our counsel and ordered a new trial.

At the adjourned annual meeting held April 30th last, the Selectmen were authorized to refer this and the other Beacon Street cases to a board of referees, to be appointed by the Court, whose awards should be final, and this plan was agreed to by all the claimants.

The town at that meeting passed the following vote:

Voted, That the Selectmen be authorized to agree on behalf of the town to the reference of any land damage cases now pending against the town to a board of auditors as suggested by Mr. Justice Barker, of the Superior Court; also that said Selectmen have power to agree upon terms approved by them that such reference shall be final; also that said Selectmen have power to settle any of said cases at their discretion.

The disposition of each claim will be found fully reported in the report of the counsel for the town on a subsequent page. It will be seen that we have settled all but one of the cases, — that of Almira F. Harrington, — in which the award was ten thousand dollars. In March last betterments were assessed amounting to $291,746. Of this amount the Selectmen had agreed to assume, on behalf of the town, in consideration of the releases given by the parties, the sum of $218,219.30, leaving $73,526.70 to be collected. One hundred and sixty-six estates were assessed; on eighty-six of these

we had agreed to assume the assessment, leaving eighty to pay the assessment. Of these eighty all have paid except ten, and appeals from our assessment are now pending in these ten cases only.

The effect of such agreements to assume future betterments shows a great defect in the practical application of the betterment law. The town is restricted in the amount which it can assess to the actual expense on its part of the undertaking. This expense cannot include the lands or money given in advance in lieu of a subsequent betterment, and in consideration of which the town agrees to assume the betterments; such elements of expense are too indefinite, and are not *expenses paid by the town;* and yet when we came to assess the betterments we found we must levy the amount on all the estates benefited; that is, not only on those of the abutters who had made no settlement with the town, but also on those of the abutters who had. The Board felt that this was a matter of so much importance, that the advice of Mr. William G. Russell, of Boston, was obtained, which agreed with that previously given by Messrs. M. and C. A. Williams, and the betterments were levied in accordance therewith.

This accounts for the comparatively small amount to be received by the town. But the contributions of lands and money made by abutters in advance of the undertaking should be borne in mind when considering this subject. Any other method of carrying out the work would probably have cost the town a much larger sum. The betterments collected have been much more than sufficient to pay the increased damages, and no further appropriation will be needed.

In view of the dire predictions made by the opponents of the Beacon Street widening, when the project was first proposed, we feel that the town is to be congratulated upon the showing made by the following figures, to say nothing of the other direct and indirect financial results of the improvement. The actual money paid out by the town to the present time is as follows:

For land damages	$195,530 06
Interest on the same	18,274 35
Costs in land damage cases	427 08
Construction of street under the original contract	199,239 03
Excess in cost of sewers, drains, and culverts	24,256 30
Extra street crossings	899 79
Legal expenses	3,225 20
Engineering and inspection	1,580 47
Miscellaneous expenses, extra plank walks, engraving bonds, etc.	1,560 75
Total	$444,993 03

The amounts received by the town which may be offset against the above are as follows:

From West End Land Company, on account of land damages	$2,500 00	
Sewer assessments	26,845 78	
Betterments	54,973 68	
Interest on betterments	1,191 23	85,510 69
		$359,482 34

There remains to be paid out the land damages of Mrs. Harrington, with interest and legal expenses, which may bring the total outlay on the street, as originally planned, up to $460,000, to which should be added also the estimated value of the land given in settlement to Mr. Charles H. Stearns, say $5,000, making in all as the gross cost to the town $465,000. If from this gross cost we deduct the amounts given above, the betterments remaining to be collected, $17,362.02, and from the six per cent. interest we have been obliged to pay the saving in interest to the town by the use of the money, say, at an average of four per cent, $12,182.90, in all, $115,055.61, we have as the net cost of the improvement to date, $349,944.39. Of the total amount expended $85,306.30 was for sewers, surface water drains, and culverts, and $40,609.97 for water pipes, hydrants, etc.

Sewer assessments to be levied, as soon as land now too low to be assessed is filled up, will reduce the net cost still farther.

Care of Beacon Street.

The cost of the care and watering of Beacon Street has been kept in an account by itself thus far; but as it is always ascertainable from the accounts of the Superintendent of Streets, whose records show the cost of every street, we feel that there is no particular reason why these items should not go into the general appropriation for highways and street watering, and accordingly so recommend.

The cost of repairs, including the raising the street to grade in the hollow at St. Paul Street, and between Powell and Hawes Streets, was $3,629.

The cost of watering both roadways, which are equivalent to about seven and one-half miles of our ordinary roads, was $2,524, a small part of which was charged to the general appropriation for watering streets.

The trees which have died have all been replaced by the original contractor except the oaks on the Corey Hill section. On these an allowance was made by him, and the ones which died have been replaced under the direction of the tree planting committee. We accepted smaller trees than were originally planted, believing that they would eventually prove better than older and larger ones.

Street Lights.

The usual table giving the number, location, and kind of light in use, is published herewith, from which it appears that there are now in use 127 electric, 267 gas, and 98 oil lights; in all, 492.

Four of the electric lights are incandescent, the rest arc lights. Three arc lights and one incandescent light have been added during the year, and three oil lights changed to gas; increase in number of lights, four. The price paid for lighting for the year 1890 has been the same as for the year 1889, the gas company having declined to make better terms except for a contract for three years.

At the adjourned annual meeting April 23d last, the following vote was passed:

Voted, That the Selectmen be instructed to inquire into the subject of the town's procuring and establishing a plant for lighting its public

streets and public buildings with electricity, and to report thereon at a future meeting.

At the special meeting January 29th last, a partial report was made, and the following votes were passed:

Voted, That the Selectmen be authorized and instructed to appear in behalf of the town before any committee of the Legislature having the matter in charge, to urge the passage of a law which shall give to cities and towns the right to establish and maintain plants for the purpose of furnishing their own municipal lighting.

Voted, That the Selectmen be instructed to invite citizens interested in the subject-matter to appear with them before the committee of the Legislature, to advocate the passage of a general law allowing towns and cities to establish plants for municipal lighting.

Voted, That our Representative in the General Court be instructed, that it is the sense of the town that any proper bill which has for its object the giving to cities and towns the right to establish and maintain plants for the purpose of furnishing their municipal lighting should receive his support.

Several citizens were invited to appear with the Selectmen, and on February 2, Hon. William Aspinwall, Mr. Jerome Jones, and the Chairman of the Board appeared before the Committee on Manufactures, having the subject-matter in charge, and were heard in support of the movement to give towns the right to furnish their municipal lighting. No report has yet been made by the committee. Meantime the town of Danvers has gone on lighting its streets with its own plant, and the report for the first year shows that the net cost per light per year, running until midnight on nights when there was no moon, was $45.59, or 17 22-25 cents per light per night. The best price which the special committee last spring could obtain from the Gas Light Company for lighting till one o'clock when there was no moon was $154.70. Nothing, however, can be done towards establishing a municipal plant until authority therefor is given by the Legislature, and we recommend that the subject be referred to the next Board of Selectmen.

The situation, then, is as follows:

The town cannot establish a plant of its own without further legislative authority, and the gas company declines to make

any reduction in its prices except upon a five years' contract (which they question our right to make), or upon a very large increase in the number of arc lights for a one-year contract.

Their proposition, as stated in the report referred to, is to furnish the arc lights at forty cents per night if the contract be made for five years, or at forty-five cents per night if made for one year, provided the number of arc lights is increased to 200, an increase of 77 lights; neither offer is worth considering. The 123 arc lights now in use at fifty cents per night, the price now paid, will cost $22,447.50 per year; 200 lights at forty-five cents per night will cost $32,850 per year, making an increase in cost of $10,402.50 per year. If we change the present gas lights to arc lights, and there is no other way in which so large an increase in the number of arc lights could at present be made, and thereby save the cost of gas, there would still be a large increase in the total cost of lighting. Seventy-seven arc lights at forty-five cents per night will cost $12,647.25 per year. The present cost of 267 gas lights at nine and one-half cents per night is $9,258.22 per year, making an increase of $3,389.03 per year; but this is not all; one arc light which costs forty-five cents per night will not displace, on the average, more than four gas lights, which cost thirty-eight cents per night, and as all of the present gas lights could not be displaced by the arc lights, and some twenty or more lights in addition to those used to displace gas would have to be set up, the total increase would probably be from five to six thousand dollars per year. We do not recommend this change.

The cost of the present number of lights on the present basis of prices will be	$34,573.32
Add for new lights and incidentals	926.68
Total	$35,500.00

From inquiries we have made regarding the prices paid for lighting in cities and towns where their requirements correspond with ours, we find the cost does not exceed forty cents per night for full arc lights, on contracts varying from one to three years. We, therefore, recommend that the contract for electric lighting be made for one year only, for such number of

lights as we now have, and such additions as the appropriation may warrant, and at a price not to exceed forty cents per night for each full arc light.

Street Lights in use February 1, 1891.

Street Railways.

No new locations have been granted. The petitions referred to this Board from last year to allow the introduction of the single trolley system on the several lines of the West End Street Railway Company have not been acted upon, as the company has shown no desire to press them, and, in fact, the condition of Huntington Avenue in Boston over which two of the lines pass has been such as to preclude the possibility of running electric cars successfully thereon. We understand that much of the track on this avenue must be relaid before electric cars can be run.

A petition for regulating the speed of the electric cars, and the use of the electric snow-ploughs, was filed with the Selectmen and a public hearing given thereon.

The whole matter of regulations was thereupon taken up, and the following were adopted by the Board:

Regulations Governing the Speed and Management of Street Railway Cars.

Section 1. No street railway car shall be drawn or propelled in Beacon Street at a greater rate of speed than twelve miles an hour, nor in any other street in the town at a rate of speed greater than eight miles an hour.

Sect. 2. No driver, conductor, or other person having the care and ordering of a street railway car shall allow such car to stop on a cross-walk, nor in front of an intersecting street, except to avoid collisions or to prevent danger to persons in the street.

Sect. 3. The conductors, drivers, and other persons having the care or ordering of street railway cars shall keep a vigilant watch for all teams, carriages, and persons on foot, especially children, either on the track or moving in the direction of the track, and on the first appearance of danger to such teams, carriages, or persons, or of any other obstruction, the car shall be stopped in the shortest time and space possible.

Sect. 4. No street railway corporation shall run snow-ploughs or remove snow from its tracks in the streets of the town unless they shall remove from such streets outside of its tracks, and between its rails and the sidewalks, an amount of snow sufficient to make such streets safe and convenient for public travel, and all removal of snow from the streets by such corporation shall be done under the direction and to the satisfaction of the Superintendent of Streets.

SECT. 5. No street railway corporation shall, for the purpose of melting the snow on its tracks or rails, sprinkle any salt or other articles of a decomposing nature thereon, or cause or allow such sprinkling to be done by any of its agents, nor shall it for such purpose wash its tracks or rails, or cause them to be washed by any of its agents with brine or pickle, except by the permission of the Board of Health.

The Board also gave one or more hearings on the petition of the West End Company for a location for double tracks, with curves on Chestnut Hill Avenue; the object being to reach a proposed car-house. The Board felt that these tracks, with curves for electric cars on a sixty-feet street, and that too, on an incline, were an element of danger which public necessity and convenience did not justify us in introducing, and the petitioners were given leave to withdraw.

The Brook in the Village.

This brook will continue to be a matter of great concern to the abutters until the plans of the town with reference thereto are settled. Nothing has been done with regard to it during the past year; but in the last annual report the Selectmen called attention to the fact that the plans of the Park Commissioners seemed to contemplate carrying the brook to Leverett Pond, in the Muddy River Improvement, as one of its principal sources of supply. Such a disposition of the brook will require the co-operation of the Selectmen and Park Commissioners, and we therefore recommend that a committee be appointed consisting of these two boards to consider the subject.

Re-Location of Chapel and Longwood Stations.

On May 28 the following petition was received by the Selectmen:

COMMONWEALTH OF MASSACHUSETTS.

To the Honorable the Selectmen of the Town of Brookline : —

PETITION OF THE BOSTON & ALBANY RAILROAD COMPANY.

Your petitioner respectfully represents that it desires to re-locate its passenger stations known as Longwood and Chapel stations in said Town of Brookline, at a point about midway between the present locations of said stations in said Town.

Wherefore it prays that your Honorable Board will approve such a re-location.

BOSTON & ALBANY RAILROAD COMPANY, BY
SAM'L HOAR, *General Counsel.*

A public hearing was given June 11, notice of which was given by advertisement in the *Chronicle*, by printed notices posted on the bulletin boards throughout the town and distributed to all the houses in the neighborhood of the two stations. The Boston & Albany Railroad Company appeared by their counsel, Mr. Samuel Hoar, and presented a plan showing what was intended to be done. By this plan it appeared that the railroad company expected to acquire from the town about 62,000 square feet of land purchased, or to be purchased, primarily for the Muddy River Improvement, and the location of the new station, and the re-location of the tracks were dependent upon this acquisition of land. After this hearing, at which arguments for and against the plan were heard, and while the Selectmen had the matter under consideration, letters were received from the owners of property in Monmouth Court, and other property near Chapel Station, stating that they had received no actual notice of the hearing; that they felt great injury would be done to this property unless certain things were included in the plan, and desiring an opportunity to be heard. Meantime the Selectmen were informed by the Park Commissioners that they had come to no agreement with the railroad company with regard to the transfer of land, and the Selectmen, therefore, deferred all action in the premises, knowing that until the railroad company could obtain the land nothing could be done about re-locating the stations.*

*Since the date of this report a plan for an exchange of lands between the Boston and Albany Railroad Company and the Park Commissioners has been agreed upon, and the Selectmen learning of this gave immediate notice of a second public hearing on the matter of re-locating the stations. By this new plan the railroad company are to acquire about 23,000 square feet of land instead of 62,000 as at first proposed; this, of course, would necessitate a change in the location of the station and its approaches, and the Selectmen expected the railroad company would appear at the hearing and explain the changes so that we could act intelligibly in the matter.

The hearing was given in the Town Hall February 26; the railroad company put in no appearance and representatives of property owners in the vicinity of Chapel Station vigorously opposed the plan first presented.

The Selectmen, after deliberation, voted to give the railroad company leave to withdraw.

Public Grounds.

The public grounds of the town including the grounds of the Public Library and school buildings are cared for by the highway department, the expense being paid from the appropriation for public grounds. The Superintendent of Streets, in his report, gives a detailed account of the labor performed in the care of these grounds.

In November last the contract for building a fence on Aspinwall Avenue, in front of the play ground, from Brookline Avenue to the bridge, was awarded to Geo. H. Johnson, the style of fence to be the same as that on the slopes which separate the roadways on Beacon Street, between Marion and Washington Streets. The severe cold weather which set in early, prevented the work from being finished last year. The materials are all prepared, and the contractor is ready to go on with the work as soon as the season will permit. The expense will be about $300 which is included in the appropriation for public grounds.

In connection with the public play grounds and the Riverdale Park improvement, the introduction and maintenance of an out-door gymnasium is worthy of consideration.

The city of Boston has already in successful operation, on that part of the park known as the Charles River Embankment, the necessary apparatus and buildings for such a gymnasium for men and women. An out-door gymnasium for men can be maintained at a comparatively small expense, either by having it placed on one of the public play grounds, or on a portion of the Riverdale Park set apart for the purpose. This popular feature of out-door exercise would add much to the health, pleasure, and enjoyment of the young people of the town.

Public Baths.

The public baths of the town were open from June 1 to October 1, Mr. Patrick Dillon acting as superintendent.

During the four months of June, July, August, and September 10,145 persons (principally boys) used the bath. This is

the largest number in any one season since the bath-house was established.

In view of the very large increase in the number of persons who used these baths during the summer months, it would seem to us desirable that more suitable accommodations for public bathing should be provided by the town.

This may be accomplished by an arrangement with the Park Commissioners for the erection of an ornamental structure, near Leverett Pond in the Riverdale Park, which could be used for boating, as well as for bathing purposes.

The matter of warm baths was referred to the Selectmen last June, but thus far no plan has been suggested which in their opinion would be acceptable to the town. It might, however, be thought feasible to introduce a system of warm baths in connection with the suggested building on the Riverdale Park to be used for bathing and boating.

The present bath-house will have to be repaired and kept in order for use the coming season, or until such time as a more suitable location shall be furnished by the town.

Claims and Suits.

The suits to which the town is a party are fully reported upon in the report of Messrs. M. and C. A. Williams, hereinafter printed in full.

Guide-Boards.

Guide-boards have been maintained in all places where they are required by law. No new boards have been put up the past year, those numbering one to seventy-two inclusive, as reported in the annual report of 1889, being all which in the opinion of the Selectmen the town ought to erect and maintain.

Miscellaneous.

Willard Y. Gross was appointed to take charge of the burial of deceased indigent soldiers, sailors, or marines of the late war, as prescribed in Chapter 395, acts of 1889.

Licenses were granted as follows:

Druggists.— Warren G. Currier, Arthur W. Bowker, Young & Brown, William H. Butler.

Auctioneers.— Walter Jackson, John J. McCormack, Henry W. Jackson, Charles P. Bancroft, Willard Y. Gross, and Joseph W. Homer.

Junk.— Thomas J. McGarry, William Carroll, John Meehan, John Welch, Timothy O'Callahan, Charles Hughes, William F. Ware, James Monaghan.

Carriage.— Eugene Hill, Jeremiah Guilfoyle, Mrs. Thomas Quinlan, Mrs. Ellen O'Hare, Edward H. Hill, Thomas P. Curley.

Employment Offices.— Agnes Gordon, Ellen Hill, Mary A. Holmes.

Drain Layers.— Horace James, James Driscoll, Johnson Brothers, Michael J. O'Hearn, Daniel Collins, Philip S. Allen, Morton & Chesley, James Maloney.

Billiard Hall.— Sydney B. Dorr.

Victuallers.— Frank Baker, W. C. Coleman.

Contracts were awarded as follows:

To C. W. Lynam,—

For concrete sidewalks	65 cents per square yard.
For driveways	85 " " " "
For skim coating	35 " " " "
For street crossings	$1.00 " " "

To M. Mahan, for plank walks of spruce,—

For 3-plank walks	14 cents per running foot.
For 4- " "	17 " " " "
For 5- " "	20½ " " " "
For 6- " "	23 " " " "

To M. Mahan, for plank walks of chestnut,—

For 3-plank walks	18¼ cents per running foot.
For 4- " "	21¾ " " " "
For 5- " "	24¾ " " " "

Ends to be bored for nailing.

To George M. Winslow & Co., for coal,—

For furnace size	. . . . .	$6.10 per ton of 2,240 lbs.
For egg "	. . . . .	6.10 " " " " "
For stove "	. . . . .	6.38 " " " " "

ALBERT L. LINCOLN, JR.,
WATTS H. BOWKER,
TUCKER DALAND,
JAMES B. HAND,
HORACE JAMES,
Selectmen of Brookline.

REPORT OF THE CHIEF OF POLICE.

BROOKLINE, January 31, 1891.

To the Honorable Board of Selectmen: —

GENTLEMEN, — I have the honor to submit my annual report of the police department for the year ending January 31, 1891.

Organization of the Force.

The force is organized as follows: —

Chief. — Alonzo Bowman.
First Sergeant. — Geo. F. Dearborn.
Second Sergeant. — Chas. B. McCausland.
Third Sergeant. — Burnham C. Clark.
Inspector. — Albert S. Paige.

Patrolmen.

1. Jos. J. O'Connell,
2. Robert J. Watson,
3. Alonzo W. Corey,
4. Alden A. Manley,
5. Frank Bartlett,
6. James Gleason,
7. Henry J. Graham,
8. Edward J. Mealey, Jr.,
9. Frank H. Flanders.
10. Peter Curry,
11. Andrew Creelman,
12. George W. Piper,
13. George E. Stitt,
14. Michael O'Day,
15. Emery E. Allen,
16. Fred. C. Gordon,
17. William H. Dee,
18. James W. Sigsworth,
19. John J. Sullivan.

The force is divided into three divisions, covering six routes or beats. The routes are defined and officered as follows: —

ROUTE No. 1 includes all territory south of the B. & A. R. R. to Cypress Street, thence to the town line. The first division goes on patrol duty at 7.45 A. M.; the second division at 5.45 P. M.; the third division at 12.45 A. M. Route No. 1 on first division is officered by Patrolman Mealey; on second and third divisions by Patrolmen Curry and O'Day.

Route No. 2 includes all north of the railroad, thence to Aspinwall Avenue, to Francis Street, St. Paul Street, School, Cypress, Gorham Avenue to Tappan Street, thence to Cypress Street station; Patrolman J. J. O'Connell on first division, and Patrolmen Flanders and Sigsworth on second and third divisions.

Route No. 3 includes all that part of the Longwood district north of Kent Street, and is policed on first division by Patrolman Graham, and on second and third divisions by Patrolmen Stitt and Dee.

Route No. 4 includes all south of Kent Street to Francis Street, Alton Place to Harvard Street to town line, and is cared for on first division by Patrolman Gleason, and on second and third divisions by Patrolmen Piper and Gordon.

Route No. 5 includes all south of Harvard Street from Aspinwall Avenue to town line, Washington from Cypress Street, Gardner Road, part of Tappan Street, Beacon Street to line; patrolled on first division by Patrolman Manley, and on second and third divisions by Patrolmen Creelman and Allen.

Route No. 6 embraces all that part of the town south of the railroad and west of Cypress and Chestnut Streets, and is patrolled on first division by Patrolmen Bartlett and Corey, both mounted officers, and on second and third divisions by Patrolmen Watson and Piper, and by mounted Sergeant McCausland.

Some of our Work for the Year.

Number of persons arrested, 653; 117 more than last year.

Causes for Arrest.

Assault	17
Assault and battery	33
Adultery	1
Assuming to be an officer	2
Bastardy	1
Breaking and entering	6
do. do. Attempt at	2
Cruelty to animals	4
Carrying concealed weapons	1
Disturbance of the peace	31
Defaulters	3
Drunkenness (simple)	283
do. (common)	10
Dipsomania	2
Disorderly conduct	5
Embezzlement	1

Escaped prisoners	3
Evading R. R. fares	1
Fornication	1
False pretences	1
Idle and disorderly	2
Indecent exposure	2
Interfering with an officer while in discharge of his duty	1
Insane	5
Keeping an unlicensed dog	1
Larceny	30
Larceny (suspicion of)	5
Liquor law, violation of	25
Malicious mischief	36
Malicious injury to public building	8
Non-support of wife	1
Non-support of minor children	6
Peddling without license	3
Profanity	2
Stubborn child	2
Sunday law (violation of)	2
Suspicious persons	3
Robbery	2
Town by-law (violation of)	18
Truancy	9
Trespass	60
Walking on R. R. track	10
Total arrests	653

Males	598	Non-residents	262
Females	55	American birth	311
Residents	391	Foreign birth	342

Miscellaneous Work.

A large amount of miscellaneous work has been recorded the past year. Among the more important is the following:

Ambulance calls	60
Accidents reported and assistance rendered	71
Buildings found open at night and reported	90
Complaints investigated	390
Disturbances suppressed without arrests	72
Defects in streets and sidewalks reported	267
Defective hydrants and water pipes	18
Gas leaks in street pipes reported	12
Water running to waste reported	22

Fires extinguished without alarm	13
Stray animals running at large cared for	64
Persons brought into station, mostly juveniles, and reprimanded and released	73
Runaway horses and teams caught by mounted officers	24
Sick and disabled persons assisted	72
Lost children found and cared for	31
Nuisances reported	23
Dead animals reported to superintendent of streets, and buried	116
Dangerous places on streets and sidewalks discovered, and lanterns furnished at night	107
Street lights reported out: —	
Gas	345
Electric	1,413
(Not including whole circuits out, caused by broken wires.)	
Kerosene or Naphtha	86
Street lanterns reported broken	43
Residences reported vacant temporarily, and special police protection requested	131
Officers off duty reporting on fire-alarms	179
Officers detailed by request of citizens	160
Officers detailed for public occasions	47
Telegraph and telephone wires reported down	35
Dangerous dogs complained of	43
Dogs reported lost or stolen	97
Lost dogs found and restored to owners	27
Disabled animals ordered from work	22
Dogs killed	137
Amount of property taken from arrested persons and returned to them, and receipted for	$5,153 77
Amount of lost property recovered	2,371 00
Value of property reported stolen	3,361 00
Value of stolen property recovered	2,602 00
Value of property stolen out of town and recovered in Brookline	135 00
Amount of fees earned, and paid to the Town Treasurer	1,471 58
Amount of fines and costs imposed by the Police Court	1,634 23
Number committed to House of Correction for non-payment of fines and costs	93
Total amount of imprisonment by sentence and in default of payment of fines and costs, fourteen years and ten months	14 y. 10 m.

Number of persons arrested for the offence of drunkenness, giving Brookline as their place of residence	146
Non-residents arrested for drunkenness	147

Many persons arrested for the offence of drunkenness, the past year, give Brookline as their place of residence who are only temporary residents — for a few days or weeks. Hence, many persons so arrested are not *bona fide* residents of the town.

The arrests for the last eleven years have been as follows: —

1880–81	305	1886–87	464
1881–82	355	1887–88	554
1882–83	437	1888–89	628
1883–84	475	1889–90	536
1884–85	395	1890–91	653
1885–86	446		

The arrests for drunkenness since 1880 have been as follows: —

1880–81 (No-License)	163	1886–87 (License)	198
1881–82 (License)	199	1887–88 (No-License)	272
1882–83 (License)	185	1888–89 (No-License)	278
1883–84 (License)	219	1889–90 (No-License)	213
1884–85 (No-License)	157	1890–91 (No-License)	293
1885–86 (License)	152		

Record of persons applying at this station for lodgings since 1880: —

1880–81	360	1886–87	983
1881–82	338	1887–88	1,140
1882–83	299	1888–89	1,918
1883–84	741	1889–90	2,465
1884–85	488	1890–91	2,187
1885–86	1,023		

Number of persons applying for lodgings at this station in the last year	2,187
Males	2,172
Females	15
Of American birth	1,005
Of foreign birth	1,182

(For expenditures, etc., of Police Department, see Treasurer's Report.)

Occupation of persons applying for lodgings, as given by themselves: —

Laborers	1,423	Mill Operatives	77
Building trades	268	Domestic Servants	15
Shoemakers	139	Professional	2
Ironworkers	109	All others	154

Crimes and Offences.

There have been no very serious crimes committed in the town the past year.

Several cases of house-breaking have occurred — but notably small amounts of property have been stolen. The annoyance and nervousness caused by the knowledge that thieves and burglars are about, is a more serious matter in this community than the financial losses suffered.

There have been eighty-two more arrests for drunkenness this year than last, and fifteen more than in 1888. This may be partially accounted for by the largely increased amount of building and public work going on.

Our situation is somewhat peculiar as regards the intoxicating liquor question. Brookline is a no-license town, — while within a stone's throw of the line between the city and town, two wholesale and two retail licenses are granted by the city of Boston, for which nearly three thousand dollars are paid into the city treasury. The city gets the money, — the town, drunkenness, disorder, and all the attending evils. More than nine-tenths of the patrons of the liquor shops "over the line" are residents of Brookline.

Strong and persistent efforts have been made to prevent the illegal sale of intoxicating liquors, and to prosecute and convict offenders. Fifty-one search warrants have been served on alleged offenders, two hundred and fifty-five gallons of intoxicating liquors have been seized, and disposed of as per order of the court; $850 in fines have been imposed in our police court, and twenty-two months of imprisonment on parties convicted of illegal selling, or keeping for sale, intoxicating liquors in the town the past year. Inspector Paige and assistants are entitled to no little credit for the successful work accomplished in this

direction. I challenge comparison with any city or town in the State, similarly situated, as regards the efficient enforcement of this law. We are continually on the alert, and anxious to procure testimony where there are any suspicions of the illegal sales of liquor; but, in order to successfully prosecute, I must have sufficient evidence, otherwise our efforts are worse than useless.

The Patrol Signal System (the Gamewell)

Continues to be a very important adjunct in this department.

Every officer on patrol duty is required to report through his signal boxes as often as once an hour, and, on some routes, more frequently, if necessary, during his tour of duty. This tends to hold the officers on patrol to a strict discharge of duty, and under the direction of a superior officer at the station. About 66,000 duty calls have been registered the past year. Some 300 wagon runs have been registered, and about 65 sick or injured persons have been removed to hospitals, or taken to their homes, in the police ambulance.

Recent improvements have been made in our signal system, by adding a third wire to our lines, giving us a metallic circuit which has greatly improved our telephone service. This has been done by and under the direction of Superintendent Cooper, who has given the best of care and attention to the system the past year.

I recommend an increase in the number of our signal boxes. I would have our line extended to corner of Heath and Hammond Streets. There should also be a police signal box on Chestnut Hill Avenue, near Reservoir Station; also at or near the corner of Washington and Park Streets, or Gardner Road; also at corner of Harvard and Thorndike Streets. There are several other locations between the present boxes,—long spaces where signal boxes could be advantageously placed.

Discipline, Conduct of Force, Etc.

The general conduct and discipline of the force has been excellent the past year. Two officers were allowed to resign for cause. In selecting police officers, I would place intelli-

gence and moral force before physical force, — that is, I would make physical force the latent power of an intelligent policeman. If I do not mistake, the public is demanding of its police servants more in the direction of intelligence than that of physical force.

More work has been done by the department than in any previous year. The many calls made on the force for extra work during the summer months, when many of the best houses in town are vacant, have been promptly and cheerfully complied with.

Our citizens are calling for more extended police protection. The considerable number of new streets, — the large number of new residences built, many of them first-class and costly houses, call for increased protection.

I recommend for your consideration a new police route, — lying between *No. 5 and No. 6 police routes, and taking a portion of those routes, — bounded about as follows: West by Beacon Street, from Washington Street to town line; north by Washington Street, from Cypress Street to town line; east by Cypress Street to Chestnut Street; south by Chestnut and Walnut Streets, part of Sumner Road and a part of Buckminster Road. The rapid and substantial growth of the territory embraced demands more police service than can be given as now constituted. This would require the addition of three patrolmen.

The special or detective work of the department has been done, as in the past, by the Inspector of Police, in a very able manner.

His services in successfully prosecuting illegal dealers in intoxicating liquors, and in various directions, have been valuable to the town.

The Mounted Force.

The mounted force have made a good record the past year in the matter of stopping runaway teams, and controlling and preventing fast and reckless driving, and in preventing law-

* Please see police routes, first and second pages of this report.

lessness and trespassing in the outlying districts; also, in patrolling such parts of the town as cannot well be done by officers on foot.

Lodgers, Etc.

As will be seen, we have entertained two hundred and seventy-eight less lodgers or tramps than last year. It has been noticeable that the general appearance and character of our lodgers has much improved from that in former years; many appear to be tramps, not from choice, but rather from stress of circumstances.

It gives me great pleasure to be able to say that (thanks to the Police Committee) we have a police department second to none in the State in equipment, material, and all that goes to make a successful police department.

I am under obligations to *many* good citizens for valuable assistance rendered.

Our thanks are due to the Fire Department for courtesies received; to Justice Drew and the associate justices my thanks are due for valuable counsel and advice; and to the Clerk of the Police Court, for many favors received; and to the Board of Selectmen, for strong support throughout the year.

Respectfully submitted,

ALONZO BOWMAN,

Chief of Police.

REPORT OF THE PROBATION OFFICER.

BROOKLINE, January 31, 1891.

To the Board of Selectmen: —

GENTLEMEN, — I have the honor to submit my tenth annual report.

The whole number taken on probation for the year ending January 31, 1891, was forty-six. Nine were under the age of seventeen years. They were arrested for the following offences:

Drunkenness	13
Malicious mischief	3
Disturbance of the peace	2
Assault	2
Trespass	14
Truancy	4
Violation of by-laws	2
Larceny	3
Breaking and entering	2
Embezzling	1

Of these thirty-five have been discharged, having complied with the terms of their probation, one was surrendered, and ten are now on probation.

Respectfully submitted,

GEORGE F. DEARBORN,
Probation Officer.

ANNUAL REPORT OF THE ENGINEERS OF THE BROOKLINE FIRE DEPARTMENT.

To the Honorable Board of Selectmen: —

GENTLEMEN, — The Board of Fire Engineers herewith submit their annual report of this department, giving the number of fires and their causes, the condition of the department for the year ending January 31, 1891, and the recommendations for the ensuing year.

Fires.

The fire loss in town has been small, the largest fires being Mr. Moses Williams' house and Mr. Eugene R. Knapp's.

There were thirteen bell alarms, twenty still, eight telephone, and one automatic, making a total of forty-two.

The following classification explains the nature of the calls:

Burning soot in chimney	6
Grass and brush, set by boys	8
Hot ashes igniting woodwork	2
Sparks from locomotive.	9
Bonfires	2
Unknown	4
Spontaneous combustion	3
Blacksmith's forge	1
Smoke, mistaken for fire	3
Test alarm	1
Gas jet igniting woodwork	1
Plumbers' naphtha furnace	1
Breaking of lantern.	1
Total	42

The loss, insurance, and insurance paid, as near as can be ascertained, were:

Loss	$16,096 78
Insurance	94,600 00
Insurance paid	11,686 78
Loss to property holders	4,410 00

Organization.

The organization of the department comprises seven permanent men as drivers.

Forty-eight call-men designated as follows: One chief engineer, two assistant engineers, one engineman, one assistant engineman, thirty hosemen, thirteen ladder-men, making a total of fifty-five men.

Companies.

The men are assigned as follows: one steam fire engine, three men; one chemical engine, three men; one hook and ladder company, fourteen men; two hose companies, twenty-four men; one hose company, seven men; one spare driver, one.

Apparatus.

The apparatus in use is all in good condition except the fuel wagon. There are, at present, one steam fire engine, two hose wagons, one hose reel (four wheels), one hook and ladder, one two-wheel hose reel (spare), one fuel wagon, one buggy (spare).

Buildings.

At the last annual meeting of the town it was voted to build a new engine house in the vicinity of Chestnut Hill Avenue. The land was purchased, and the house is now practically completed. It is a double brick house; sleeping rooms for men, stable room for four horses. It is now occupied by Hose 3, and ample room for steamer. The remainder of the houses are all in good repair. The meeting-rooms of Hose 2 and the Hook and Ladder have been repaired and painted.

The Steamer house stable has been remodeled, and better

ventilation secured, being a decided improvement to the house. The Chemical House is in good repair.

Men.

The discipline of the men is good, and harmony prevails between the companies. Death has invaded the ranks of the department, and taken from us John A. Ayers, the engineman of the Steamer. He was an efficient and competent man, having served the town for a number of years.

Horses.

There are, at present, ten horses in the department, eight of them being in good condition. The two attached to the Steamer are unfit for use, and a new pair is recommended. There has been no sickness among them this year.

Hose.

The total amount of hose in the department is 6,200 feet of cotton hose, of which there is 5,750 feet in good condition, and 450 feet not reliable.

Hydrants.

According to the Superintendent's Report the number of hydrants is as follows:

Number on the low service	221
Number on the high service	66
Total	287

The average pressure being 85 pounds to the square inch.

Fire-Alarm Telegraph.

The fire-alarm has given satisfaction the past year with the exception of twice, when the indicator failed to work.

Recommendations.

We would recommend an appropriation of one thousand dollars for a 2,200 pound bell and electric striker to be placed in the tower of the new engine house just completed. There is a large number of callmen employed in that part of the town, and a large bell is needed to take the place of the small one, which is inadequate to meet the requirements of good service.

The new engine house is now completed and ready to have the steam fire engine located there. We recommend that the sum of one thousand dollars be appropriated for the employment of a permanent engineman.

We would also recommend an appropriation of five hundred dollars for the purchase of new hose.

As the steamer is to be removed to the upper part of the town, and owing to the constant and rapid growth of the town, especially in the Longwood district, we feel that the citizens should be better protected against fire. We would suggest that the chemical now stationed there should be removed to the village house vacated by the steamer, and that a chemical engine, with hose and ladders attached, be purchased and placed in the chemical house.

It would also give better protection to the village.

We are of the opinion that a valuable addition to our method of giving an alarm would be to connect with the telephone system. In addition to the present alarm system would be a box located at one of the engine houses, with a dial representing numbers corresponding to numbers of all the boxes and other numbers to designate localities remote from boxes. Any person having telephone connections could then notify the station, giving the number of the box nearest their residence, and the alarm would be given by moving the hand of the dial to the number called and pulling down the hook. This arrangement besides being a saving of valuable time would also save cost in boxes in localities where they are needed. The cost of this arrangement, including wiring, would not exceed five hundred dollars.

Appropriations.

The Engineers would recommend the following amounts for the coming year:

Current expenses of Fire Department	$17,000 00
Bell and striker	1,000 00
New hose	500 00
Total	$18,500 00

Conclusion.

Before closing this report we wish to express our thanks to the Board of Selectmen for their support in all things appertaining to the welfare of the department. To the Committee on the Fire Department our thanks are due for their able suggestions for the good of the service. To the Chief of Police and those in his charge, for the prompt manner in which they have assisted us in the investigation of fires. Our thanks are also due to the officers and members of this department for the cheerfulness in assisting us in the performance of our duties.

JOHN H. ALLEN,
E. F. PROCTOR,
JOHN C. BARTHELMES,
Board of Engineers.

LIST OF FIRES, 1890.

Tuesday, February 11, 1890, 11.50 A. M. (still). Carleton Street, owned by Miss A. Amory; occupied by Charles T. Greenough. Cause, burning soot in chimney. Extinguished by Chemical 1.

Thursday, February 13, 5.35 P. M. (telephone). Allerton Street. Burning grass land. Cause, set by boys. Extinguished by Hose 1.

Friday, February 14, 2 P. M. (telephone). Pond Avenue near Cumberland Street. Burning brush. Cause, set by boys. Extinguished by Hose 1.

Friday, February 21, 1 P. M. Box 16. Walnut Street. Frame house owned by Moses Williams. Loss, $2,098. Insured. Occupied by J. Heally Childe. Loss, $9,000. Insured. Originated in basement. Cause, hot ashes igniting wood-work.

Tuesday, March 10, 12.35 P. M. Box 8. Tappan Street. Frame building, owned and occupied by Boston and Albany Corporation, as Passenger Station. Damage, $25. Originated on roof. Cause sparks from locomotive, igniting shingles.

Wednesday, March 12, 7.15 P. M. (still). Monmouth Street. Brick building, owned by the A. A. Lawrence heirs. Damage, $25. Occupied by F. L. Monks. Damage, slight. Insured. Originated in basement. Cause, hot ashes igniting wood-work. Extinguished by Chemical.

Monday, March 31, 5.10 P.M. (still). Brighton Avenue. Grass land on estate of John Cousens. Cause, sparks from locomotive. Extinguished by Chemical.

Saturday, April 12, 8.22 A. M. Box 18. Clyde Street. Building owned and occupied by J. Elliott Cabot as a dwelling. Originated in chimney. Cause, burning soot.

Tuesday, April 15, 5.30 P. M. (still). Emerald Street. Fence fire. Owned by Br. Gas Light Co. Cause, burning rubbish.

Tuesday, April 15, 7.40 P. M. (still). Mountfort Street. Brush fire. Lawrence estate. Cause, sparks from locomotive igniting grass.

Wednesday, April 16, 11.05 A. M. (telephone). Clyde Park, Clyde Street. Burning fence, trees, grass land originated set afire by employees. Cause of alarm, fire getting beyond control. Extinguished by Hose 3.

Thursday, April 17, 7.45 P. M. (still). Boylston Street. Grass fire near Boston Reservoir. Cause unknown. Extinguished by Hose 3.

Thursday, April 22, 1.45 P.M. (still). Grass fire. Boston & Albany land, near Longwood Station. Cause, sparks from locomotive.

Friday, April 25, 1.20 P. M. Box 8. Davis Avenue. Frame building, owned and occupied by Michael J. O'Hearn as a dwelling. Originated in basement. Cause, spontaneous combustion.

Friday, April 25, 10.10 P. M. (telephone). Station Street. Owned by Barbara Holtzer ; occupied by Holtzer Cabot Company as a factory. Cause, burning soot in chimney.

Sunday, April 25, 10.40 A. M. (telephone). Rawson Road. Frame dwelling, owned by Eline Lunberg. Cause, burning soot in chimney. Extinguished by Hose 2.

Tuesday, May 18, 6.45 P. M. (still). Woodland Road. Brush fire. Cause unknown. Extinguished by Hose 3.

Monday, June 26, 10.30 P. M. (box 5), Fay Place, rear of Washington Street. Frame building, owned by Marshall Russell. Damage to building, $530. Insured. Occupied on second and third floors as dwelling, by tenants; on first floor as stores, C. Grafton Richards, hay and grain and groceries. Damage, $900. Insured. A. A. Levien, glassware, notions, etc. Damage, $600. Insured, Brown Bros. No damage. Originated in hay shed attached to rear of A. A. Levien's store. Cause unknown.

Tuesday, July 8, 3.20 P. M. (box 6). Davis Court. Frame block owned by George W. Bird. Occupied as dwellings, by Coleman

and others. Damage, $10. Insured. Originated in a pile of rubbish set afire by boys. Cause, igniting of clapboards on block.

Friday, July 11, 2.55 P. M. (box 38). St. Paul. Burning dump on Sears' estate. Cause, boys and matches.

Monday, July 14, 2.05 P. M. (box 5). Boylston Street. Brick building owned by the heirs of Phillip Duffy. Damage slight. Insured. Occupied as a blacksmith shop, by Charles A. Duffy. Originated in basement. Cause, sparks from forge igniting straw.

Tuesday, July 15, 2.45 P. M. (box 5). White Place. Frame building. Owned, and occupied as a barn, by Jeremiah F. Shea. Originated on roof. Cause, sparks from locomotive. Damage slight. Insured.

Sunday, July 20 (still). St. Paul Street. Brush fire. Sears' estate. Cause, set by boys. Extinguished by Chemical Engine.

Wednesday, July 23, 10.15 A. M. (still). Colchester Street. Rear of D. W. Richards'. Grass land on estate of Boston & Albany Railroad. Cause, sparks from locomotive. Extinguished by Chemical 1.

Thursday, July 24, 9.25 P. M. (still). Grass fire. Near Longwood station, on land of Boston & Albany. Cause, sparks from locomotive. Extinguished by Chemical Engine.

Friday, August 8 (still). Dump fire corner St. Mary's and Monmouth streets. Cause, unknown. Extinguished by Chemical Engine.

Wednesday, September 3, 7.10 P. M. (still). Brookline Avenue. Bonfire set by boys. Extinguished by Hose 1.

Friday, September 11, 5 P. M. (still). Boylston Street. Brick building, owned by the town of Brookline. Occupied as a school-house (Boylston Primary). Cause, smoking furnace mistaken for fire. Responded to by Hose 1.

Saturday, September 12, 8 P. M. (telephone). Francis Street school-yard. Burning tree, cause. Set by boys. Extinguished by Hose 1.

Monday, October 20, 12.45 P. M. (telephone). Washington Street. Brick building, owned by James M. Seamans. Occupied by J. M. Seamans & Co. as grocers. Cause, smoke in basement mistaken for fire. Responded to by Hose 1.

Monday, October 20 (still). Mountfort Street. Grass, brush and fence fire on estate of F. W. Lawrence. Damage slight. Responded to by Chemical.

Monday, November 2, 7.45 P. M. (box 34). Harvard, corner of Beacon. Test call by order of Chief Engineer.

Tuesday, November 18, 7 A. M. (box 27). Tappan, corner Beacon. Stone block, owned by Eugene R. Knapp. Damage, $2,713.78. Insured. Unoccupied. Originated in basement. Cause, spontaneous combustion.

Saturday, December 5, 5 P. M. (box 31). Harvard Avenue. Owned by E. I. Thomas, and occupied as a dwelling by E. I. Thomas. Damage, $125. Insured. Originated on second floor. Cause, gas jet igniting draperies, wood-work.

Wednesday, December 17, 4 A. M. (automatic), Station Street. Frame building owned by Barbara Holtzer. Occupied by Holtzer Cabot Company as a manufactory. Originated in second story. Cause, spontaneous combustion. Damage, $25. Insured. Responded to by Hose 1.

Sunday, December 21, 6.10 P. M. (telephone). Aspinwall Avenue, near Kent Street. Burning fence. Cause, igniting of grass from locomotive sparks. Damage slight. Responded to by Hose 1.

Wednesday, December 24 (telephone). Commonwealth Avenue. Burning grass land, rear of Perkins Hotel. No damage. Responded to by Hose 1.

Thursday, January 8, 1891, 9.35 A. M. (still). Boylston Street. Frame building owned and occupied as a dwelling, by P. McCarthy. Cause, burning soot in chimney.

Thursday, January 8, 1.07 P. M. (box 31). Vernon Street. Unfinished frame building, owned by D. W. Thomas. Originated on first floor. Cause, can of naphtha igniting from plumber's furnace. Damage $10. Insured.

Thursday, Jan. 15, 9.10 P.M. (still). St. Mary's Street. Hay burning in the State sewer. Cause, breaking of kerosene lantern. Responded by Chemical.

Saturday, January 24, 2.30 P.M. (still). Davis Avenue. House owned by T. E. Francis, and occupied by F. L. Higginson. Cause, burning soot in chimney. Responded to by Hose 2.

Total, 42 Alarms.

REPORT OF THE SUPERINTENDENT OF STREETS AND SEWERS.

OFFICE OF THE SUPERINTENDENT OF STREETS AND SEWERS,
TOWN HALL, BROOKLINE, February 28, 1891.

To the Honorable Board of Selectmen: —

GENTLEMEN, — I respectfully submit my fifteenth annual report of the work done, and the expense incurred, in the Highway Department, for the year ending January 31, 1891.

The amount appropriated at the annual meeting for the support of Highways was $31,000. The amount received from other departments, for labor and materials, was $1,429.86. The amount expended was $32,931.60. The details of this expenditure are as follows:

Allerton Street: repaired	$24 94
Aspinwall Avenue: repaired	72 71
Boylston Street: macadamized in part and repaired	674 65
Brighton Ledge: moving and setting up crusher, building new platform and bins; rebuilding engine house; grading, etc.	790 42
Brook Street: sidewalks graded; street gravelled in part	65 74
Buckminster Road: repaired	90 37
Carlton Street: repaired	29 70
Chestnut Street: repaired	62 00
Cleaning gutters, streets, and sidewalks, and sundry small repairs	4,221 32
Cleaning street crossings	340 34
Clyde Street: repaired	89 71
Coal, castings and repairs on crushers, powder and fuse, etc.	784 87
Colchester Street: macadamized	358 07
Cottage Street: repaired	48 50
Crossings: labor and material for new crossings and repaving old crossings	1,757 34
Amount carried forward	$9,410 68

Amount brought forward	$9,410 68
Crushing stone, now on hand	989 77
Cutting grass, weeds, etc.	445 41
Cypress Street : sundry repairs, and macadamizing	320 14
Davis Avenue : picked over and gravelled	141 34
Dudley Street : repaired	60 73
Edgestones furnished on sundry streets	1,151 82
Engineering	35 00
Essex Street : macadamized	160 07
Francis Street : repaired	35 95
Fencing : new fences built and old fences repaired	88 35
Fisher Avenue : repaired	23 75
Gardner Road and Path : sundry repairs	124 17
Goddard Avenue : repaired	86 38
Gorham Avenue : picked over and gravelled	197 36
Gravel, etc. : cash paid for gravel and stones	353 50
Grove Street : repaired, etc.	161 66
Guide boards, street signs, etc.	182 22
Hammond Street : sundry repairs	138 30
Harvard Street : sundry repairs and macadamizing	342 51
Haying on public grounds	51 87
Heath Street : sundry repairs	350 04
High Street : gutter paved	35 87
Holden Street : gravelled	28 75
Horses and stable : care and maintenance, including repairs on carts, harnesses, etc	3,763 50
Cash paid for two new horses	600 00
Ice : picking ice on streets	123 37
Ivy Street : macadamized in part	70 10
Kent Street : gravelled in sundry places and repaired	266 63
Lagrange Street : macadamized	645 28
Longwood Avenue : repaired	45 68
Loose stones picked off	156 74
Miscellaneous work not included in other streets	778 34
Mountfort Street : repaired	27 37
Newton Street Pit : setting up new stone crusher and engine ; building engine house, platform, etc., blasting and grading	1,740 65
Newton Street : macadamized and sundry repairs	1,046 59
Painting carts and oiling harnesses, etc.	135 06
Pond Avenue : repaired	80 15
Pound Lane : stoned and gravelled	120 92
Amount carried forward	$24,516 02

Amount brought forward	$24,516 02
Prescott Street : repaired	70 20
Prospect Street : gravelled	80 00
Pruning and removing trees, etc.	268 62
Ploughing snow	639 53
Ploughing gutters, etc.	199 50
Repairing sundry streets	586 70
Repaving sundry gutters, not elsewhere included	519 50
Rockwood Street : repaired	30 50
Rawson Road : gutter paved	44 00
Sanding sidewalks and streets	362 13
Sewall Avenue : gravelled	30 00
Sewer trenches, etc., repaired	223 57
Shovelling snow off sidewalks, etc.	2,066 24
South Street : macadamized	348 02
St. Mary's Street : raised to grade between Ivy and Beacon Streets	227 76
St. Paul Street : gravelled in parts	100 34
Sumner Road : gravelled in part and repaired ; bridge re-planked, etc.	171 13
Tappan Street : repaired	61 63
Tools : new tools, etc. ; repairs and sharpening	593 67
Cash paid for new steam drill and fittings	305 00
Walnut Street : gravelled in part and repaired	155 45
Warren Street : repaired with broken stone	124 97
Washington Street : macadamized in parts and sundry repairs	1,176 12
White Place : gravelled and repaired	31 00
Total amount expended and charged to appropriation for support of highways	$32,931 60

The town now owns fourteen horses which are all in good condition; the time of more than two horses is required in collecting ashes and dry dirt; one horse is required the whole time on sewers and catch basins, and almost the entire time of one horse is needed on Beacon Street. When the roller is in use, which is practically during the whole of the working season, two horses are needed for it, leaving only eight horses with which to do the entire work of repairing and cleaning the streets. It has been the policy for many years past to do the regular work of the various departments with our own teams,

hiring only for special work. I think it will be necessary hereafter to employ hired teams at times, in the work of the Highway Department.

The new crusher and engine, set up in the Newton Street pit, were used last spring in supplying the broken stone needed for the repairs in the southerly part of the town, and have given good satisfaction. As the ledge is worked in toward the platform, better arrangements for storing and loading the broken stone can be made, by which much labor can be saved.

The stone crusher and engine at the Brighton ledge have been moved around and set up higher, so that a man and horse now do the work which formerly required the labor of four men.

I would again suggest the advisability of procuring a steam-roller, as with it repairs can be made much more expeditiously, and for new work it is almost a necessity.

In June the Longwood bridge was closed by the city of Boston for the purpose of renewing the stringers and planking. It was thought best to renew the planking of our portion of the bridge at the same time, and several stringers which were found to be badly rotted were replaced. The cost, $681.91, was charged to contingencies.

Street Crossings.

The usual work was done in keeping street crossings in order, and new cross-walks of North River stone and small granite blocks were laid at the following places :

Across Marion Street, opposite school-house.
Monmouth Street, at Carlton Street.
Francis Street, at Kent Street.
Kent Square, at Kent Street.
Harrison Street, at Francis Street.
Toxteth Street, at Aspinwall Avenue.
Harris Street, at Harvard Street.
High Street, at Irving Street.
Upland Road, at Irving Street.
Irving Street, at Allerton Street.
Allerton Street, at High Street.

Across Waverly Street, near Thayer Street.
Warren Street, near Heath Street.
Thayer Street, at Waverly Street.
Fairbanks Street, at Beacon Street.
Fairbanks Street, at Washington Street.
Washington Street, at Park Street.
St. Paul Street, at Francis Street.
Francis Street, at St. Paul Street.
Harvard Street, at Longwood Avenue.
Longwood Avenue, at Harvard Street.

In addition to the above, cross-walks were laid in Station Street, Freeman Street, and Tappan Street, and were paid for out of the appropriations for these streets.

New Streets.

Station Street, Freeman Street, Tappan Street widening, and Auburn Street were built by contract, under the supervision of Mr. A. H. French as engineer.

Centre Street, Walnut Path, and the widening of Harvard Street were done by this department.

The cost of these various streets will be found in detail in the Treasurer's report.

Upland Road and Maple Street being in fair condition at the time of their acceptance, have so far cost the town nothing.

As a sewer was laid out in Winthrop Road, which is now in process of construction, it was deemed advisable to postpone repairs on the street until the completion of the sewer. The grass and weeds were removed from the roadway in the fall, and the cost was charged to Highways.

Lancaster Terrace is in process of construction, the cost being borne by private parties.

Nothing has been done on Clinton Road beyond making an entry on the location, and removing a small quantity of loam.

Watering Streets.

The same rates were paid for this service as were paid last year, that is, $100 per month for each team for the season of five months, from May 1 to October 1; $5 per day for

each team, for each day before May 1, and after October 1, and $6 for Sunday work. Eighteen teams were employed in addition to three double, and one single team furnished by the Fire Department; of these three and one-half teams have been employed on Beacon Street, with one-half the time of the chemical engine team.

Complaints are sometimes made that too much water is used at times on the streets; a good rule to adopt would be that water should not be used so freely as to cause it to run in small streams or gullies to the side-gutters.

The appropriation for watering streets was $9,500, and $9,139.12 was expended.

Care of Beacon Street.

During the year from two to four men have been employed on this street, whose chief duty has been to keep the street and gutters free from manure, grass, and weeds.

The oak trees, from Marion Street to Washington Street which had mostly all died, were removed, and young, thrifty trees were planted in their stead, most of which seem to be doing well. The elm trees on the rest of the street which were dead or dying, were also taken out, and younger and much better trees were set out. Many of the young elm trees are rather small, but they seem to be doing well, and any which fail are to be replaced without expense to the town.

The West End Street Railroad Company has entirely renewed its track from Harvard Street, westerly, to the town line, and has substituted loam for the gravel between the tracks from Harvard Street to St. Mary's Street. As a necessary consequence of so much work, the bridle-path and the tree-lawns on either side of the tracks have been in poor condition for the greater part of the year, and considerable work will have to be done on them during the coming year, the cost of which should, in my judgment, be borne by the railroad company.

The places east of St. Paul Street, mentioned in last year's report, were allowed to settle until early in the fall, when they

were brought to grade. Such work as this is necessarily very expensive, as not only the street, but the paved gutters, tree-lawns, and sidewalks must also be raised. On the southerly road, just east of St. Paul Street, the street was found to have settled some twenty-three inches, and the sewer, which is built on piles, was found to have settled as much, showing that the piling has also gone down. I examined the sewer very carefully, and found only a very small crack in the top of the arch, which will do no harm for the present, and some larger cracks in the manhole at the intersection of St. Paul Street. The invert was not examined, as the water and mud were twenty-seven inches deep, and could be removed only by expensive pumping, which seemed to me unncecessary at the time. The heavier mud must be removed frequently, and the sewer must be regularly inspected.

On the northerly road the greatest settling was found opposite the William Amory estate, where the road had gone down fourteen inches. Between St. Paul Street and Powell Street were several places where the road had settled from six to ten inches. On either side of these low places the road had settled somewhat, but quite uniformly, and was in very good condition, and as the longitudinal inclination was enough to readily remove storm water, the low places were brought to a grade with the rest of the street, instead of to the true grade.

The appropriation for the care of Beacon Street was $6,000, and it was all expended.

Sidewalks.

The amount appropriated for sidewalks was $12,000, to which was added receipts amounting to $147.34. The expenditure was $12,132.85, and the details are as follows:

Edgestones were set on —

Allerton Street	75 feet.
Aspinwall Avenue	$305\frac{2}{12}$ "
Beacon Street	78 "
Carlton Street	274 "
Amount carried forward	$732\frac{2}{12}$ feet.

Amount brought forward	$732\frac{2}{12}$ feet.
Chestnut Street	275 "
Cypress Street	$25\frac{4}{12}$ "
Davis Avenue	188 "
High Street	$666\frac{4}{12}$ "
Gorham Avenue	766 "
Harvard Street	79 "
Longwood Avenue	864 "
Marion Street	217 "
Vernon Street	253 "
Total	$4,065\frac{10}{12}$ "

Edgestones were re-set on —

Harvard Street	1,107 feet.
Carlton Street	127 "

And short lengths in many other places.

New concrete walks were laid on —

Holden Street	39 sq. yds.
Aspinwall Avenue	267 " "
Harvard Street	698 " "
Washington Street	72 " "
Waverly Street	39 " "
Cypress Street	423 " "
Sewall Street	1,110 " "
Gorham Avenue	583 " "
Davis Avenue	304 " "
Gardner Road	75 " "
Walnut Street	29 " "
High Street	421 " "
Boylston Street	88 " "
Morss Avenue	55 " "
Flora Street	140 " "
Marion Street	190 " "
Vernon Street	184 " "
Carlton Street	284 " "
Edgehill Road	216 " "
Clinton and Sumner Roads	433 " "
Longwood Avenue	612 " "
Amount carried forward	6,262 sq. yds.

Amount brought forward	6,262 sq. yds.
Babcock Street	476 " "
Chestnut Street	92 " "
Allerton Street	132 " "
Kent Street	172 " "
Total	7,134 " "

In addition to considerable repairing and patching on the concrete walks, the following were skimcoated:

Washington Street	1,869 sq. yds.
Walnut Street	44 " "
Allerton Street	67 " "
Boylston Street	834 " "
Harvard Street	841 " "
Longwood Avenue	143 " "
Chestnut Street	209 " "
Total	4,007 " "

Concrete walks were also laid in the following places, and the cost was charged to the special appropriations.

Walnut Path	290 sq. yds.
Tappan Street (widening)	448 " "
Harvard Street (widening)	710 " "
Total	1,448 " "

New plank walks, with chestnut top and bearings, were laid on —

Newton Street,	24 inches wide	1,170 feet.
Warren Street,	40 " "	92½ "
Aspinwall Avenue,	48 " "	295½ "
Total		1,558 "

New plank walks, with spruce top and cypress bearings, were laid on —

Washington Street,	40 inches wide	463 feet.
Waverly Street,	40 " "	298 "
Thayer Street,	40 " "	312 "
Norfolk Road,	32 " "	1,198½ "
Amount carried forward		2,271½ feet.

Amount brought forward			2,271½ feet.
Buckminster Road,	40 inches	wide	642½ "
Elm Street,	24 "	"	249 "
Francis Street,	40 "	"	1,002 "
Heath Street,	24 "	"	3,925½ "
Centre Street,	40 "	"	661 "
Centre Street,	24 "	"	189 "
Williams Street,	40 "	"	165½ "
Gorham Avenue,	40 "	"	718 "
Brook Street,	40 "	"	689 "
Total			10,513 "

The expenditure for sidewalks was as follows:

Edgestones in addition to amount paid from Highway Appropriation	$2,729 25
Concrete walks, including skimcoating and repairing	6,202 96
New plank walks	2,335 44
Repairing plank walks	666 69
Brick walks and sundries	198 51
Total	$12,132 85

Care of Sewers.

The usual work of cleaning and repairing catch basins was done, and the brook channels and culverts have been kept in good working condition. The lateral sewers have been examined regularly, and have been cleaned and flushed when necessary.

The stoppage on Chestnut Hill Avenue, reported last year, proved to be a very serious matter; where the stoppage occurred, the sewer is laid at a depth of twenty-six feet, and to avoid the necessity of laying house connections to so great a depth, chimneys of six-inch pipe were brought up from the sewer to within ten or twelve feet of the surface of the road. These chimneys were built in open shafts, and between them the sewer was laid in tunnels. Either from the settling of the earth adhering to the flanges of the chimney pipes, or from the great weight imposed on so small a section of the sewer pipe, three of these chimneys broke through, allowing not only the broken pipe, but a large quantity of earth and

stones also to fall into the sewer. To control the flow of water back of the breaks, and to prevent the houses on the lower levels from being flooded, it was necessary to use a steam pump while the sewer was being repaired. It is by no means certain that we may not have similar trouble in the future, as there are three or four more of these chimneys in this same place.

The cost of cleaning the sewer in Beacon Street, where it has settled east of St. Paul Street, was charged to the appropriation for Care of Sewers. A close watch must be kept of this part of the sewer, lest any further settling should interfere with its proper working.

The appropriation for Care of Sewers was $4,000, and $4,004.24 was expended as follows:

Catch basins, cleaned, repaired, etc.	$1,615 02
Lateral sewers, repairs, inspection, flushing, etc.	1,370 78
Railroad Brook, Village Sewer, and Muddy River	277 00
Main sewer	81 82
Brooks, culverts, and drains	699 62
Total	$4,004 24

Collecting Ashes.

The cost of collecting ashes and dry dirt throughout the town was $3,290.18.

Public Grounds and Sundries.

The usual work on the public grounds and school-house lots was done. The two grand stands on the Cypress Street play-ground, and the fences which served as back-stops for the base-ball grounds, were removed; several additional plank seats were built, and the band stand raised and painted. On the Brookline Avenue play-ground several plank seats were also provided, and a fence was built on the westerly and southerly line of the ground and the school-house lot. The cost of what was done was $983.53.

The bath house tank was cleaned at a cost of $67.76.

Sundry work in connection with the building of the new

sewers, not included in the contracts, amounting to $233.21, was done by this department, and the cost charged to the Sewer appropriation.

Sundry other work, amounting in the aggregate to $446.90, was done, and the cost was charged to the proper accounts.

The customary schedule of property belonging to the department is on file in this office.

Respectfully submitted,

MICHAEL DRISCOLL,

Superintendent of Streets and Sewers.

REPORT OF THE INSPECTOR OF BUILDINGS.

OFFICE OF THE INSPECTOR OF BUILDINGS,
TOWN HALL, BROOKLINE, MASS., February 1st, 1891.

To the Selectmen :—

GENTLEMEN, — The Inspector of Buildings has the honor to submit his second report, comprising the work performed from February 1, 1890, to January 31, 1891, inclusive.

The whole number of permits granted was 417; of that number, —

30 were for brick and stone buildings, costing	$593,000 00
118 for wood and frame buildings, costing	820,280 00
18 for additions and repairs, costing	71,400 00
251 for plumbing	88,197 00
	$1,572,877 00
The average cost of brick and stone buildings was	19,766 67
The average cost of wood and frame buildings was	6,951 52
The average cost of repairs was	3,966 66

Of the 251 permits issued for plumbing, —

93 were for wood and frame buildings.	
39 were for brick and stone buildings.	
119 were for additions and repairs.	
The average cost of plumbing for wood and frame buildings, was	$473 62
The average cost of plumbing for brick and stone buildings, was	742 18
The average cost of plumbing for additions and repairs, was	127 77
Number of visits of inspection	1,022

Acting as Inspector for the Board of Health, the Inspector

has visited 109 dwellings and out-buildings, and of that number, 22 have been connected with the sewer, and the drainage and plumbing of the remainder have been put in good condition where repairs were necessary.

The Inspector would recommend certain changes in the building laws, a memorandum of which will be presented for your consideration.

Respectfully submitted,

W. K. MELCHER, *Inspector.*

REPORT ON SUITS TO WHICH THE TOWN IS A PARTY.

February 18, 1891.

Albert L. Lincoln, Jr., Esq.,

Chairman Selectmen of Brookline: —

Dear Sir, — We report as follows concerning the suits which we have had charge of for the town:

Beacon Street Cases.

The Supreme Court on February 28, 1890, rendered its decision in the case of Austin W. Benton, sustaining four out of six of our exceptions and ordering a new trial.

Soon after, the town voted to refer this and the other Beacon Street Cases to a board of referees, to be appointed by the Court, whose awards should be final, and all the claimants agreed to this plan.

Hon. John E. Sanford and Messrs. Charles Robinson, Joseph B. Warner, Chester Guild, and Alexander Moseley were appointed referees, and three cases were heard and decided by them. All but one of the others were settled after the decision of the referees was made known.

First and Second.

Benton vs. *Brookline.*

Armstrong vs. *Brookline.*

These two cases were tried together before the referees. Mr. Benton was represented by Mr. Ranney and Mr. Blume, and Mr. Armstrong by Mr. Treadwell.

The hearings extended over many days; and as these two cases were the first tried, and as it was felt that the decisions

would form a precedent for the remaining cases, they were hotly contested by both sides, and a great many witnesses were examined.

The referees, after taking due time for consideration, made the following awards:

To Mr. Benton:

Damages	$26,408 05
Interest	4,665 42
Costs	177 74
	$31,251 21

To Mr. Armstrong:

Damages	$9,171 12
Interest	1,619 52
Costs	34 54
	$10,825 28

The award of the Selectmen to Mr. Benton was $25,000; that to Mr. Armstrong was $8,500; the increase of damages awarded by the referees was, in Mr. Benton's case, $1,408.05, and in Mr. Armstrong's, $671.12. We regard these figures as a satisfactory confirmation of the judgment of the Selectmen who made the awards. The verdict of the jury, in Mr. Benton's case, was $35,000, exclusive of interest, an increase of 40 per cent. above the award of the Selectmen, and the award of the referees reduced this increase from 40 per cent. to 6 per cent.

These cases were both finally disposed of by the payment of the awards.

Third.

Susan H. Howard vs. *Brookline.*

We were unable to adjust this case, the parties insisting upon a trial on the ground that the peculiar way in which the house was left with relation to the street, made the decision in the Benton and Armstrong cases of little value as a precedent.

Counsel, however, agreed that all evidence as to the value per square foot of land in the vicinity offered by either side in the two cases which had been tried should be considered as if offered in this case.

The referees after two days' hearing and due time for consideration made an award as follows:

Damages	$2,500 00
Interest	491 25
Costs	42 10
	$3,033 35

The award made by the Selectmen in this case was $1,000, and the result not so satisfactory as in the former cases.

It should be added that in this case the tenant of the premises filed a claim for damages which we settled before trial for $236.

Fourth and Fifth.

Caroline A. Benton vs. *Brookline.*

Eliza T. Raymond vs. *Brookline.*

These two petitions practically covered one case.

Mrs. Raymond's award was $13,000.

The case was settled as follows:

Damages	$18,000 00
Interest	3,438 00
Costs	34 54
	$21,472 54

As part of this settlement Mrs. Raymond paid her betterment in full with interest, amounting in the whole to $3,592.53.

The parties at one time offered to accept $28,000 and interest; but the decision of the Supreme Court, and the awards of the referees in the cases tried before them, made it impossible for the petitioners to sustain any such claim.

In the case of Caroline A. Benton, *et al.*, costs only, amount-

ing to $34.54, were paid; any damages due the petitioners being covered by the settlement of the Raymond case.

Sixth.

William H. Hill vs. *Brookline.*

In this case the award of the Selectmen was $2,000. There was not nearly so much of a cut in this case as on the adjoining land of Mrs. Raymond, and we were enabled to settle this suit as follows:

Damages	$2,500 00
Interest	472 50
Costs	34 54
	$3,007 04

An increase in the award of $500.

Seventh.

William H. Hill, Jr., vs. *Brookline.*

In this case the award of the Selectmen was $3,800.

We settled as follows:

Damages	$4,300 00
Interest	812 70
Costs	34 54
	$5,147 24

An increase of $500.

Eighth.

Samuel Hutchinson, Jr., vs. *Brookline.*

In this case the Selectmen's award was $16,000.

We settled upon the same basis as the award of the referees to Mr. Benton, viz., six per cent. increase, as follows:

Damages	$16,960 00
Interest	3,374 84
Costs	34 54
	$20,369 38

Ninth.

Sarah Mellen vs. *Brookline.*

The Selectmen's award in this case was $4,500. The case was settled for:

Damages	$5,075 00
Interest	987 50
Costs	34 54
	$6,097 04

An increase of $575.

It was made a condition of the settlement of this case that the betterment should be paid in full, with interest, amounting in the whole to $3,840.72, and it was paid accordingly.

Tenth.

James P. Stearns vs. *Brookline.*

In this case the award made by the Selectmen was $9,000. The case was settled as follows:

Damages	$12,350 89
Interest	2,412 62
	$14,763 51

An increase of $3,350.89.

It was made a condition of this settlement, that Mr. Stearns should pay his betterment and interest in full, amounting to $9,563.51, and it was paid accordingly.

In effect this settlement gave Mr. Stearns sixty-seven cents per square foot for his land, instead of fifty cents, as awarded by the Selectmen.

Eleventh.

Almira F. Harrington vs. *Brookline.*

This case remains thus far unadjusted.

The Beacon Street Betterment Cases.

The following persons filed petitions for the revision of the

betterment assessments made upon their estates on account of the widening of Beacon Street.

Richard Briggs,	Eliza T. Raymond, *et al.*
Charles H. Stearns.	Mary I. Wason.
Austin W. Benton.	John G. Stearns.
James P. Stearns.	Samuel Hutchinson.
Charles S. Gooding.	William H. Hill.
Edward C. Pike.	Sarah Mellen.
Almira F. Harrington.	Susan H. Howard.

Edward M. Ferris.

Of these cases the following were settled as above set forth at the time of the settlement of the land damage cases of the respective parties, the full amount being collected in each case with interest;

James P. Stearns, amount with interest	$9,563 51
Eilza T. Raymond, *et al.*, amount with interest . .	3,592 53
Sarah Mellen, amount with interest	3,840 72

The two following betterment cases were settled independently of the cases for land damages, and after the land damages were disposed of.

Susan H. Howard for	$1,500 00
Samuel Hutchinson for	1,700 00

The other cases remain unadjusted, the aggregate amount of the betterments therein being $19,249.

Patrick Kelly vs. *Francis W. Lawrence, et al.*

Johanna Conway vs. *Same.*

Two actions brought against the Board of Health of 1883, and a contractor appointed by the Board to recover damages for injuries to the land and buildings of the plaintiffs, caused in the course of altering the drains on the premises under an order of the Board of Health.

These cases were tried together, and the jury returned verdicts for the plaintiffs of $72 in one case, and $95 in the other.

Although the verdicts were small, the Selectmen were of the opinion that the questions presented ought to be decided by the Supreme Court, in order that future boards might know what their rights were in such cases, and the suits were accordingly taken before that court which on June 20, 1890, decided against the defendants, overruling the exceptions.

The verdicts have been paid and the cases disposed of.

The Cypress Street Railroad Crossing.

This case was tried in the Superior Court at Dedham, before Judge Barker and a jury, and resulted in a verdict in favor of the town, requiring the Boston & Albany Railroad Company to pay the town about $4,100 more than the railroad was required to pay the town under the decree appealed from.

The town had reserved exceptions during the trial which would have enabled it to carry the questions of law arising in the case to the Supreme Court; but, as the citizens seemed eager that the work should be completed, and as the county of Norfolk consented to aid the compromise by agreeing to pay the town the sum of $2,300, a final decree was agreed to on the basis of the verdict, so far as the railroad was concerned, the county paying the town $2,300 in addition.

Thus the town finally settled upon a basis more favorable to it by $6,400 than the award of the special commissioners. The rulings of the Superior Court prevented the town from proving to the jury some facts which we deemed very material, especially the fact, that when the Charles River Branch Railroad Company was originally allowed to cross Cypress Street at grade in 1851, the town sent a committee to protest before the County Commissioners against the grade crossing. These rulings might possibly have been overruled by the Supreme Court, in which case a new trial could hardly have failed to impose a much larger sum upon the railroad; but it was deemed best to settle the case as above stated for the reason above given.

Before the final decree was entered, the general bill for removal of grade crossings came up in the legislature, and an

effort was made by Colonel Carpenter in the House, at our request, to have this bill applied to pending cases, such as the Cypress Street case; the effort was, however, so stubbornly resisted by the railroad corporations that it failed.

City of Boston vs. *Town of Brookline.*

This is a bill in equity brought by the city to restrain the town from constructing Clinton Road, on the ground that it is not lawful for the town to lay out a road over the location of the city's aqueduct. The case was heard by Judge Holmes, of the Supreme Court, who reported it to the full court. It will probably be argued in March.

George A. Goddard vs. *Boston & Albany Railroad Company and the town of Brookline.*

Edward S. Ritchie vs. *Same.*

Petitions for damages caused by the decree of the County Commissioners ordering the building of a bridge over the railroad at Cypress Street crossing, and the consequent raising of the grade.

Negotiations have been, and are going on for the adjustment of these cases, but thus far without definite result.

Julia Goddard vs. *Brookline.*

This is an action brought to recover a tax assessed upon the personal property of the plaintiff by the assessors of Brookline, and is now pending in the Superior Court at Dedham.

The plaintiff claims that she was not liable for said tax.

Alfred Winsor et al., Trustees vs. *Brookline.*

Petition filed in Superior Court, at Dedham, to recover damages for the laying out as a private way of the town of Walnut Path formerly called Cat Alley.

Pending in court, but no action as yet taken upon it.

Charles Hughes vs. *Brookline.*

Action to recover damages for injuries to the plaintiff's horse and harness, occasioned, as the plaintiff claims, by a defect in

Boylston Street. The case was on the trial list at the last term of the Superior Court, at Dedham, but was not reached. It will probably come up for trial in April.

Directors of the Boston & Albany Railroad Company, Petitioners.

This is a petition for abolition of the grade crossing at St. Mary's Street. The petition has been presented to the court, but no further action has yet been had.

Julia Goddard, Appellant from Assessors vs. *Brookline.*

This is an appeal under the act passed last year from the assessors to the Superior Court, in which the appellant asks to have the tax assessed last year upon her property abated.

Filed in court, but no further action as yet taken.

Hosea Kingman, et al., Commissioners Metropolitan Drainage System vs. *City of Boston et als.*

This is a petition filed in the Supreme Court, in Suffolk County, by the Commissioners of the new Metropolitan Sewage System, to have a determination of the amounts to be contributed by the city of Boston, and the various other cities and towns interested, of which Brookline is one, towards the cost of construction and maintenance of the metropolitan sewer. A commission of three persons will have to be appointed who will hear all parties, and make report to the court. Some of the towns have questioned the constitutionality of the Act, and this question will have to be disposed of before the Commissioners are appointed.

Very truly yours,

M. & C. A. Williams.

THE BOARD OF HEALTH.

THE BOARD OF HEALTH.

ORGANIZATION, 1890–91.

ALBERT L. LINCOLN, JR., *Chairman.*
WATTS H. BOWKER. JAMES B. HAND.
TUCKER DALAND. HORACE JAMES.
GEORGE F. JOYCE, *Secretary.*

GEORGE K. SABINE, M. D., *Agent.*
WILLIAM K. MELCHER, *Inspector.*

REPORT OF THE BOARD OF HEALTH.

The following report is submitted by the agent of the Board, George K. Sabine, M. D.:

There have been reported during the year, ending December 31, 1890, eight cases of scarlet fever, fifteen of diphtheria, and five of typhoid fever, occurring as follows:

	Scarlet Fever.	Diphtheria.	Typhoid Fever.
January	0	1	0
February	0	2	1
March	0	2	1
April	4	4	0
May	0	2	0
June	1	1	0
July	1	1	0
August	0	0	0
September	0	1	2
October	0	0	1
November	0	0	0
December	2	1	0
	8	15	5

The following table shows the number of cases of scarlet fever and diphtheria reported during the last fourteen years, and the number of typhoid fever cases during the last nine:

	Scarlet Fever.	Diphtheria.	Typhoid Fever.
1877	46	29	0
1878	15	19	0
1879	16	12	0
1880	17	25	0
1881	5	26	0
1882	12	7	4
1883	24	7	23
1884	38	19	12
1885	40	3	9
1886	79	9	13
1887	27	1	9
1888	21	7	9
1889	3	11	4
1890	8	15	5

The cases of diphtheria occurred as follows: three on Brookline Avenue; three on Walter Avenue; two on Washington Street; one near Goodwin Place and the other near Walnut Street; two on School Street; one each on Woodward Square; Juniper Street; Searle Avenue; Munroe Place and Boylston Place.

The cases of typhoid fever occurred in the following localities:

Harvard Square	2
Cypress Street near Cypress Place	1
Clyde Street	1
Prospect Street	1

The number of cases of scarlet fever reported is somewhat larger than for the previous year; but is nevertheless very small and far below the average for the previous thirteen years, during which time the number has been smaller on only two occasions.

The present regulation which has been in force some years and requires that no child shall be allowed to attend school from any house where there is or has been a case of scarlet fever or diphtheria until the expiration of at least four weeks from the commencement of the last case, is a most excellent one; and, no doubt, at times prevents these diseases from becoming epidemic.

The number of cases of diphtheria, although not large, is greater than for the previous five years. During this time the number has been gradually increasing. Every effort should be made to put a stop to this increase by strict attention to the sanitary condition of all dwellings and their surroundings. All plumbing should be frequently examined, the traps kept clean, etc.

Only five cases of typhoid fever occurred during the year, a remarkably small number to occur among over twelve thousand inhabitants.

As a whole the record of infectious diseases is a good one, but not quite as satisfactory as for the previous year.

The whole number of deaths within the town was one

hundred and seventy, against one hundred and seventy-six in 1889; one hundred and twenty-three in 1888; one hundred and fifty-four in 1887, and one hundred and forty-nine in 1886. Deducting the still-births, ten in number, it leaves one hundred and sixty deaths during the year, or a mortality of 13.21 per thousand, the population, according to the last census, being 12,105. The above figures not only include the number of deaths which actually occurred in the towns, but also those of the inhabitants which took place away from home, in the hospitals, etc., so that the number is rather over than under-estimated.

There was one death from scarlet fever, two from whooping cough, and seven from diphtheria. This latter number includes two which occurred in the city hospital.

On March 24 a contract was made and signed with Henry W. Hall, of Littleton, for the collection of house offal for a period of three years. Afterwards the agreement was cancelled, owing to the illness of Mr. Hall, and the contract was awarded to David B. Morrill, said Morrill to receive $1,800 per year for collecting three times a week, with $100 a month added to the above rate when required to collect every day, except Sundays and legal holidays.

The work appears to have been done, on the whole, in a satisfactory manner. The carts and sleds, however, in which the offal is collected, are by no means what they should be.

At the beginning of the year Alonzo Bowman was appointed inspector of milk; G. K. Sabine, M.D., agent for the board, and W. K. Melcher, inspector.

The license of O'Day Bros., as funeral undertakers, was renewed, and one granted Henry S. Hatch in the place of that of J. D. Gutterson, resigned. A license was granted Patrick McCarty for the exclusive right to collect grease and bones for one year.

The inspector for the Board has made one hundred and nine examinations of premises as to their sanitary condition. Twenty-two outbuildings have been discontinued and the premises connected with the sewer.

As has been suggested heretofore, a house-to-house inspection should be made, and where houses have not been connected with the sewer, such connection should be made wherever it is possible so to do.

In November it came to the knowledge of the Board that a number of cows, in one of the herds from which milk was being supplied to many of the inhabitants, were ill with suspected tuberculosis. A veterinary surgeon was employed to look into the matter, which resulted in the killing of one of the cows, and the isolation of others.

The case was then laid before the Board of Cattle Commissioners, who inspected the herd, and declined further action.

On November 15 it was voted that the inspector of milk be directed to examine the cows and premises where the cows are kept, of all persons holding licenses for the sale of milk, to determine if the same conform to the suggestions of the circular issued by the State Board of Health, dated February, 1890, and report to the Board.

This inspection was the means of doing much good by greatly improving the condition of the stables, many of which were found in a wretched state, filthy in the extreme, the cows overcrowded, etc.

The following is an extract from the above-mentioned circular: —

Water Supply. It is essential that the water supply used by the animals concerned in the production of milk, and also for all other dairy purposes, should be absolutely free from the possibility of contamination. Too often does it happen that the cows are compelled to drink the water either of a polluted stream or of a well dug or driven * either in the barn yard, the barn cellar, or in the neighborhood of some cesspool, vault, or manure heap, and the same water is also used for other dairy purposes. The water used in washing cans and milk pails should not be merely warm, but in all cases should be scalding hot.

Care. The stables used for housing milk-producing animals should be of ample size, well-lighted and ventilated, warm and dry. Each animal should have at least 1,000 cubic feet of air space (Ballard). Overcrowding is one of the essential conditions favorable to the pro-

*Driven wells are subject to the same influences as other wells.

duction of tuberculosis. The litter, or other material used for bedding, should be clean, dry and frequently renewed.

The milking pails, coolers, cans, and all vessels used in connection with the collection, storage, and distribution of the milk, should be perfectly clean, and should be rinsed with scalding water or exposed to steam after their use.

Since milk rapidly absorbs foul odors which impart an offensive taste and smell to it, it is essential that the milk should not be exposed in open vessels in stables where such odors are liable to exist, and especially in those where the manure of cows, hogs, or horses is stored in the cellar below the stable.

The milk should be cooled soon after it is drawn from the cow by setting the cans containing it into a vat, tank, reservoir, or trough partly filled with cold water and kept at a temperature as low as 50° F. It is also desirable that it be delivered to the consumer at a low temperature.

It is absolutely essential that all persons engaged in the care and milking of cows should be of scrupulously clean habits, and if, as not unfrequently happens, any infectious disease makes its appearance in the family of a farmer or dairyman producing milk for public use, or of a milk dealer selling either at wholesale or at retail, the person or persons so affected should be isolated and not allowed either to milk cows, or to handle any of the vessels used for receiving or containing milk, or in any way to assist or take part in conducting the business of milk production, storage, transportation or distribution to the consumer until the complete recovery and disinfection of the apartments occupied by the sick.

It is needless to add that kind and gentle treatment of milk-producing animals exerts an important influence in securing milk of good quality and an abundant flow.

The following orders were passed April 14: —

Ordered, That no public funeral shall be held over the remains of any person having died of small-pox, scarlet-fever, or diphtheria, without the written permit of the Board of Health, and under such regulations as may prevent the spread of either of said diseases. Ordered further, that the remains of persons dying of either of said diseases shall at once be placed in a tight or sealed coffin, and shall not thereafter be exposed to view, or disturbed except for burial.

Ordered, That no child be allowed to attend school from any house where there is or has been a case of scarlet-fever or diphtheria, until the expiration of at least four weeks from the commencement of the last case.

Ordered, That no child, from any house where there is or has been a case of scarlet-fever, shall be allowed to mingle with those of any other house, until the expiration of at least four weeks from the commencement of the last case.

Ordered, That no dead body of any person shall be carried to any cemetery, or from one place to another within the town, in any public vehicle other than a hearse, or undertaker's wagon provided for that purpose.

Ordered, That from May 1st to November 1st, no vault or cesspool shall be emptied by any other than the odorless process, nor by carts not of the Odorless Excavating Company, except permission be first obtained from the chief of police.

Ordered, That the manure from livery and horse-car stables shall not be removed from the stables between the hours of sunrise and sunset.

Voted, That the secretary be directed to notify the trustees of the Public Library of the existence of any case of contagious disease as soon as it is reported.

Attention is called to the following statute: —

[Acts of 1884—Chapter 98.]

AN ACT CONCERNING CONTAGIOUS DISEASES.

Be it enacted, etc., as follows:—

Section 1. When a householder knows that a person within his family is sick of small-pox, diphtheria, scarlet-fever, or any other disease dangerous to the public health, he shall immediately give notice thereof to the selectmen or board of health of the town in which he dwells, and upon the death, recovery, or removal of such person, the room occupied and the articles used by him shall be disinfected by such householder in a manner approved by the board of health. Any person neglecting or refusing to comply with either of the above provisions, shall forfeit a sum not exceeding one hundred dollars.

Sect. 2. When a physician knows that a person whom he is called to visit is infected with small-pox, diphtheria, scarlet-fever, or any other disease dangerous to the public health, he shall immediately give notice thereof to the selectmen or board of health of the town; and if he refuses or neglects to give such notice, he shall forfeit for each offence not less than fifty nor more than two hundred dollars.

Sect. 3. The boards of health in the several cities and towns shall cause a record to be kept of all reports received in pursuance of the preceding sections, and such record shall contain the names of all persons who are sick, the localities in which they live, the diseases with which they are affected, together with the date and the names of

the persons reporting any such cases. The boards of health shall give the school committee immediate information of all cases of contagious diseases reported to them according to the provisions of this act.

SECT. 4. The secretary of the Commonwealth shall furnish the boards of health with blank books for the record of cases of contagious diseases as above provided.

SECT. 5. Sections seventy-eight and seventy-nine of chapter eighty of the public statutes are hereby repealed.

[*Approved March 21, 1884.*

REPORT ON THE VITAL STATISTICS.

To the Selectmen of the Town of Brookline: —

GENTLEMEN, — The undersigned herewith submits the report of the vital statistics of the town of Brookline for the year ending December 31, 1890.

Marriages, by Months.

MONTHS.	Whole Number.	First.	Second.	Third.
January	12	23	1	
February	11	19	3	
March	8	15	1	
April	16	29	2	1
May	8	16		
June	29	55	3	
July	7	14		
August	11	21	1	
September	11	22		
October	16	29	2	1
November	18	30	6	
December	5	9	1	
	152	282	20	2

Of the above marriages, two were the third marriage of the groom and first of the bride; fourteen were the second marriage of the groom and first of the bride; six were the first marriage of the groom and second of the bride, and one hundred and thirty were the first marriage of the groom and first of the bride.

Births, by Months.

	Months.	Whole No.	Males.	Females.
1890.	January	31	20	11
	February	16	10	6
	March	27	10	17
	April	19	7	12
	May	24	13	11
	June	22	11	11
	July	18	9	9
	August	32	11	21
	September	29	13	16
	October	23	15	8
	November	20	11	9
	December	37	10	27
		298	140	158
	Of the above births one was twins, June 2,	2		2

Deaths, Sex, Condition, and Age, by Months.

B. F. Baker, *Town Clerk.*

REPORT OF INSPECTOR OF MILK.

OFFICE OF INSPECTOR OF MILK,
BROOKLINE, January 31, 1891.

To the Board of Health: —

GENTLEMEN, — The following-named persons have been licensed to sell milk in the town of Brookline the past year, — thirty-nine from wagons and twenty-eight from stores:

FROM WAGONS.

Hugh Bennigan,	Brookline.	Herbert E. Jones,	Waltham.

Francis H. Bacon,	"	Mary Mitchell,	"
Bernard Duffy,	"	Milo H. Gilbert,	"
Thos. S. Brown & Co.,	"	Patrick Manigan,	"

Three hundred and three cans (pints) of milk have been purchased from licensed dealers and thoroughly tested.

I have tested milk the past year by the Müller Method, with Quevenne's Lactodensimeter and Chevalier's Creamometer using the Lactoscope of Prof. Feser and the Celsius Thermometer, as adopted by milk inspectors in all the principal cities and towns in the State; and from which use the best results are obtained. I have also tested thirty-seven samples of milk sent to this office by citizens to ascertain the quality of milk they were using in their families.

More than twice the number of milk samples have been tested and more than double the labor has been performed in this department than in any previous year.

A good deal of attention has been given to the sanitary condition and surroundings where milch cows are kept, and a thorough renovating and cleaning of quarters where milch cows are kept has been the result.

Brookline continues to hold a foremost position among the towns of the State in the quality of her milk supply.

Several "warnings" have been sent to licensed dealers in milk, notably, to stores where a small trade only is had, in cases where the milk fell slightly below the standard established by law.

I am indebted to Dr. Sabine, Agent of the Board of Health, for valuable suggestions and assistance in the inspection of milk; also to Dr. Alexander Marshall, Vet. Surgeon, for valuable assistance and advice regarding the sanitary condition of barns and quarters where herds of milch cows are kept.

Respectfully submitted.

ALONZO BOWMAN,
Inspector of Milk.

OVERSEERS OF THE POOR.

OVERSEERS OF THE POOR.

ORGANIZATION 1890-91.

STANDING COMMITTEES.

ALMSHOUSE.—Miss Chapin, Mrs. Codman, M. Daland.
POOR.—The Board.
THE SICK POOR. — Miss Chapin, Mr. James.

REPORT OF THE OVERSEERS OF THE POOR.

In reviewing the condition of our poor during the past year, various small signs betoken an improvement in their powers of self-support. One family of five members has won our respect by voluntarily withdrawing from further town-aid; only two men have been given out-door relief during the year, and the number at the almshouse — five — is as low as it has ever been for such a continuous period.

Of the four children now supported by the town, two have come upon our charge from habits of irregularity in school attendance, and have been committed by the courts to the House of the Angel Guardian. The other two, without parents, are boarded by the town; the boy winning the affection of the person with whom he is placed in a small, healthful fishing village, and the girl kindly cared for by relatives in this town. We intend to have them all visited at regular intervals, and to have their condition reported and considered.

The numbers receiving out-door relief remain about the same. At present there are few questions in this work which require more careful attention than this, as to its permanent effects as a system of aid. Elderly women, whose children or friends are willing to pay rent for them, by slight aid furnished in the form of specified groceries, can be maintained at their own homes at a less expense to the town than at the almshouse. With widows with families, aided under the same conditions, our desire is to help them only for a time, to the means of self-support, through their own efforts, or through those of their children; keeping ourselves familiar with their condition, and ready to meet them with personal advice in case of need or uncertainty on their part.

The Almshouse still continues under the excellent management of Mr. and Mrs. Campbell, to which the good physical condition of the inmates, the cleanliness of the interior, and the thrifty management of the farm testify. Owing to the extremes of rain and heat last summer there were no farm products to be sold.

The number of insane supported by this town remains almost unchanged, and, as before, constitute by far the largest part of the expense of this branch of the town's work.

We have believed it best to discontinue keeping a supply of old clothing for distribution.

Names and Ages of the Inmates at the Almshouse January 31, 1891.

Summary of expenses for support of poor:

Maintenance of the Almshouse			$1,601 21
Insane in hospitals		$2,643 88	
Less received from Obed F. Smith .	$53 85		
Less received from Patrick Mahoney .	100 00		
Less received from Edward Bonacino .	10 00		
Less cash	42 71	206 56	
			2,437 32
Out-door poor		$1,963 75	
Less received from Town of Norwood .	$102 19		
Less received cash	2 00	104 19	
			1,859 56

Children		$414 45
Sick	$464 00	
Less received from Town of Norwood	28 75	435 25
In City Hospital, Boston		150 00
		$6,897 79

Work done under Mrs. Codman and Miss Chapin:

Cash on hand February 1, 1890	$0 11	
Cash received from sales from Feb. 1, 1890 to Feb. 1, 1891,	13 00	
		$13 11
Cash paid for 162½ yards cotton		13 00
Balance February 1, 1891		$0 11
Garments on hand February 1, 1890	10	
Garments made during the year	36	
		46
Garments sold		35
Remaining on hand February 1, 1891		11

We have now no women able to sew regularly, and merely provide a small amount of work for those whose ability or willingness it seems desirable to test.

THE WATER BOARD.

WATER BOARD.

ORGANIZATION, 1890–91.

FRANCIS HUNNEWELL . . .	Term expires 1891
WILLIAM K. MELCHER . . .	Term expires 1892
GEORGE H. JOHNSON . . .	Term expires 1893

FRANCIS HUNNEWELL, *Clerk and Registrar.*
FAYETTE F. FORBES, *Superintendent of Works.*
Z. R. FORBES, *Superintendent's Assistant.*
RICHARD J. FLINN, *Engineer at Low Service Station.*
WILLIAM B. WEBBER, *Engineer at High Service Station.*

REPORT OF THE WATER BOARD.

The Water Board would respectfully submit herewith their fifteenth annual report, for the fiscal year, closing January 31, 1891.

At the annual town meeting, held March 31, 1890, George H. Johnson was re-elected a member of the Board, for the three years ensuing.

The Board organized by the choice of William K. Melcher, chairman, and Francis Hunnewell, registrar and clerk. The principal employees on the works remain the same as the previous year.

Street Mains — Extensions.

As will be seen by the Superintendent's report, hereto subjoined, the past year has been one of the busiest in the history of the works. What with the construction going on at Cow Bay, and an unprecedented demand for short lines of street mains and service pipes, the department has had all, and more than it could quite complete, before severe winter set in.

The wisdom of the liberal policy of the town is fully shown in the authorizing the purchase of pipe, in advance of positive needs, thus enabling the Water Board to make short extensions without delay, and, in a multitude of cases, to the very great pecuniary advantage to those preparing to build.

It is a significant fact worthy of note, that a leak of no kind has appeared in our street mains the past two years.

Our street extensions the past season were increased about three (3) miles making the total number of miles of street mains laid to date 47 miles and 3,207 feet.

The number of service pipes laid the past year was 154, making the total number laid to date 1,908.

Quality of our Water.

The quality of our water has been uniformly good throughout the year, even from the reservoir. By close attention and frequent microscopic inspections, by Mr. Forbes, the nature and habits of the growths which infest the waters of our reservoir are being better understood, and their evil consequences guarded against in a measure.

Buildings.

The buildings and property generally of this department are in excellent condition.

The work-shop and stable building on Walnut Street has been very completely remodelled, and is now well suited to our work.

A cellar was authorized to be constructed under the pumping station at Cow Bay, and an appropriation of $1,500 made for this purpose which was to cover also the relaying of the main floor. But it was not possible to reach this work the past season and the appropriation, by a vote of the town January 29, 1881, has been carried over to the credit of the extension account for 1891–92.

Engines and Force-Main.

Special attention is called to the report of the Superintendent, under this head.

We have reached a point in the history of our water works, when prudence and good judgment would seem to demand that a little time and thought should be devoted to the consideration of our needs for the very near future.

Our large Worthington pump has now been in almost continuous service for sixteen years, pumping in this period *two billions nine hundred and fifty million gallons.* Owing to able care given to it by the resident engineer, Mr. Flinn, it is still in excellent condition and capable of considerable further duty as an auxiliary pump. But it is not of modern construction and requires an extravagant amount of fuel for the duty performed.

It will also be apparent from Mr. Forbes' report and table, that we are fast reaching the utmost capacity of our force mains even with the present pumps. The force mains are now 16 inch, from the pumping station to the location of the old pumping station, a distance of about 2,300 feet; 14 inch from this point to the intersection of Grove and South Streets; and 16 inch the balance of the distance to the Reservoir on Fisher Hill.

A new pattern, high-duty engine will require either the entire remodelling of the present station, or the construction of a new one, and the laying of a 20 or 24 inch main the entire length. This of necessity will call for a large outlay, and require much time and labor before the matter can be properly presented to the town for action. If the town were prepared for such action to-day, and the work authorized, it would require two full years before the town could get the advantage of the change.

For these reasons the Water Board, as time allows, will prepare, during this year, a report in detail on this subject and submit it to the town.

At the high service pumping station, the Superintendent reports that a small auxiliary pump should be placed at once.

The water consumption on this service is increasing very rapidly, and will require the running of the present pump a part of every day the coming season. The risk is now too great to depend here upon one pump.

Provisions were made in the construction of this building for the placing of a second engine and boiler, and the Water Board recommend the purchasing of a second small engine for this station, and will ask for an appropriation of two thousand dollars ($2,000) for this purpose.

Meter Service.

In November, 1888, at the time the Town adopted the revised meter ordinance, there were in use 156 meters only. On the first of February, 1891, there was set on private estates 694, and fifteen in the public buildings of the Town.

The number and kind of meters in use are as follows:

Desper	1
Nash	1
Union Rotary	7
Worthington	37
Hersey	57
Duplex	71
Thomson	87
Crown	433

Of these 113 were set the past season.

With all the feeling arising, in certain quarters, against the use of meters — owing to unfortunate contracts for the construction of perhaps a new one, before unknown and untested; and in other quarters arising, generally, from ignorance of their mechanism and working, still it stands to-day the best, and, in fact, the only known method of equitably determining water consumption. And its value to a town conditioned as Brookline is, as to its water-supply, obliged to pump every gallon consumed, and the second time for the high-service, cannot be over-estimated.

It must be evident to every water-taker that water assessments based upon the number and kind of water fixtures in a building are by no means any indication of the amount of water consumed in that building.

The fact that we charge $3 per annum for a single faucet, which is the cost, by our meter rates of 15,000 gallons; or for a bowl, in some remote chamber, $2.50, the price of 12,500 gallons; or for a garden hose, $5, the cost of 25,000 gallons, cannot be said to measure, even approximately, the water used through these fixtures. And the method in practice in Boston, and other places, namely, basing the water-tax upon the assessed valuation of an estate, is equally as fictitious and absurd.

It would be just as equitable to count the slate or shingles on a building, and make this the base for a water tax; or make the hoops on a flour barrel, the measure of its contents in dollars worth. This mode of estimating is as likely to be

against the water consumer as otherwise, and facts show more so, on the average.

Of the 693 water takers by meter in Brookline more than one-half of them pay less water tax than they would by fixture rates. For the reason that, with no compulsion, those only will elect to have a meter set where they are pretty sure it will reduce their rates, consequently the best results from a meter-system cannot be realized by the town until the system is made general.

The water consumed by the town for the twelve months ending February 1, 1891, was 322,767,796 gallons. Deducting 30,000,000 gallons, the quantity estimated to be used by the town for sprinkling streets, flushing sewers and flushing sewer trenches, and other public purposes, leaves 292,767,796 gallons which is, presumably, the net quantity consumed for domestic purposes.

Could the town have realized a revenue from the total of this latter net quantity, of 2 cents per 100 gallons, our present meter rates, it would have carried our net water receipts to $58,553 for the fiscal year instead of $36,000 as now shown by the treasurer's account.

The actual quantity of water delivered by meter the past year was 70,799,000 gallons or only about one-fifth the total consumption.

Of course the first and paramount importance of a meter system is the detection of leaks and waste. Every water-taker by meter becomes an inspector of plumbing, and in these cases the waste is reduced to a minimum.

One source of needless waste, detected by our meters, is in our school buildings where for the year ending February 1, 1891, there was consumed 3,451,452 gallons, which was in reality for nine months, and for five days only in the week.

One notable example of the working of the meter system is taken from Registrars' records. A building in town having seven tenants, stores and tenements, had *one* meter set for all, the water rates being paid by the landlord.

The rates were averaging about $40 per quarter, showing

an enormous waste, that no one of the tenants desired to father. Finally the plumbing was divided and a meter set for each tenant. The following quarter the rate dropped down to $4.81, which was the quarter ending December 31, 1889, and has not averaged over $8 for any quarter since. Thus although the town lost a little revenue, it had, as a set-off, considerable water saved, the landlord and tenants made happy, and advocates, of course, of the meter system.

Although the town, it is believed, will, with the extensions under way at Cow Bay be in a stronger position than ever before, as to its water supply, both for quality and quantity, still every possible guard should be thrown about it to prevent wanton waste, the meter being found to be the most potent auxiliary.

It is the universal experience with all experts and engineers on public water works, that the per-centum of waste, more than keeps pace with every increase of supply.

Joseph P. Davis, engineer of Boston in 1874, when the Sudbury river supply was being considered, remarked that if he could have the sole direction of the Boston water supply, and consumption, he could put off obtaining any increased supply — for ten years — by a rigid meter system.

For the above and many more arguments that could be used, the Water Board would earnestly recommend the adoption of a general meter system for the town, believing, as above figures show, that, if a meter could be attached to every tap made, the town could, without loss of revenue, very materially reduce the present water rates, or make special rates for those who might deem the change a hardship.

Construction at Cow Bay.

In Town Meeting July 8th, 1889, an appropriation of $18,000 was made for the purpose of purchasing the necessary pipe, special castings, gates, engine, tools, etc., and laying a 24 and 16 inch supply pipes from the pump well of the engine-house at Cow Bay, south and west across the old property adjoining the filtering galleries, to and under Charles River,

and so on to the Chamberlain property on the west side of Charles River, purchased for this purpose in 1888. This being in accordance with plans recommended by the Water Board, and prepared by their engineer and superintendent, F. F. Forbes. At the same meeting of July 8th, 1889, the Selectmen and Water Board were made a special committee for carrying out these proposed extensions and construction.

At a subsequent meeting of the committee, the engineer submitted detailed plans and specifications of the whole work, with a schedule of the materials and machinery needed.

And it was voted that Mr. Forbes' plans be adopted, that he be appointed engineer for this construction, and that the work be prosecuted under the supervision of the Water Board.

Authority was given the Water Board to advertise for bids for furnishing the necessary material and machinery for the work, the labor to be done by the day, the same as all the ordinary street extensions of the water-works.

The contract for pipe was awarded The McNeal Pipe & Foundry Co., of Burlington, N. J., who were found to be the lowest bidders for 158 tons of 24 inch, and 25 tons of 16 inch pipe, and 10 tons of special castings, to be delivered f. o. b. at the Spring Street Station, West Roxbury, by January 1, 1890, the price of the straight pipe being $29.48 per ton of 2240 lbs., and the specials $64.40 per ton.

It was contemplated in having the pipe arrive in mid-winter to be able to move it in place upon sleds, crossing the river on the ice, which would have very materially reduced the price of hauling, estimated at $400. But as it turned out there was less than a week of the winter when sleds could be used, and not a day when the ice would bear a man's weight, the first experience of the kind for twelve years.

The contract for furnishing the steam pump was awarded the Geo. F. Blake Mfg. Co., which called for what is known as a duplex inside plunger pump. The price paid was $520. The purpose of this pump being first, for keeping the water down in the trench during the progress of excavation, and, ultimately, to be placed in the brick under-ground chamber

built for it, to be used for drafting water through the long line of pipe whenever it is too low to flow by gravity, and to deliver it into our present pump-well which adjoins the chamber.

The work of excavating for the pump-chamber and pipe trench was begun as early as the water on the meadows would allow. Great amount of water was encountered before the proper depth was reached; but it was easily taken care of by the Blake pump while at work near the pumping station, and by a powerful rotary pump which was moved along the line of the trench as the work progressed.

The large gate which was to be the connection between the 24 inch main and the pump-well at the station-house was put in place August 2, 1890, and the opening of the trench and laying the large pipe followed on rapidly.

A gang of well drivers was organized under Mr. Forbes' supervision, who began their work at once of driving 2½ inch pipe, prepared for the purpose, to the water bearing stratum of gravel, and where a satisfactory amount of water was obtained. These were driven at intervals of about 50 feet along the pipe line, and connected with the main, each with an independent shut-off gate.

For a distance of about 370 feet across the marsh, to insure solid foundation for the pipe, two rows of piling were driven, and sawed off at the proper depth, with hard pine sleepers placed across from one row of piles to the other as a bearing for the pipe.

In this manner the east banks of the Charles River were reached September 13th, 1890.

A section of coffer dam was at once constructed, 40 feet in length, which would allow the laying of three lengths of pipe, with a bulkhead.

This first section was completed and pipe laid without much difficulty, the water of the river in reality not giving as much trouble as the peaty water of the marsh.

At this stage of the work heavy rains had so swollen the river as to seriously retard progress, and raise a question as to

the possibility of going further until the water should recede. A short season of dry weather followed, and the work was pushed on until six sections of 40 feet long, and one section of 70 feet long of coffer dam had been made, and the pipe securely laid and covered.

This brought the work to the west bank of the river, which at this point is about 250 feet wide.

To this point 1,508 feet of 24 inch pipe has been laid, and 19 driven wells connected. In fact, all the work on the east side of the river is completed save the lowering of the Blake pump on to its foundation in the under-ground chamber.

On the twenty-third day of October, owing to the high water, short days, and rough weather, it was deemed prudent to suspend the work for the season, and the machinery and tools were securely housed, and the hands discharged. About seventy men had been employed daily since the work began.

All the material to complete the proposed extension is on the ground ready for the summer's work.

There is on hand 380 feet of 24 inch and 500 feet of 16 inch pipe to be laid upon the west side of the river. A few lengths of 24 inch, weighing a ton each, were safely floated across the river in the early fall, much to the amazement of the laborers on the work, and the balance has been sledded over on the ice the past winter.

Considerable number of wells have been driven and tested upon the new land, and some 200 feet of trench opened ready for the pipe.

It is impossible at this data to determine with any degree of accuracy the results in gallons of water from the wells already driven and connected with the 24 inch main. But sufficient evidence, and positive, has been already obtained to warrant the statement that all and better results to our water supply will accrue from this extension than were ever promised, or that the original investigations show.

The principal part of this gain, of course, comes from the newly acquired territory, as we pass beyond the present drafting of our pumps. It is also made evident since the work

began that the step was taken none too soon, and that every foot of the land lately acquired is an imperative necessity for a judicious and timely extension of our water works, to keep not only abreast, but a little ahead of the rapid growth of the town. As will be seen by the above brief statement, the season is a very short one that work of this character can be prosecuted in this vicinity, owing to the high stage of water on the marshes, confined as a rule to only about four months.

The financial account of this construction, to date, stands as follows:

Appropriation voted July 8, 1889,	$18,000 00	
Appropriation voted September 4, 1890,	4,000 00	
Total		$22,000 00
Summary of disbursements:		
For Iron, straight pipe and specials	$7,692 16	
Machinery, tools and gates	2,965 99	
Labor account	7,134 84	
Lumber	1,362 35	
Brick and cement	340 10	
Lead	493 69	
Piles furnished and driven	384 00	
Unexpended balance	1,626 87	
		$22,000 00

RECAPITULATION.— REVENUE.

Water receipts for the year ending February 1, 1891 :—

From private consumers, including meter rentals		$31,592 60
Charged town of Brookline : —		
For Fire department (287 hydrants)	$7,170 00	
Street Department (sprinkling)	5,000 00	
Highway Department	375 00	
School-houses	690 00	
Fire Department (houses)	70 00	
Town Hall	90 00	
Police Department	22 50	
Public Library	8 00	
Almshouse	16 00	
Walnut Hill Cemetery	10 00	
Old Cemetery	5 00	
Town stables	30 00	
		13,486 50
Total		$45,079 10

Construction Account.

Total cost of the works to February 1, 1890		$818,752 00
Disbursements for extensions for the year ending February 1, 1891 : —		
For Street-mains, gates and hydrants	$21,076 88	
Service-pipe and connections	3,782 87	
Meters and connections	2,834 59	
Buildings remodelled	2,027 98	
		29,722 32
Disbursements for extensions at Cow Bay, as by statement in foregoing report		20,373 13
Disbursements for account of land purchased to February 15, 1891		11,011 48
Total cost of works February 15, 1891		$879,858 93

Recapitulation of Extension Account.

Total appropriations made for extensions, during the fiscal year ending February 1, 1891		$43,575 00
Disbursements as given above	$29,722 32	
Amounts reappropriated for the following purposes, voted January 29, 1891 :		
For Replacing pipe in stock	4,219 68	
Extra pipe for reserve stock	5,000 00	
Unfinished work on Fisher Hill	1,300 00	
Work in progress on Corey Hill	500 00	
Work authorized on Green Street, Gorham Avenue, and Winthrop Road	1,333 00	
Cellar under Engine House	1,500 00	
		$43,575 00

Recapitulation of Maintenance Account for the Year Ending February 1, 1891.

Appropriation voted for low-service	$13,000 00	
Appropriation voted for high-service	2,000 00	
		$15,000 00
Disbursements :		
Pumping-expenses of low-service	$5,379 89	
Pumping expenses of high-service	1,775 46	
Salaries and other office expenses	2,845 78	
Repairs on buildings	304 65	
Repairs on gates and hydrants	329 52	
Repairs on street-mains and service pipe	407 98	
Repairs on reservoir	49 00	
Repairs on telephone lines and leases	105 38	
Repairs on engine and boilers	84 71	
Work-shop and stable maintenance	911 05	
Miscellaneous	56 90	
Unexpended balance reappropriated for coal and other material contracted for and not delivered before close of year	2,749 68	
		$15,000 00

Appropriations required for the maintenance and extension of the works for the year ending February 1, 1892, independent of the balances of last year, which were reappropriated, for

special work unfinished and material contracted for, but not ready for delivery prior to the close of the financial year:

Maintenance Account.

For maintenance of low-service	$13,000 00
For maintenance of high-service	2,000 00

Extension Account.

For Service pipe and connections	$3,000 00
Meters and connections	2,500 00
Gates and hydrants	1,000 00
Extra street mains likely to be wanted . . .	2,500 00
Removing the old wooden connection between the east and west end of the filtering galleries and replacing it with 12 inch iron pipe	2,000 00
Labor, lead, and hydrants for extensions authorized on Fisher Hill, Gorham Avenue, Green Street, and Winthrop Road, January 29, 1891. . .	2,850 00

Respectfully submitted,

W. K. MELCHER,
F. HUNNEWELL,
GEO. H. JOHNSON,
Brookline Water Board.

SUPERINTENDENT'S REPORT.

To the Brookline Water Board:—

GENTLEMEN,—I have the honor to present herewith the annual report of the Superintendent for the year ending January 31, 1891.

Extension of Street Mains.

(1) Extensions to low service:

Kent Street, from Brook Street to Aspinwall Avenue	301.0	feet	10-inch pipe.
Centre Street, from end of pipe as before laid to Williams Street	521.0	"	8-inch "
Buckminster Road, from end of pipe as before laid, near Holland Road, westerly	697.0	"	" "

Service Pipe.

A larger number of service pipes have been laid the past year than on any other year since the works were turned over to the Water Board.

Number as per last report	1,754
Laid the past season	154
Total to date	1,908

Leaks.

In street mains	1
In force mains	0
In service pipes	4

The past season has been an exceedingly busy one for all the employees in this department. In addition to the usual work, which in itself shows a marked increase in comparison with that of previous years, the extension at our source of supply, and other work relating thereto, has drawn heavily on the time and energy of the whole permanent force. A brief description of this latter work is as follows: Surveys were commenced in early spring, under instructions from the Selectmen and Water Board, on the lands adjoining that already owned by the town in the neighborhood of the filtering galleries and pumping station, for a future water supply and protection of same, and continued till about August 15 before the work was completed. Also over the territory just mentioned, comprising nearly 400 acres, a sufficient number of soundings were taken and test wells driven to determine accurately the value of the land for a water supply. Plans have also been made showing all the lot lines, with areas of different owners, high lands, swamps, etc.

A plan of such part of the above as the Selectmen and Water Board deemed proper for the town's future needs has been filed at Dedham.

The work contemplated one year ago, and spoken of in the last report, viz., of laying a 24 inch suction or conduit pipe from our pumping station to the land recently purchased by the town on the other side of the river, was not commenced till July, owing to the high state of the river. From its beginning to the time work was finally stopped by high water, in October, a larger part of my time was spent here. The pipe, however, would have been much farther along, with no greater outlay, if the heavy rains which came at the very time we were about to cross the river had not burst upon us till later in the season. Work of this kind in this neighborhood must always proceed with some uncertainty, as Charles River may any month in the year completely overflow its banks and flood the surrounding meadows.

It is expected that this work will be completed the coming season, and an ample supply of pure, cool water obtained for present requirements at least.

Addition has been made to the workshop and stable, and the interior so arranged as to give the best accommodations for the necessary work of this department. The room now is ample and convenient, and no farther enlargement will be necessary for some years.

A water motor, with pipe machine and buzz-saw, has been added, which will much lessen the cost of certain classes of work.

The wooden roof which now covers the high-service tank will have to be renewed in a year or so, or perhaps what is better, an iron covering substituted.

The grounds surrounding the reservoir have been alluded to in former reports. The circumstances continue to be the same, and consequently nothing farther can be said at the present time.

Quality of the Water.

The water as it leaves the filtering galleries is as pure, cool, and agreeable to the taste as water from any of the bubbling springs on the hillside. When this same water is exposed to the sunlight in the reservoir, minute forms of vegetable and animal life make their appearance, and during their growth impart more or less disagreeable taste to the water. With our present knowledge it is impossible to keep all, or in fact a large part of these minute organisms from open reservoirs. A continuous study, however, with the aid of the microscope, now extending over several years, has told us a great deal about them, and as a result of this knowledge the town has received very much less unpleasant water than otherwise would have been possible. It is hoped, and with good reason, that more continuous and extended study in this direction will reveal much which is now mysterious to us, and which will farther benefit the water consumer. But with all the progress which can be reasonably expected in this line of investigation, without doubt the ideal water supply must ever be looked for in a water drawn from uncontaminated filtering galleries, or wells, or similar sources, and its purity and agreeable qualities preserved by storing the amount considered necessary in covered tanks or reservoirs.

Consumption of Water in Relation to our Present Pumping Capacity and Capacity of Force Main.

During July of the past year about forty million gallons of water were pumped. This month was the dryest one of the season, and consequently more water was used than on any other, but the drought was not unusual, and a like occurrence may be expected any year. Suppose the consumption should increase for the next five years at the same rate it has in an equal length of time in the past, the consumption for a corresponding month would be about fifty-three million gallons, and there is every reason to believe that this rate will be exceeded. The full capacity of our pumping-engine and force-main is sixty million gallons per month, and without doubt by

the time the year 1895 is upon us, the consumption for some of the warm, dry months of summer will be in excess of this amount. Our main pumping-engine has been in constant use for sixteen years; and although a good, safe engine to-day, and one which can be depended on for reserve for many years, the new, improved, high-duty engines now in the market will pump the same amount of water with one-half of the coal.

Taking into consideration the fact, that within five years from this date, an engine of larger capacity will be absolutely necessary, and also the gain which a high-duty engine will bring us in fuel saved, it would seem wise to procure figures, make plans the coming season, and get this whole matter in such shape that a new high-duty engine can be purchased and put in working order in the year 1892. Without doubt the interest on the cost of the new machinery, up to the time of its absolute need, would more than be met by the actual saving in coal. The forcemain could be laid in one season, and this can be safely postponed a year or two later, or till the need should be more apparent.

It would, also, seem advisable to add a reserve engine to the high-service station. When the storage capacity is large enough to allow necessary repairs to be made to an engine, as in case of the high-service system during its first years, one engine can be considered reasonably safe; but when pumping must be done on every day, as will probably be the case at this station the coming summer, good management would call for a second engine.

This engine need not be an expensive one, and no great outlay will be needed.

I subjoin the following tables, — the record of consumption, &c., — all of which is respectfully submitted.

F. F. Forbes,
Superintendent.

List of Stop-Gates Set in 1890.

Lancaster terrace, corner Beacon street, one 10-inch gate.
Centre street, corner Williams street, one 8-inch gate.
Leicester road, corner Fisher avenue, one 8-inch gate.
Prospect road, corner Lancaster terrace, one 8-inch gate.
Maple street, corner Irving street, one 6-inch gate.
Brook street, corner Kent street, one 6-inch gate.
Cumberland avenue, corner High street, one 6-inch gate.
Holland road, corner Buckminster road, two 6-inch gates.
Green street, corner John street, one 6-inch gate.
Road No. 1, corner Beacon (Corey Hill), one 6-inch gate.
Road No. 6, corner Road No. 5 (Aspinwall Hill), one 6-inch gate.
Road No. 6, corner Winthrop road, one 6-inch gate.
Aspinwall avenue, corner Kent street, one 6-inch gate.
Leverett street, corner Boylston street (in place of 2-inch), one 6-inch gate.

List of Hydrants.

Number set as per last report connected with low-service .	214
" " " " " high " .	49
Total	263

The following have since been set in 1890 :—

(1) Connected with low-service: Buckminster road, about 500 feet west from Holland road, one hydrant; one hydrant on Green street, near corner of John street; one hydrant on Kent street, about 70 feet north from Brook street; one hydrant on Leverett street, corner Winthrop place; one hydrant on Road No. 1 (Corey Hill), about 500 feet from Beacon street; one hydrant on Road No. 1, about 500 feet from last-named hydrant; one hydrant on Road No. 1, about 500 feet from last-named hydrant:

(2) Connected with high-service: One hydrant on Holland road, about 500 feet from Buckminster road; one hydrant on Rawson road, about 500 feet from Winthrop road; one hydrant on Prospect road about 500 feet from Lancaster terrace; one hydrant on Lancaster terrace, about 500 feet from Beacon street; one hydrant on Lancaster avenue, near corner Prospect road; four hydrants on Heath street, connected with the 10-inch main laid the past season; three hydrants on Road No. 6, Aspinwall Hill; four hydrants on Newton street, from Clyde street to Boston line, at intervals of about 500 feet; one hydrant on Leicester road, about 500 feet from Fisher avenue.

Total number of hydrants now supplied by low service . .	221
" " " " " high " . .	66
Total to date	287

Water-Cart Feeders.

Number set, as per last report, 74. None have been set the past year.

Drinking-Fountains Now Set.

One in Harvard square.
One on Brookline avenue, near Washington street.
One on Boylston street, corner Chestnut Hill avenue.
One on Aspinwall avenue, corner St. Paul street.
One small drinking-fountain on Playground, Cypress street.
One small drinking-fountain on Playground, Davis avenue.
One small drinking-fountain, Harvard square.
One small drinking-fountain, Boylston street, corner Washington street.
One small drinking-fountain, Brookline avenue, corner Washington st.
One small drinking-fountain, Beacon street, corner Harvard street.
One small drinking-fountain, Heath street, by Holyhood Cemetery.
One fountain on Hammond street, near Heath street.
The last one was set the past year.

LOW-SERVICE PUMPING STATION.

West Roxbury, February 6, 1891.

To the Brookline Water Board: —

Gentlemen, — I have the honor to present the report of the Engineer for the year ending January 31, 1891.

There has been an increase of 37,500,000 gallons in the amount of water pumped and of 274 hours in the pumping time, over last year. Nearly 40,500,000 gallons were pumped in July, this being the largest quantity pumped in one month since the works were started. This is two-thirds the capacity of the pump and force-main, and more than the total yield of the galleries alone.

Pumping Engines.

The pumping engines are in good condition, with the exception of the high-pressure piston of Engine No. 1, which is nearly worn out. It can be re-fitted at an expense of $60, or a new piston put in for $150.

New valves and springs have been put in the air-pump buckets, the rock-shaft bearings re-babbited, and new stud-bolts in the forward ends of the water cylinders, to replace the old ones which had become crystallized.

Engine No. 2 has required no repairs except to replace some of the force-valve springs. The feed-pump is worn out, and it will not pay to have it repaired. A new one, a size larger, is needed.

Boilers.

The boilers are in good condition. They have been periodically inspected by myself and assistants, also by the inspectors of the Hartford Inspection and Insurance Company.

The daily use of soda is continued with good effect in keeping down the scale deposited on the tubes from the gallery water, which is used for supplying the boilers. I would sug-

gest that an analysis of the Charles River water be made, for the purpose of determining whether it is more suitable for use in the boilers than gallery or well water.

The deposit of grease on the heads and braces of the boilers, has been got rid of by extracting the oil from the exhaust steam before it reaches the condenser. In most steam-engines, 75 per cent. of the oil used for lubricating the cylinders is wasted by being blown out with the exhaust steam. The temporary extractor which I have now in operation saves all this waste, — besides preventing the oil getting into the boiler. A permanent apparatus can be fitted up at an expense of $25, thereby effecting a saving of over $50 a year in cylinder oil.

A shaking grate has been put in the furnace of boiler No. 2. The blow-off pipes have been altered so that the slightest leak can now be detected. The rear wall of the setting of boiler No. 2 is being repaired, as it was somewhat cracked and shaken.

The following table shows the amount of water pumped, coal consumed, etc.

Respectfully submitted,

RICHARD J. FLINN, *Engineer.*

HIGH-SERVICE PUMPING STATION.

BROOKLINE, February 1, 1891.

To the Brookline Water Board: —

GENTLEMEN, — I have the honor to present herewith the report of the engineer of the high-service pumping station for the year ending January 31, 1891.

The wood-work outside of engine room and engineer's house was painted in June.

The bath room which, previous to the past season has been without the usual fixtures, has been completed by the addition of a bath tub, water closet and wash bowl.

I should recommend the purchase of another engine in course of a year or so for a relief to the present one in case of needed repairs. The present engine during the coming season will probably be in operation every day on account of the large increase in the consumption of water in the high-service district.

No repairs of any kind are needed at present, and not one dollar has been expended the past year.

The buildings, boiler, engine and grounds at this station are in a satisfactory condition.

The following table will show the record at this station the past year.

Respectfully submitted,

WILLIAM B. WEBBER,

Engineer.

THE PUBLIC SCHOOLS.

SCHOOL CALENDAR, 1891.

Winter term began	January 5
Winter term ends	March 20
Spring term begins	March 30
Spring term ends	June 26
Fall term begins	September 7
Fall term ends	December 4

HOLIDAYS.

February 23, Fast Day, June 17, November 25, 26, 27.

SCHOOL HOURS.

First and second year classes	8.30 A. M. to 12.30 P. M.
Third year classes	8.30 A. M. to 1 P. M.
Other classes	8.30 A. M. to 1.30 P. M.

THE SCHOOL COMMITTEE.

ORGANIZATION 1890-91.

	Term Expires.		Term Expires.
Dr. Frank Wells	1893.	Mrs. Elizabeth Cabot	1892.
Mrs. Annie E. Crane	1893.	William T. R. Marvin	1891.
Aaron H. Latham	1893.	John D. Runkle	1891.
William H. Lincoln	1892.	Charles J. Lincoln	1891.
Michael Driscoll	1892.		

WILLIAM HENRY LINCOLN, *Chairman.*
WILLIAM T. R. MARVIN, *Secretary.*
SAMUEL T. DUTTON, *Superintendent.*

ANNUAL REPORT OF THE SCHOOL COMMITTEE.

The School Committee of the Town of Brookline respectfully submit their Annual Report for the year ending February 1, 1891. The membership of the board at the present time, with the dates when their several terms of service expire, is given on the preceding page.

The board was organized at the beginning of the year, by the choice of Mr. William H. Lincoln, as chairman, and of Mr. W. T. R. Marvin, as secretary, and standing committees were appointed as follows:

High School — William T. R. Marvin, John D. Runkle, Charles J. Lincoln.

Teachers — Charles J. Lincoln, Mrs. Elizabeth Cabot, William H. Lincoln.

Finance — Michael Driscoll, William H. Lincoln, Aaron H. Latham.

Music — Mrs. Annie E. Crane, Michael Driscoll, William T. R. Marvin.

Military Drill and Physical Exercises — Frank Wells, W. T. R. Marvin, Charles J. Lincoln, Aaron H. Latham, Mrs. Cabot.

Industrial Schools — John D. Runkle, Michael Driscoll, Mrs. Elizabeth Cabot, Mrs. Annie E. Crane, William H. Lincoln.

Evening Schools — Charles J. Lincoln, Michael Driscoll, Aaron H. Latham.

Teachers.

The changes in teachers, since our last Report, are as follows: In the High School, Mr. G. W. Rolfe resigned at the close of the school year, and accepted another position, and Mr. John C. Packard, late of East Greenwich, R. I., was appointed in his stead. The increasing number of scholars in this school, and the variety of work which is unavoidably embraced in its course of study, — which must provide for its pupils not only preparation for college and the Institute of Technology, but also for the usual courses in English, — have made it necessary to add an assistant teacher to the force, and Miss May T. Frost

has been appointed. The relief to the other teachers is marked and the school has since then evidently been doing better work.

In the Lincoln School Miss L. M. Walton has been transferred to the Cabot, and Miss Abbie A. Hoyt, late of Medway, has been appointed in her place. Mrs. J. A. Dodson resigned at the close of the last school year, and Miss Matilda B. Doland, from Malden, was appointed to the vacancy.

In the Heath School, where we have made an enlargement, Miss Susan S. Thacher, from Malden, has been appointed an additional teacher.

In the Lawrence School Miss Proctor has been advised by her physician that she must rest from teaching for the present, and she has tendered her resignation; no appointment for this vacancy has yet been made.

In the Sewall School, Miss L. L. C. Bigelow has resigned, and Miss Mabel A. English, of Allston, has been appointed.

In the Pierce Primary School, Miss Olive S. Day, of New Haven, has been placed in charge of the classes formed in the remaining unoccupied room in the recent addition to that building.

In the Kindergarten in the Winthrop School, Miss Adeline T. Joyce has been appointed teacher in place of Miss M. L. Edwards, resigned, and Miss Alice H. Shaw, assistant, in place of Miss A. M. Wells. For the new Kindergarten, in Auburn Street, Miss Annie P. Burgess has been appointed teacher, and Miss Annie B. Winchester, as assistant.

Miss Annie B. Chamberlain has been appointed assistant teacher of drawing, and Miss Alice A. Stevens, assistant sewing teacher.

Superintendent of Schools.

The most important act of the board during the year, and one which it is believed will be of the highest value to our system of instruction, is the appointment of a Superintendent of schools. Since Mr. Reed's resignation, in 1875, there has been no Superintendent assuming to act under the statute, until the beginning of the present school year. The principals of the three Grammar schools were, for a time, severally charged

with supervision of their own schools, and also of the Primary schools preparatory thereto, and the principal of the High School has conducted that school with no other supervision except such as the committee have been able to give. In 1879 all the schools below the High School were organized as one school, and the principal of the consolidated school has since given no instruction in classes, but has occupied his entire time with executive duties, and the supervision of subordinate teachers, and has often been designated in the reports of the board as "Superintendent of Grammar and Primary Schools." The committee have long felt that this system was not calculated to secure the greatest efficiency of the High School, nor the harmonious working of all grades to a common purpose; and several years ago a special committee appointed to consider the subject, advised the board, in a report prepared by its chairman, Judge Mason, that when the proper time arrived, it would be wise to place all the schools again under one supervision.

The increasing number of pupils in the High School made it evident that that school, as well as the lower schools, should receive more careful attention than the committee were able to give, in order that the general plan of our system might be intelligently carried out. The whole number of pupils in all our schools, which in 1875 was 1,091, had reached in February, 1890, to 1,914. The number of teachers in 1875, requiring supervision, was but 35, while in February last it was 57; and it was very plain that this number would require to be increased during the year. The number of teachers in special branches, such as manual training, military drill, and the like, was much larger than ever before. The number of hours devoted to branches like music and drawing, was double what it then was; and the introduction of the study of Latin, into the upper classes of the Grammar schools as an optional study, with other reasons unnecessary to mention, impressed the conviction upon us that the step could not longer be deferred, with justice to the interests of all.

Before any intimation of the views of the committee had

been given to Mr. Daniels, he had indicated to the chairman his intention of resigning, after a term of service longer than that of any teacher who has served the town. The board, by a special committee, made a careful study of the position, and of the qualifications of various gentlemen whose names had been suggested for Superintendent; and Mr. Daniels having tendered his resignation, to take effect at the close of the school year, Mr. S. T. Dutton, who was at the time Superintendent of schools in New Haven, was offered the position, and accepted it, assuming the duties at the opening of the present school year. He has been placed in charge of all the schools in town, from the High to the Kindergarten classes, of the special teachers, and of the Evening School.

As it was necessary, under the laws of the Commonwealth, that the School Committee should be authorized, by a vote of the town, to appoint such an officer, in order that he might exercise the powers conferred upon him by the statutes, the board requested the town to give them authority to make such an appointment; at the town meeting, held September 18, 1890, they were so empowered; and, at the next meeting of the Board of School Committee, Mr. Dutton was unanimously elected to the position. The result has been eminently satisfactory to the board, and to the parents of the scholars, as we have learned in various ways.

On receiving Mr. Daniel's resignation, the board passed resolutions, expressing their high regard for him, and their appreciation of the fidelity with which he had discharged his duties. The teachers with whom he had so long been closely associated, also adopted similar resolutions.

It was principally in consequence of this contemplated change in methods of administration, that the sub-committees on the Grammar and Primary schools, which have been annually appointed for many years, were not appointed this year; the various members have been assigned to different schools, in rotation. No special report will, therefore, be presented from those sub-committees, and the condition of all the schools will be reported hereafter by the Superintendent.

School Sessions.

Shortly after the opening of the year petitions from some of our citizens were presented, requesting the committee to hold two sessions daily, instead of one, and giving reasons why, in the judgment of the petitioners, such a course was desirable. The board deemed this matter of too great importance to be decided without first ascertaining the opinions of our citizens generally. A public hearing was given which was very largely attended by parents of scholars, and by other citizens interested; a full discussion followed, and it was evident from the remarks made by those who spoke, from the letters read, and from the tone of the meeting, that public opinion, by a large majority, was in favor of retaining the present plan. It was also very evident at the hearing, that a shortening of the hours of attendance, especially in the younger classes, was desired by many, and that such a step would obviate certain objections to the present plan, made by those who preferred two sessions. A printed form was sent to the parents of every scholar attending the public schools, asking each to state his preference, whether for one or two sessions, and also whether in his judgment the hours should be shortened. These were filled and returned, and the result showed that our citizens generally were satisfied with the hours as now established, and were almost universally opposed to two sessions: many of those having children in Primary Schools favored a slight shortening of the hours. No change in the rules providing for a single session has been made; the rules for the Primary Schools have been changed, and the hours shortened, as will be seen by the Calendar, at the beginning of this report.

School Accommodations.

In the last annual report the committee requested the town to appoint a special committee to consider the needs of the High School for a new or enlarged building. A committee was accordingly appointed, and at the last town meeting submitted a report recommending the appropriation of $5,000 for the enlargement of the present building, and that no action be taken

at present towards securing a site for a new building. The town accepted the report, but made no appropriation at that meeting. The board endorse the recommendation for enlarging the present building, and request the town to appropriate the above-named sum, and will endeavor to present the question of a new building when a suitable site can be recommended.

In our last report we mentioned that the only rooms unoccupied were one in the Cabot School-house, one in the Pierce Primary, and one in the Longwood School. The first two are now in use. There are, therefore, no vacant rooms available except for primary scholars at Longwood. The condition of this building has caused many complaints, both on account of considerations of health and interior arrangements. If it were in a desirable location, we should recommend the construction of a new building.

A room has been taken in a private house on Auburn Street, and a Kindergarten opened, for which the parents of the children living in that vicinity petitioned the board more than a year ago. A class of thirty-three children has already been formed; and this will, no doubt, be increased as the season advances.

The committee are of the opinion that steps should be taken by the town without delay to secure suitable sites for school buildings, and have appointed a special committee to consider the subject with a view of presenting it to the town when definite plans can be proposed. The growth of the town has assumed such proportions it will not be wise to delay; and it is quite evident in what localities the additional accommodations will be first required.

The wooden building on Sewall Street is entirely inadequate to meet the wants of that section, and we have been obliged to send pupils to the Boylston and Pierce Schools in order to make room. The committee do not deem it wise or expedient to enlarge the present building, as it would not be desirable to expend a considerable sum upon a school-house of that character; and recommend the construction of a new building of six rooms, and similar in appearance and arrangement to the

Winthrop School on Brookline Avenue. The lot is well located and sufficiently large for this purpose.

It is quite probable the present Pierce Grammar School building must soon be enlarged and remodeled to meet the demands of that section. The location is central, and when the plans have been duly considered and matured, they will be presented to the town for its action.

Relation of Schools to the Public Library.

The committee appointed to ascertain what steps could be taken to bring about a more intimate connection between the schools and our Public Library have had several interviews with the Librarian and a committee of the Library Trustees. We have found them ready to give a cordial support to this movement. It seemed to be outside the province of the Library to undertake to supply the schools with the reference books which are in daily demand in every school-room, and it therefore seemed very desirable that this committee should ask the town to make a small appropriation for the purpose of placing in the High and Grammar Schools a small library of standard works of reference which would be of great service to the teachers and scholars.

The great aim to be attained seemed to us in the first instance to be to bring before the teachers the knowledge of what the Library contained, to facilitate in every reasonable way their free access to it, and thus to stimulate and increase the use already made of it, by them. Only in this way can they promote the intelligent use of the Library by the pupils which is, of course, the ultimate object. Accordingly three specific suggestions, which were first approved by this board, were submitted to the Library committee: that the teachers be given the privilege of taking out ten books for school use, instead of four, as now; that the Library be more fully equipped with duplicate copies of illustrated books on topics in history, geography, etc., pursued in the schools; and that the teachers should be given, under reasonable restrictions, the privilege of access to the shelves for the purpose of con-

sultation and reference, to enable them to familiarize themselves with the contents of the Library; in case of taking out books, of course, conforming to the ordinary regulations.

As the fullest benefit of the Library to the town is obtained by the largest possible use of its contents, any reasonable step which will tend to secure that result must be advantageous. Giving to the teachers of the schools, employed as the servants of the town in educating its future citizens, this free access to the Library, which is another branch of the educational forces supported by the town, would, it is believed, furnish a most useful and intelligent assistance in placing more and better books in the hands of the pupils of the schools. It would be giving the educational tools of the town to those employed in its educational work.

The Library committee will recommend the increase in the number of books allowed to the teachers, and the purchase of a larger number of duplicates, and it is hoped that they may see their way clear to grant the further privilege asked for.

Industrial Education.

The manual instruction outlined in the report for 1890 has been continued during the past year with increasing interest and success. A most important step has been taken in the equipment of a wood-turning and pattern shop. This shop is furnished with sixteen lathes and pattern benches, so arranged that the pupil turns from one to the other without leaving his place. The shop also contains one circular-saw, one scroll-saw, and one grindstone, which is so placed that it can be readily used by pupils in carpentry. The power for this shop is furnished by a Thomson-Houston fifteen horse-power electric motor, which has thus far given great satisfaction. The industrial instruction in the William H. Lincoln School is given as indicated in the scheme printed elsewhere.

There has been a steady improvement in the amount and quality of the work done in all these departments. The teachers have grown in experience and skill, and the pupils

have shown an increasing interest and desire to succeed and merit promotion.

Increased attention has been given in the teaching to the methods and details. In the past there has been great difficulty in so coördinating the drawing and shop work as to make their mutual relations sufficiently apparent, particularly to the younger pupils. To remedy this defect, and to have the proper drawing always ready for use in the shop, all the drawings of the shop courses have been carefully made and blue-print copies taken, and these blue-prints are now used by all the pupils in their work.

Even the youngest pupil, by a constant comparison of his work with the drawing which is always before him, learns to understand and use it long before he is old enough to be put upon a course of mechanical drawing.

It is also becoming apparent that the simple manipulations, or work of the hand, constitute but a small part of the educational value of industrial work.

If the pupil solves a problem in Arithmetic by rule, no matter how expert and accurate he may be in the numerical processes, it is plain that the great value of the study as an educational factor is lost, unless, at the same time, he is made to see the reasons and proofs upon which the rule is based. So in mechanical problems, and, indeed, in all processes in which the hand is the instrument, the method of solution, and why one method is better than another, becomes a most important matter. Nor is this all. The pupil should be taught to judge of the quality of his own work, as well as that of others, by some systematic and well-defined method of inspection.

Of the three steps, — the method of solution, the execution of the method, and the estimate of the quality of the work done, — it is not difficult to see that the first and third are too important to be entirely overlooked in any well-defined system of industrial instruction.

At the close of the last school year, an exhibition of work in all the industrial departments was held, which gave great

satisfaction to all the friends of the school, as well as to many others who were drawn to the exhibition by their interest in this new departure in Grammar School work.

Both teachers and pupils anticipate that the exhibition, at the close of this school year, will be a decided advance over those of past years. The course in pattern-making will begin when the course in wood-turning is completed.

Penny Savings.

The work of the Penny-Savings, which was begun in January, 1890, has now completed its first year, and the results are most satisfactory. $4,129.33 have been collected from the twelve schools taking part in it. A table below shows the amounts collected in each school. The success of the plan is owing almost entirely to the interest and patience of the teachers. The collecting and the keeping of the accounts, the depositing in the bank, and the taking out of bank-books for each child has been done by them and by those ladies who have acted as trustees for the schools. The chief part of this work has been done by the teachers, who have cheerfully accepted this unpaid addition to their labors, and have secured the success of the undertaking. The accounts have now been carefully audited by the kindness of Mr. Albert Cushman, and we begin another year with our system tested and completed by his experience and advice.

REPORT OF THE SUPERINTENDENT.

To the School Committee of Brookline: —

Only one half a school year has elapsed since I accepted your cordial invitation to superintend the schools of the town. In that time acquaintance has been made with the work of the several teachers, and with the conditions by which each school is surrounded. As much time as possible has been spent in the class-rooms, where attention has been given to the quality of the instruction as well as to the spirit and interest manifested by the pupils.

It is unnecessary for me to call attention to the many excellent features of the system over which many of you have long watched with zealous care. You have devoted more of your time to the schools than is usually the case, and, sustained by a generous public sentiment, you have planted the educational interests of the town upon broad and healthful foundations.

The former superintendent has been wise and painstaking in perfecting the details of instruction and management, and with your aid has been successful in selecting as teachers those who had gained experience and efficiency elsewhere.

The schools are, for the most part, well equipped in respect to buildings, and the health conditions are superior to those found in many other cities and towns. I have found the janitors faithful and ready in the performance of their duties.

Evidence of the progressive attitude of the town is seen in the support the committee has received in establishing manual training as a part of the curriculum. I know of no other town or city in the United States that has so thoroughly equipped a Grammar School with reference to instruction in the manual and domestic arts as has been done here.

The systematic endeavor to promote habits of economy and thrift, by encouraging children in "penny savings" is in accord with the latest thought on social progress.

But I am not unconscious of the fact, that, while the schools have reached a relatively high degree of excellence in the past, there is a general desire and expectation that they will be still farther improved. This is in accordance with a natural law. A living organism cannot stand still. It is growing, expanding, and its several functions are developing, or else it has entered upon a decadence that is akin to death. That the conditions here are such as to favor the highest and best results is self-evident. Situated within the very precincts of the metropolis, favored by nature, and made still more accessible and attractive by art, the town has every prospect of a rapidly increasing population. This means increased resources, as well as an enlarged

demand for a more extended and more fully developed educational plant.

The generous provision recently made by you for the clerical and routine duties of the office implies that your superintendent is expected to devote his energies to the vital concerns of education; that he is to study broadly all questions affecting his work, and, as far as possible, is to inspire the teachers with a truly professional spirit. It shall be my aim to so administer this important trust, that the hopes and ambitions of all good citizens regarding the schools may be fully realized.

Governing Principles.

The school is only one of the forces that operate in the education of the child. To invest the school system with the *paternal* idea to such an extent as to overlook or ignore other helpful influences, is a species of conceit that can only do harm. The sphere of the school is limited, but working within the proper boundaries its purpose should be positive and forceful.

(1) The school should minister to healthful growth. The physical, mental, and moral powers of the child should be exercised and trained in due proportion; that is, his self-activity should be called forth in all those ways that make him strong and erect in body, and that promote seeing, thinking, feeling, and doing. Whether the boy remains in school four years or twelve years there should be a certain completeness in his culture by reason of his increased power to think and act.

(2) The school should have an eye to the environment with which the pupil will soon have to deal. The mysteries of our social, civil, and industrial life should be so interpreted to him that he can acquire the alphabet, at least, of true living, and can easily adjust himself to the demands of life.

The highest art, then, in teaching, is to harmonize the great ends of development or culture with the claims of utility. The ideal character of the Greek education and the practical nature of the Roman education represent respectively the two ideas that have been more or less in conflict in the past, but which it is the duty of the modern teacher to yoke together. Nature, language, number, form, commerce, industry, and history are all of the highest practical importance, and these supply the true thought material. They furnish food and exercise for the pupil, and, at the same time, bring him into relation with the world in which his career is to be made.

(3) A system of schools should be so contrived as to favor elasticity and adaptation to individual needs. No two children are exactly alike, and in every fifty there are often the widest extremes in temperament, mental alertness, and moral quality. Unless the teacher recognizes

these differences and acts accordingly, great harm will be done. The slow, the quick, the fortunate, the unfortunate, all have their place in the school. But pupils, whose age and ability merit it, must be advanced as they deserve, irrespective of grades or classes. In no other way can our schools retain the confidence and patronage of intelligent parents. Such are a few of the considerations that ought to give shape and purpose to our future work.

The Teachers.

I have already alluded to the high standing of the teachers, as a class.

The cordial and earnest manner in which they have generally responded to my requests has been no slight encouragement. It shall be my policy to point out frankly and faithfully the defects that are found in the work of those less experienced and skillful, and it is my hope that all such may be able to reach a relatively high standard.

The policy, so well established, of going abroad when vacancies occur, and seeking the best talent to be found, is an ideal one. The plan becomes still more effective, if search for teachers is instituted in other sections of the country, so that our corps is strengthened and made more fruitful by fresh life and new ideas.

All teachers, from the Kindergarten to the High School, need to study, not merely the subject-matter that is to be taught, but especially the constitution and nature of the child, and the philosophy of teaching. The hearty interest of every teacher should be pledged to some comprehensive scheme looking to the development of a more truly professional spirit, and a higher artistic skill. My hope and expectation is that we may, in the near future, see results of this kind that have hitherto been unsurpassed.

Monthly Meetings.

The general meetings held once each month have been fully attended. At every meeting but one we were favored by the presence of the chairman of the board.

The following topics have been considered:

Reading. Its place in education; method of thought and sentence; concert reading; phonics, objects, pictures, drawing; silent reading and reproduction; expression.

Literature. Preparatory work; myths, folk stories, and fables; selected poems read and committed; the study of standard authors.

History. Preparatory work; stories; study of the primitive races; ancient centres of civilization; use of history stories; importance of biography; selection of topics; relation of history to geography; use of the public library.

Arithmetic. Educational value; amount to be taught; order of topics; importance of teaching the elements early; objective and oral work; relation of figures to numbers; economy of time.

Mind Study. Its relation to teaching; study of children; introspection; the teachings of physiology; nature of nervous action; waste and repair of brain substance; relief through physical exercise and manual training; sense perception; memory, association, imagination, automatic action, habits.

School Management. Attendance; opening exercises; atmosphere of the school; daily preparation of lessons; talking versus teaching.

The teachers have been prompt and cordial in adopting the suggestions made in these meetings. They have already made an effective and promising beginning in adapting history and literature to all the lower grades. The extension of the concrete and oral work in arithmetic has aroused considerable enthusiasm in the several classes.

In due course it is proposed to consider with the teachers the work in language, natural science, and geography with reference to using wisely the time and means at our disposal. In all efforts to revise and improve the curriculum, nothing will be proposed that has not received the sanction of experience and good usage.

Physical Training.

Early in the autumn it was found that the minds of the School Committee were ripe for some action that would insure regular and systematic physical training in all the schools. The establishment of the Hemenway Gymnasium in Boston, for the purpose of instructing classes in the Swedish or Ling system, seemed to offer an excellent opportunity. Upon recommendation of the special committee on Physical Culture, it was voted to ask the grade teachers to attend a course of twenty lessons at the Gymnasium. Some were excused on account of inability to endure the fatigue, but about forty teachers pursued the work with fidelity. The day's order as now given occupies about ten minutes, and good results are already manifest. Some provision for continued instruction next year will be necessary in order that the system may be thoroughly introduced.

Kindergarten Schools.

In response to a largely signed petition, it was decided, late in the autumn, to open another Kindergarten. Desirable rooms were rented on Auburn Street, and the school opened auspiciously on January 5, in charge of Miss Annie P. Burgess. In view of the large number of applications for admission Miss Annie B. Winchester, who has conducted a private Kindergarten with success for several years, has

been employed as assistant. There are now about forty children enrolled, and great satisfaction with the school has been expressed by the parents.

The Kindergartens conducted in the Winthrop and Boylston Schools are doing much to refine and train the little children of the neighborhood, and to give the best possible introduction to school life. It is to be sincerely hoped, that, in due time, every Primary School may be equipped with a Kindergarten. The discoveries made by Froebel, relative to the philosophy of infant education, are destined to be of far greater value to modern civilization than those of Bell or Edison.

The Manual Arts.

The equipment of a shop for wood turning is an important addition to the facilities for manual training at the William H. Lincoln School. The plant, excellent both in its design and workmanship, consists of sixteen lathes run by an electric motor, with circular and scroll saws. The boys of the first and second classes spend two hours per week in this department, and have already attained considerable skill.

Special rooms for sewing and cooking have been provided and furnished in the Heath School. Instruction in these branches began near the close of the fall term, and is continued twice each week by the special teachers from the Lincoln School. The question is anxiously raised by the teachers of the Heath School, whether some provision cannot be made for the boys. It is to be regretted that the plans for the enlargement of the building did not contemplate this demand. The extension of shop work to the other Grammar Schools of the town will demand enlarged accommodations and facilities.

The report of the instructor in drawing will show what has been accomplished in that department.

The employment of Miss Annie B. Chamberlain as assistant has enabled Miss Hurlburt to instruct classes in the High School. The work in all grades is of a high order.

The sewing classes at the Heath School require the presence of Miss Johnson two days per week. Miss Stevens has, therefore, been secured as her assistant at the Lincoln School.

Music.

While the instructor of music has made a brief report of his work, I feel prompted to bear witness to the excellent results reached in this subject. Nowhere have I seen musical instruction more scientifically given or heard purer tones or better expression. The method pursued is thoroughly educational and progressive. It seeks a maximum of refinement while cultivating the mind and the voice.

Relation of Schools to the Public Library.

The special committee appointed to confer with the Trustees of the Library has formulated certain requests looking to a closer connection between the Library and the schools. Their report has been placed in the hands of the Trustees and librarian, and a favorable decision is confidently anticipated. In some cities of our country the schools and the Public Library are under one and the same management. The Library is simply one department of the educational system. While it is not so here there is reason to hope that a very close and mutually helpful relation between the two departments can be secured.

To give the growing child a habit of intelligent, appreciative reading constitutes the larger half of all that the schools can do for him. They cannot do this unless the Library becomes the right arm of the school system, and good books are as free and plentiful in the schools as are air and sunlight.

The decision reached some time since to ask the town to appropriate funds for supplying a number of books of reference to the High and Grammar Schools will meet a want long felt by the teachers.

The High School.

For a detailed statement of the events of the past year, and the work of the School, you are respectfully referred to the report of the principal. I will simply call attention to a few matters that have been under my observation.

In the first place, I am favorably impressed with the bearing and apparent earnestness of the students. Many of them are young men and women of whom the town may well be proud. The fact that some are making sacrifices to obtain an education, only emphasizes the importance of giving them the best possible advantages ; and we may feel sure that the town will eventually reap its reward through their increased qualifications for honorable citizenship.

The high order of the teaching should also be mentioned. It is doubtful if better opportunities, in this respect, are to be found in neighboring communities.

Such being the case as regards the material to be educated, and the talent employed, shall not the equipment and facilities of the school be made equal to the best? It does not require much of a prophet to discern the possibilities in this regard, or to conceive of an institution that shall be the pride and ornament of the town, a High School so ample in its appointments and so efficient in every department that no parent will think of sending his children elsewhere to be educated. I have no doubt that the public spirit manifested in other directions will soon show itself here, and that proper steps will be taken to provide an

edifice that is in keeping with the high standard of the town in other departments.

Evening Schools.

The Evening Schools opened October 23d, in charge of Mr. C. N. Bently. It is proposed to close on February 27th, making a term of seventy-one evenings. With a total enrolment of one hundred there has been an average attendance of twenty-nine. Mr. T. B. Merrick has taught mechanical drawing two evenings per week, and Mr. P. P. Kelley has given instruction in penmanship two evenings per week.

Other subjects taught are arithmetic, language, history, book-keeping, reading, and spelling. In these, instruction has been given by Mr. Bently, assisted by Miss Maggie O'Hearn.

The general tone of the school has been excellent. Those whose attendance has been regular have made commendable progress.

Truancy.

During the fall term quite a number of truancies occurred. The teachers used every means in their power to correct the evil, and the truant officer did what his limited time permitted. It became evident that the fault lay chiefly with the parents, who seemed to regard the laws as inoperative and of no account. The recent appointment of Mr. F. H. Robinson as truant officer and general assistant can only result in the successful enforcement of the laws. An improved state of things is manifest already.

There are many details also connected with the welfare of the schools to which such an assistant can devote his spare hours in the interest of economy.

School-Houses.

The committee appointed at the last meeting to consider the present needs of the town has before it a task of peculiar difficulty and responsibility. To say nothing of the High School, two school-houses at least are needed, and should be designed and erected before the next autumn. Nothing but a far-sighted and liberal policy toward those sections of the town now being settled so rapidly will meet the exigency.

School Supplies.

With your approval it is proposed to purchase in the month of June, by contract, sufficient supplies of all kinds to last for one year, the same to be delivered at the several schools just before the opening of the fall term. This is the method now pursued in most towns and cities. It is more economical, saves a vast amount of correspondence

and cartage, and makes sure that no time is lost at the opening of the term. The very limited accommodations of the office also make it desirable to adopt this change.

In conclusion, let me express the pleasure I have experienced in entering upon a field of labor so full of promise. Pupils, parents, and teachers have all been ready to coöperate; my predecessor, Mr. Daniels, has rendered me material assistance; while you have lightened my labors by your kindly sympathy and counsel.

In the confident hope that our future efforts may be successful, I remain,

Yours respectfully,

SAMUEL T. DUTTON.

January 31, 1891.

REPORT OF THE PRINCIPAL OF THE HIGH SCHOOL.

MR. S. T. DUTTON,

Superintendent of Schools:

As Principal of the High School, I submit the following report for the

Whole number of pupils during school year ending July, 1890,	115
Boys	44
Girls	71
Average attendance	94.4%
Number enrolled end of first week in school year	96
Number enrolled end of last week in year	90

A class of seven graduated in June last, — three boys, four girls. Of these, two entered the Institute of Technology; one, Harvard; one, Smith College. At or near the close of the last year, five pupils — two boys, three girls — took examinations for admission to college, — two final, three preliminary. Five took the examinations at the Institute of Technology, — four final, one preliminary. All of the above were successful, all but one passing in everything undertaken, one with four or five honors.

Of the 119 pupils enrolled since September last, 115 have studied English; 73, French; 48, Latin; 35, German; 8, Greek.

Of the present fourth class, 20 elect Latin; 24, French; 3, German. This class entered 45: from Pierce Grammar, 35; Lincoln, 8; other schools, 2. The number in the classes at present is, I., 14; II., 18; III., 30; IV., 41; specials, 6; total, 109.

Nineteen pupils — ten boys, nine girls — are fitting for college: eleven for the Institute of Technology. About twenty-eight per cent. of the school are thus fitting for higher institutions. Three of the college and

one of the Institute pupils take their final examinations at the close of the present year.

Testimony in regard to the quality of the work done by our graduates in college and the Institute is especially gratifying. For instance, in the present Sophomore class at Harvard, one of the twenty-seven "Deturs" given for "A" or "B" work in Freshman year (the class numbering over 300), was taken by a graduate of this school. In the present Freshman class, numbering over 350, one of the seven scholarships assigned upon work of the first half year was given to one of our graduates. In a mathematical examination at the Institute last year, eight of a class of forty passed without conditions; three of these came from our school. In the semi-annuals just taken at the same institution, two Brookline High School men led the Senior class.

Within the school itself we have been encouraged and strengthened by the addition to our corps of instructors of Mr. Packard and Miss Frost. The former is filling the position of Sub-Master, and giving instruction in natural science. We are especially indebted to the School Committee for the additional teacher, Miss Frost, appointed at the suggestion of the Superintendent. Judging from the work done by Miss Frost during the short time she has been in the school, she will prove a valuable teacher.

Our course of study is very broad, including, as it does, preparation for college and an English course, and therefore necessitates the formation of many classes. Probably the same teaching force would be sufficient for fifty per cent. more pupils.

The High School Battalion is in a better condition of efficiency than ever before at this time in the year. Last May, though laboring under especial difficulties, our competing company stood fourth in a list of nine at the competitive drill at Wakefield. We certainly expect that the boys will give a good account of themselves at Lynn the present year.

There are in operation at present, connected with the school, two outside organizations, — the Athletic Association and the Debating Club. The former is to give an in-door exhibition in the Town Hall in the near future, in preparation for which it is using the drill-shed as a gymnasium. The debating club holds meetings fortnightly in the High School building, has a membership of about fifty, and is evidently proving of benefit to those who participate in its discussions. With the purposes of both of these organizations I am in hearty sympathy.

The High School is still suffering from inadequate accommodations — from lack of proper space in which to do its work satisfactorily. The main school-room being too small, some of the pupils are obliged to sit in one of the recitation-rooms. The departments of science and drawing are especially hampered, and their work most injuriously affected.

We hope that the town will see the necessity for taking immediate action to provide proper facilities for doing the work expected of the school.

Respectfully submitted,

FREDERIC T. FARNSWORTH,
Principal.

BROOKLINE, February 7, 1891.

REPORT OF THE MILITARY INSTRUCTOR.

I have the honor to submit my fifth annual report, for the year 1890.

The present strength of the battalion is as follows: Boys, 2 companies, 6 officers ; 38 rank and file; girls, 1 company, 3 officers ; 33 rank and file; an aggregate of 80.

As the drill for girls is not compulsory, and as but thirty-six decided to take the exercise this year, it was thought best to have but one girls' company, and that of a double rank formation.

The battalion, as a whole, is in better condition than ever before at this season of the year. This is very easy to account for. The captain of the girls' company was a captain last year, and the captains of the boys' companies were lieutenants last year, and their former experience as officers has had its effect both on the drill and discipline of the entire command.

The drill-shed meets the requirements of the battalion, except that on the very coldest days the heating apparatus fails to bring the temperature to a point of safety or comfort. In fact one drill was given up on that account.

The formation of the "Second School Regiment" from the battalions of suburban schools is having a marked effect on the two boys' companies of this battalion. At present these companies are getting in readiness for the examination to decide which shall be the competing company from the battalion, and both officers and men are exerting themselves to secure the honor for their own company, so far as I am able to judge, with only feelings of the most generous rivalry. At the "Field Day" at Wakefield, in May last, the company from this battalion stood fourth in a list of nine competing companies, and there is a determination this year to push it nearer the head of the list, if possible.

The arms and equipments are in good condition; by your direction the necessary repairs have been made, and nothing more will be needed, in my judgment, till after the school year closes.

The pleasantest feature in the history of the battalion during the year was the gift of an elegant national color, from Colonel Albert A. Pope, a former Brookline school-boy. The battalion was paraded in

the upper Town Hall and the color was, with proper ceremonies, presented to the battalion, and consigned to the keeping of the color company, which is composed of the girls of the battalion.

Respectfully submitted,

CHARLES E. HAPGOOD,

Instructor of Military Drill.

BROOKLINE, February 2, 1891.

REPORT OF THE DRAWING TEACHER.

MR. S. T. DUTTON,

Superintendent of Schools:

The simple term, Drawing, somewhat inadequately expresses this department, as it is now being carried on in the schools. Industrial drawing, as now taught, is but a means to an end. "Learning to draw is learning to see." The technique no longer is the principal aim; neither is the training of the hand considered of primary importance; but we are striving, more than ever before, to train the observation and develop the mind. "Form study is the fundamental feature" of our work.

While the work is, in the main, proceeding upon the same general method as last year, we are using in the intermediate grades but one Prang drawing-book, supplemented by a blank-book. The drawing sets which were introduced last year into the first Grammar grade in the Pierce School, are now used for all construction in the first and second Grammar grades, with the exception of the Lincoln School.

The High School drawing and extra work in the Lincoln, in addition to the general supervision of the work, rendered it necessary to have an assistant; and I am pleased to report, that Miss Annie B. Chamberlain, who was appointed to this position, is doing good work. Miss Chamberlain gives lessons in Primary and lower Grammar grades, and also assists in the mechanical drawing classes at the Lincoln School, where the boys of the fourth class, in addition to classes of the previous year, are taking mechanical drawing.

Much time, this fall, has been spent preparing blue prints, from which the boys are to construct all objects made in the shop. The work in this special department of drawing is, year by year, developing and advancing. The graduating class will have accomplished, in June, work far in advance of preceding classes. As the size of the classes was increased, it became necessary to have more instruments, etc., and I wish to thank the committee for furnishing these materials so promptly.

The drawing-room is now well equipped, and the boys are endeavoring to show work worthy of such advantages.

The High School scheme of work is, in brief, as follows: Outline and light and shade in charcoal, from models, casts, still life, and historic ornament; plant form from nature in outline, and conventionalization of the same.

In addition to the regular drawing, we have formed a voluntary sketch class, which meets afternoons, once in two weeks, in the High School building.

One point, in justice to the pupils, should be understood by the committee, viz.: that in order to obtain satisfactory results in freehand work, there must be a special drawing-room. At present we are obliged to occupy a regular recitation-room, with poor light for light and shade, and at great inconvenience of having models constantly and necessarily moved.

This, the absolute necessity of a drawing-room, is one of the greatest, if not the greatest, need in the department of drawing in the Brookline schools; and I feel sure that all interested in the matter, do most cordially agree with me, and realize that a decided change should be effected. "Whatever we wish to see in the life of a nation," says Humboldt, "we must first put into its schools." This second "power of speech" does much towards opening to the child a new world of concepts, thoughts, language, expression, experiences, and the development of certain faculties that otherwise might remain forever dormant.

Respectfully submitted,

MARTHA ASENATH HURLBUT,

January 31, 1891. *Teacher of Drawing.*

REPORT OF THE INSTRUCTOR OF MUSIC.

MR. S. T. DUTTON,

Superintendent of Schools:

To make a report of the work in music in Brookline public schools for the past year, we have but to refer to our exhibition of last June, in which was shown, not only the results of the musical instruction, but also some of the possibilities in musical development open to us if the subject be properly presented. That much progress has been made since the exhibition of 1887, is evident from a mere comparison of the two programs. That we have reason to be justly proud of the success which has been attained by the mental labors of teachers and scholars, is also evident when it is once understood that, so far as we can ascertain, no such tests as those which were successfully passed last June were ever before given to children in this country. It will be remembered that in these tests, from first to last, there was no intermediate process nor the slightest instrumental aid; that, with the exception of

the six-year-old children, every test was read, with approximate correctness, *with words at the first trial.* The selections rendered are also worthy of remembrance, such as the "Sanctus," from the St. Cecilia Mass, by Gounod, sung by the High School scholars; the grand choruses, "The Heavens are Telling," from Haydn's great oratorio; and the "Inflammatus," from "Stabat Mater," by Rossini. In this connection, we wish specially to refer to our soloist in the latter selection, Miss Lillian Cummings, of whom Brookline should be proud, and who never sang better in our hearing than on this occasion. It cannot be too strongly emphasized, *that the public school children should sing the best music.*

Although we are proud of our past attainments, we are by no means satisfied. We have an ambition, an ideal, and we are not ashamed of it. We believe in music as an educational factor, as a means of mental development second to none; therefore, a part of our ambition is to make music tell upon the largest number possible of those whom we teach. The other part of our aim is to secure the best musical results possible, both as regards expression and quality of tone. It was our privilege last summer to show our method of teaching and its results to a little party of musicians, including some who are the very best on this continent, one of whom said, "It greatly exceeds my expectations." Should we ever give another exhibition, we hope to be able to show still greater improvement, not only as regards the work of a large number, but also of the individual; indeed, the present year has already shown us some remarkable instances of individual growth in music. We have no space to do more than allude to these here; but they are to be seen and heard any day when schools are in session. In closing, we would earnestly bespeak the coöperation of all the friends of our public school system in our work, which, more than anything else, is to effect the musical ability and taste of the community a generation hence.

Respectfully,

February 1, 1891. SAMUEL W. COLE.

Summary of Statistics.

Number of children in town between five and fifteen years of age, May 1, 1890	2,023 00
Increase upon number returned, May 1, 1889	47 00
Valuation of school buildings and grounds, May 1, 1890,	$477,000 00
Approximate value of other school property, as desks, pianos, books of reference, etc.	$13,000 00
Assessed valuation of real and personal estates of Brookline, May 1, 1890	$46,537,300 00
Amount expended for support of day schools, including repairs	$61,442 04

Additional amount expended for text-books and supplies	$3,028 11
Total expenditures for the schools for the year, including text-books and supplies	$66,806 40
Percentage of valuation expended for schools	.0015
Cost of instruction for each pupil, based on the average whole number, including incidentals, text-books, and supplies	$39 39
Cost of text-books and supplies for each pupil, based on the average whole number	$1 78
Amount expended for Kindergartens, including salaries, furnishings, and supplies	$2,336 25
Whole number of different pupils enrolled in all the schools for the year, including the Kindergartens	2,110
Average whole number for the year	1,696
Percentage of attendance in all the schools, based on the average whole number	93
Number of pupils over fifteen years of age	192
Number of pupils between eight and fourteen years of age	1,176
Number of pupils under five years of age	94
Number of pupils enrolled in all the schools for the week ending January 23, 1891 (boys, 982; girls, 1,025)	2,007
Of which there are in —	
High School, 109, or 5.4 per cent.	
Grammar Schools, 951, or 47.4 per cent.	
Primary Schools, 809, or 40.3 per cent.	
Kindergartens, 138, or 6.9 per cent.	
Average number of pupils to each teacher, in High School	19
Average number of pupils to each teacher in Grammar Schools	38
Average number of pupils to each teacher in Primary Schools	40
Average number of pupils to each teacher in Kindergartens	23
Number of teachers in High School	6
Number of teachers in Grammar Schools	25
Number of teachers in Primary Schools	20
Number of teachers in Kindergartens	6
Special teachers: military drill, 1; drawing, 2; music, 1; sewing, 3; cooking, 1; carpentry, 1	9

Mechanical Drawing.

William H. Lincoln School.

Monday, Tuesday and Wednesday, 9 A. M. to 10 A. M., 11.30 A. M. to 12.30 P. M.

High School.

Outline of the Course of Study.

There are two courses of study: General and College Preparatory. The former aims to give students such a well-rounded education as shall enable them to discharge intelligently the duties of life.

Selections from this course constitute a course fitting pupils for the Institute of Technology. The College Preparatory Course affords thorough preparation for Harvard and other colleges.

It will be noticed in the outline below that many of the studies are found in both courses.

FIRST YEAR.

General Course.

Required, English — Longfellow, Lowell, Irving, Emerson, Holmes, Whittier, Scott; frequent written exercises and lessons in Rhetoric in connection with work in literature. Algebra, to quadratic equations;

Biology, practical zoology; Physiology, with supplementary lectures in Hygiene; Botany, with special attention to physiology of the plant, its growth and habits, with slight stress on mere classification.

Electives (one), Latin — Cæsar, books I.–IV. Collar's Latin prose composition through the year. French — Otto's Grammar, as far as passive verbs, the more common irregular verbs. Doriot's French Reader — dictation, compositions, English into French, French conversation, so far as practicable. German — Otto's Grammar through irregular verbs; Grimm's Tales, Andersen's Tales (at sight); memorizing extracts, daily conversation.

College Preparatory Course.

Same as General, except that Latin is required, Zoology and Botany omitted, and French or German may be an elective.

SECOND YEAR.

General Course.

Required, English — Goldsmith, Burke, Cowper, Burns, Coleridge, Wordsworth, Scott, Macaulay, Dickens. Written work and Rhetoric as above. Geometry, second half year. Ancient History.

Electives (two or three). Latin — Ovid, one thousand lines, Virgil I.–VI. Jones' Latin prose composition. French — Otto's Grammar, Part I. Super's French Reader. Dictations, etc., as in first year. German — Hauff's Das Kalte Herz, Schiller's William Tell, sight work, memorizing, etc. Algebra — from quadratic equations through the elements, first half year. Book-keeping, first half year.

College Preparatory Course.

Required, Latin, Algebra, Geometry, Ancient History (as above).

Electives, English, French, German (as above). Greek — White's First Lessons, Goodwin's Grammar, Mass's Greek Reader (selections), Anabasis Book I.

THIRD YEAR.

General Course.

Required, English — Pope, Dryden, Addison, Gray, Thompson, Carlyle, Bacon, Shakespeare (Julius Cæsar, Merchant of Venice), Rhetoric made practical by frequent exercises in composition. Physics — through the year. Harvard requisites and substance of Gage's elements. Geometry — Plane, finished, first half year.

Electives (one or two). Latin — Cicero, four orations; Virgil, Eclogues; Nepos and Cæsar at sight; prose composition based on Nepos. French — review and extension of work of two previous years in grammar, using Otto and Chardenal; Knapp's French Reading; some play required for Harvard advanced French; dictations,

etc. German — Goethe's Hermann and Dorothea; Schiller's Maria Stuart; "advanced" college requisites; sight work and conversation. Algebra and Geometry — reviews second half year. Book-keeping — first half with third class. College and Institute reviews in Arithmetic, Geography, etc.

COLLEGE PREPARATORY COURSE.

Required, Latin, Geometry (as above). Reviews in Latin, Algebra, Geometry.

Electives, English, French, German, Physics (as above), Greek, Anabasis II.–IV., at sight V., Greek composition reviews.

FOURTH YEAR.

GENERAL COURSE.

Required, English — general survey of English literature, including not only the five great authors, Chaucer, Spenser, Milton, Shakespeare, (Macbeth, Hamlet), Tennyson, but also any others not previously taken up; for example, Sidney, Swift, Johnson, Southey, Lamb, Moore, De Quincey, Byron, Shelley, Keats, Ruskin. Frequent exercises in composition as above. Civil Government, first half-year; Political Economy, second half-year; Chemistry, through the year; Inorganic; little attention to text-book work, students being taught to "study the things themselves."

Electives (one or two), Latin — Cicero, three to five orations; Virgil, two or three books; Ovid, one thousand lines — all at sight. French "advanced" college requisites. La Fontaine, dictation, etc. German — Minna von Barnhelm, "advanced" college requisites, sight work and conversation.

COLLEGE PREPARATORY COURSE.

Required, Latin (as above), Ancient History, English (college requirements).

Electives, Greek — Homer I.–VI. (last three at sight). Xenophon, Anabasis and Hellenica — at sight. Greek prose composition — Jones, and Xenophon. English, French, German (as above).

Music, declamations (girls may read), and military drill (compulsory for boys) through both courses; drawing, first two years in general course, first year in College Preparatory Course. A foreign language must be taken at least two years, and one such language must be continued throughout both courses. Candidates for College and Institute elect according to institution and course therein chosen. The "laboratory method" is pursued throughout the science department. Report of student committee on current events twice per week. Quarterly report cards sent home to parents.

REPORT OF THE PARK COMMISSIONERS.

The Park Commissioners have the honor to present the following report:

The Legislature of 1890 passed an act, approved on the 27th of May, changing the boundary lines between Brookline and Boston in accordance with the plan submitted in the last Annual Report, and authorizing the exchange of land on the payment of the sum of twenty thousand dollars by the Town of Brookline to the City of Boston. Previous to the passage of the act, the Park Commissioners of Brookline and of Boston had each made formal taking of all the land required for Park purposes in each municipality, and on the 20th of June the final transfer of land was made and the twenty thousand dollars paid. Each municipality gave a clear title to the land conveyed.

During the past year the Commissioners have purchased land as follows, viz:

From the City of Boston, as aforesaid	$20,000 00
From David Sears *et al*	5,000 00
From Francis W. Lawrence	5,000 00
From Rev. William Lawrence	20,000 00
From Patrick Dillon	570 00
	$50,570 00
And have charged the appropriation for purchase of land, with printing and advertising in connection with the taking of land	288 53
With the legal expenses connected with preparing bills before the Legislature, and for preparing papers for the taking, and sundry other papers, including examination of titles	837 00
Total charged against purchase of land	$51,695 53

In addition, the Commissioners have arranged with the Overseers of the Poor of Boston for the land owned by them,

for the sum of four thousand five hundred dollars, the same being the valuation placed upon it by the Brookline assessors.

In the report of last year, a communication from Messrs. F. L. Olmsted & Co. was submitted, suggesting, among other matters, a consolidation of the railroad stations at Longwood and Chapel Station, and proposing an exchange of land with the railroad, which it was thought would be to the mutual benefit of both parties.

The plans for the exchange of land were subsequently found to be impracticable, as the railroad required more land than we could properly give up without injury to the scheme of the Park. No action having been taken for a consolidation of the Stations, the Commissioners have been unable to make any arrangement with the railroad for the payment of any part of the cost of acquiring the land at Chapel Station, as they had expected. The only arrangement they could make has been for an exchange of 23,760 feet of land near Longwood Station, which the engineers have considered very important for the town to acquire, for an equal number of feet of land near Chapel Station, where it could be spared without injury to the general plan of the Improvement.

With regard to the work of construction, — as soon as was practicable after the change of boundary lines had been effected, namely, on the tenth day of June, — proposals for doing the work were advertised, and on the twenty-sixth day of June contracts were awarded.

The contract prices were in every case less than the estimates. The most important difference is in the estimate for filling required for the section between Brookline Avenue and St. Mary's Street, which was 131,000 cubic yards at sixty cents, amounting to seventy-eight thousand six hundred dollars, — the quantity required has been 96,000 cubic yards at fifty cents, costing forty-eight thousand dollars, — thus making a saving of about thirty thousand dollars.

Of the one hundred and fifty thousand dollars appropriated for the work of construction, the sum of eighty thousand nine hundred and forty-one dollars and twenty-three cents has been

expended. The remainder, sixty-nine thousand fifty-eight dollars and seventy-seven cents, to which is added two thousand nine hundred sixty-eight dollars and twenty-three cents, balance from last year, and two thousand ten dollars and eighty-five cents, premium on bonds, making the balance, — a total of seventy-four thousand thirty-seven dollars and eighty-five cents. This amount will probably be sufficient to carry on the work for the year 1891.

The Commissioners believe that the work should be prosecuted vigorously, so as to complete it, as far as possible, within the two years from the time of formal taking.

It may, therefore, be necessary to ask something more from the Town for construction work before the close of the fiscal year, although it does not now seem probable.

For a detailed statement of the progress of work, reference is made to the accompanying report of the engineer, Mr. Alexis H. French. A detailed statement of receipts and payments is also hereto appended.

All of which is respectfully submitted.

HENRY M. WHITNEY,
CHARLES S. SARGENT,
WILLIAM H. LINCOLN,
Park Commissioners.

MR. HENRY M. WHITNEY,

Chairman of the Brookline Park Commissioners:

DEAR SIR, — The following is my report on the operations connected with the Muddy River Improvement for the past year.

At the date of the last report the surveys were being made for the changes in that part of the boundary line between Brookline and Boston, which lies in the Park-way, so that the new line shall follow the water course, when the plans of the Park-way, made by the Messrs. F. L. Olmsted & Co., shall have been carried out.

The surveys, having been completed, your Board on the 5th of May, took all lands required for the Improvement up to the old boundary line, and about the same time the Park Commissioners of Boston did the same thing on their side of the line, each party becoming responsible for the lands thus taken.

The act of the Legislature changing the boundary was approved by the Governor, May 27, 1890. The effect of this act was to transfer to

the City of Boston 273,077 square feet of land taken by the town, and to transfer to Brookline 327,740 square feet taken by the city, the town paying to the city the sum of $20,000, for the 54,663 square feet which it gained by the transaction.

The area within the Improvement taken by your Board, and acquired by the change of boundary, including streets, between Brookline Avenue at the lower crossing of the Park-way and Chestnut Street, is about 1,580,000 square feet, or 36.3 acres.

The area within the same limits in Boston is about 91.1 acres.

Total area contiguous to Brookline, about 127.4 acres.

Plans and specifications were prepared early in the season for putting the work under contract, it having been decided to follow the plans of the Messrs. Olmsted, published in the last annual report.

The section between Brookline Avenue and Tremont Street was not put under contract, as there were numerous buildings remaining on the part of this land conveyed to the town by the city, which the latter did not wish to have disturbed this season.

The bids for the work were opened June 24th, and the contract for the gravel filling below Aspinwall Avenue awarded to the Boston & Albany Railroad Company, and the remainder of the work to Wm. B. Munroe, jr.

The work was begun forthwith, and has been prosecuted continuously up to the date of this report. The Railroad Company completed its contract December 11, 1890, excepting, possibly, a few trains of gravel, which will be needed later.

The method of construction carried out has been to place the gravel filling at a uniform depth of about three and one-half feet below the finished level of the Park-way, and do the remaining filling with the soil excavated from the new river channel (which is largely peat), and with loam. It would seem that the results should be very satisfactory in furnishing a soil well adapted to the growing of trees and shrubs.

The work has been delayed considerably in consequence of the uncertainty as to what was to be the boundary line between the Park-way and the Boston & Albany Railroad, and some work already done will have to be modified in order to adapt it to the recently established line.

About two-thirds of the river excavation below Aspinwall Avenue has been completed, and with fairly good weather the rough work on this section will be completed early the spring.

A large timber culvert has been built connecting the lower end of the open stone channel, near Aspinwall Avenue, with the new river channel. I consider this work as temporary only, as I believe it will eventually be found expedient to divert all of the water of this brook through Washington Street and Morss Avenue to Leverett Pond.

On the section of the Park-way above Tremont Street 20,670 cubic yards of filling has been placed on the line of the Brookline Road, as it is called, and the work of excavating Leverett Pond has been recently commenced. This latter work has been delayed in order that our contractor might work in conjunction with the contractor on the Boston side, at a very considerable saving to each in the matter of pumping, etc. The earth excavated from Leverett Pond is to be used in making the slopes from Pond Avenue to the shore of the Pond.

When the plans are completed the water flowing into Leverett Pond from the direction of Jamaica Pond, will either pass through an open brook channel, which is to be comparatively narrow, as natural in character as possible and adapted to the summer flow, or, through the brick conduit which has been built from the upper end of Leverett Pond to the lower end of Willow Pond, some 353.5 feet in length, and 48 inches in diameter, and from the upper end of Willow Pond to Chestnut Street, 42 inches in diameter and 1196.3 feet in length. This brick conduit will carry away the floods which would wash the banks, and otherwise damage the open channel and save the necessity of the latter being canal-like in construction to the detriment of the Park-way, especially in the summer season when its necessity would not be apparent.

The Boston Park Commissioners have put under contract their work on this Improvement, and the contractors on the adjoining sections are working harmoniously, and to the mutual advantage of all concerned.

I think there is little doubt that the River and Pond excavation will be so far advanced that it can be covered with loam before the hot season arrives. I suppose there is little question as to the wisdom of securing this result.

There are two culverts near Aspinwall Avenue that are wholly in Brookline, which can be put under contract early in the summer. All the other culverts will have to be built in connection with the City of Boston, and as yet no formal action has been taken looking toward their construction.

The work on the section between Brookline Avenue and Tremont Street should be commenced early in the spring, if it is to be undertaken during the coming season.

Very respectfully,

ALEXIS H. FRENCH, *Civil Engineer.*

THIRTY-FOURTH ANNUAL REPORT

OF THE

TRUSTEES OF THE PUBLIC LIBRARY.

In presenting the thirty-fourth annual report of the Public Library, the trustees desire to call attention, first of all, to a very gratifying increase in the circulation. The total circulation for the year is 66,274. This shows an increase of 9,362 over the figures reported last year; almost twice as much as the increase during the two years from 1888 to 1890, which was 4,887.

Some considerable part of this increase is due to the growth of the town which has added to our list of borrowers, during the year, 487 new names. But during the two years from 1888 to 1890 the number of borrowers was increased by 985 new names. Taking the period last mentioned as a basis of comparison, it appears that the increase of circulation during the present year is almost twice as great, while the increase of borrowers is less than one-half. The trustees may fairly claim that the improvements recently made have borne their part of this good fruit. A little more than half of this year's increase in the total circulation, or the sum of 4,665, represents an increase in the use of books for reference or reading within the library building. The readers of these books, for the most part, find seats in the reading room, as there is no other suitable place provided for them. No record is kept of the use of the reading room by those who read the magazines and papers on our tables; but it is certain that this use is constantly increasing, so that, of late, it is not uncommon to find every seat occupied. This fact, taken together with the increasing number of those who use the reading room for the consultation of books from the shelves, shows that the day cannot be far distant when the trustees will feel obliged to ask for means to enlarge the space at their disposal which can be devoted to the purpose of reading.

Perhaps, the most important addition to our library equip-

ment, made during the year, is the new card catalogue. This, as now furnished for public use, includes all books added to the library since the publication of the supplement to the catalogue, in 1881. It will be extended to cover the whole library during the year to come. The chief advantages of a card catalogue are, that it is always complete up to date, and that it makes possible a greater number of cross references, and thus a better analysis of the contents of the library, than can be embodied in a book, without making it too cumbrous and expensive. In this latter respect a card catalogue may be continually enriched as the library staff find opportunity to analyze the contents of books and fill out new cards with appropriate references.

Another decided improvement has been brought about by the opening of the Children's Reading Room, in the basement. The entrance to this room is in the rear of the building, and any one having the curiosity to look in there, especially on a stormy afternoon, will find a room full of children very happily employed. The opening of this room has also given us a quieter and less crowded waiting room in front of the delivery desk; though even with this relief that part of the building is still found to be uncomfortably small.

A "suggestion box" has been placed at the end of the delivery desk, and citizens of the town who find that the library does not contain the books they seek, are invited, by this means, to make known their wants. The trustees cannot bind themselves, in all cases, to purchase the books recommended; but during the past year they have purchased a large number of books in accordance with requests thus presented, and in such cases, the person by whom a book has been recommended (if the book was published at the time it was recommended) is promptly notified when it is ready for circulation.

The privilege of taking out a number of books at a time, which has been heretofore given to the teachers in our public schools, has now been extended to the principals of every private school within the limits of the town.

The committee on the library has adopted the custom of

holding regular weekly meetings, and has been empowered by the board to purchase each week a limited number of new books. In this way the books of the day are more promptly put into circulation, and more time is secured for the discussion of various questions pertaining to progress in library affairs. One of these questions has to do with the relations between the library and the public schools, and an earnest effort will be made by the trustees, in consultation with the school committee, to devise methods by which the teachers and the school children of the town may derive greater advantages from the library. Other questions, not here specified, are held under consideration by the trustees, who are desirous that the use of the library should be extended as widely as possible among all inhabitants of the town.

Some minor improvements, such as the better method of displaying the titles of new books on the bulletin boards, have been introduced. The publication of the monthly bulletin has been suspended, the time and expense involved seeming too great for the limited number of people who made use of it. Hereafter, the additions to the library will be published, from time to time, in the *Brookline Chronicle*.

The list of accessions, and a more detailed account of the the work of a very prosperous year, will be found in the reports of the treasurer and the librarian hereto appended.

TAPPAN E. FRANCIS, *Auditor.*

REPORT OF THE LIBRARIAN.

BROOKLINE, February 2, 1891.

To the Trustees of the Brookline Public Library : —

GENTLEMEN, — Permit me to lay before your board my nineteenth annual report, which shall embody, as briefly as may be, the principal points in the history of our library work for the year ending January 31, 1891.

Chief among these points stand a larger general circulation than ever before reported; an increased and increasing use of the library in the line of study and research; greater interest in school and library collaboration; and an unprecedented use of the reading-room — all indicating a growing appreciation of the true value of the library as a working factor in the community.

The increasing activity in these directions has required much additional work, both routine and special, in fact more work than could be accomplished in library hours, and therefore, extra time, without stint, has been devoted to its completion, and I may be permitted to report, without undue assumption, that every effort has been made to meet all requirements, and to the best of my belief, with a good degree of success.

Condition of the Library.

The present condition of the library differs from that last reported only in the fact that the accessions have increased its size and utility, and that each year finds it better equipped for the work before it.

Aids and guides to its contents have been multiplied, and still further work is in progress. When the full plans are carried out, it would seem as if all the conditions of a well-appointed library had been fulfilled.

Accessions to the Library.

In common with the principal statistics of the year those of accession have shown an upward tendency, though not as strongly marked as in case of the circulation. The leading statistics on books being briefly these: number bought, 1,021; number given, 148; number of periodicals bound and added to the shelves, 169; making a total addition of 1,338 volumes, and increasing the whole collection to 36,298 volumes.

Beside the books, we have received pamphlets, periodicals, and maps from various sources, all of which have been duly reported to your board and duly acknowledged. The appended list tells the story specifically, and I need not name individuals, sufficient to say that were I to do so, it would be but a repetition of names already familiar in our annual reports as constant benefactors.

The minor statistics of accession are as follows: 236 pamphlets, by gift and purchase, the greater part, or 230, being gifts. Fifteen wall maps and plans, chiefly of Brookline and Boston have also been received.

Circulation of Books.

All through the year we have been sensible of greater activity in this department, but the final summing up of its statistics goes beyond our expectations, showing an undeniable increase of nearly 4,700 volumes in home circulation, and more than 9,000 in the total circulation, with a gain of 487 new borrowers — 4,035 being the full number registered.

The exact figures in comparison with last year's are these: 55,105 volumes against 50,408 for home use; 11,169 volumes against 6,504 for library use; and 66,274 volumes against 56,912 as the total circulation — the reading-room reference books not entering into the account at all.

The number of working-days again falls short of the average, but corresponds with that of last year, viz: 303 full days in which we reached a daily average of 182 for home use, and 219 on the total circulation.

The largest daily delivery occurred October 25, 1890, when 375 books went out; nine other days ranged 300 and over.

The largest week's work is recorded for that ending January 31, 1891, with an account of 1,380 books.

Customary notices on overdue books have been sent to 4,061 persons, and fines to the amount of $186.33 have been collected. After paying postage and other sundries from time to time, the sum of $155.30 has been paid over to the treasurer, leaving a balance of $11.61 in the cash drawer.

A general classification of the circulation at the desk has been registered daily and regularly reported at your monthly meetings, and is herewith tabulated for the whole year and incorporated in this report.

General Classification of the Circulation—1890-91.

Work of the Year.

There have been no spare moments with librarian or assistants during the year, the regular work having increased in proportion to the growth and character of the circulation, besides which much special work has been done to meet the demands of the time.

The frequent calls upon the library resources have necessitated additional facilities for making them known, and for this purpose a type-written card catalogue of all books *not in the printed catalogues* has been prepared and placed at the service of the public, and this supplemental catalogue, plus the two printed ones, form a complete index to the entire library, and is kept up to date.

The work upon this catalogue was done during the summer months and was revised and ready for use before September 1st, but was not placed outside until the middle of the month, where it has since been in constant requisition.

The preparation of a full card catalogue is now under way and being pushed forward as rapidly as possible. The supplement of 1881 is nearly copied by the type-writer and ready for revision.

There yet remains the whole of the catalogue of 1873 to be copied in the same manner, and revised and consolidated with the other two, so that we cannot count upon the use of the completed catalogue before another autumn.

All the work of the year has been accomplished without additional help or cost, except in case of the type-writing on the new card catalogue, for which it was thought best to employ an expert writer to expedite the much needed work.

Other Library Facilities.

Among the useful features introduced for the convenience of the public may be mentioned the "suggestion box" with its block of slips ready to be filled out and dropped inside the box for consideration at the weekly meetings of the library committee.

Many persons have made use of this method of recommending

books not found in the library, and in very many cases the recommendation secures the purchase. As a matter of curiosity I have preserved the original slips which form a record of results from the first, and find that out of 258 suggestions the committee have approved and bought 136 books and have sent orders for 38 others. I also found 41 works to be already in the library and 40 others rejected, for good reasons, leaving three doubtful ones still pending.

Reading-Room.

Since the reference books have been placed in this room, it has become uncomfortably crowded, and its congested state, at certain times in the afternoon and early evening, when the pupils of our schools are using the reference books and consulting together, makes it well nigh impossible for the general reader to find accommodation of any sort, much less a quiet place.

The capacity of the room is frequently taxed to its utmost; often there are no vacant seats and no room to place an extra one, hence it is of common occurrence that persons start for the reading-room only to turn from its door in disappointment.

A more commodious reading-room, free from noise and confusion of every sort, is the need of the hour, and one which, I am sure, will commend itself to every frequenter of the library as well as to your board.

Children's Reading-Room.

The room which was fitted up for the special use of young people has proved admirably adapted to the purpose, and its use has been eminently satisfactory as an experiment, and may with propriety be counted among the successes of the year and an established fact for the future.

This room is furnished with one large table of sufficient length and breadth to accommodate sixteen children without crowding, and inclined shelves on its front and side walls afford places for eleven more.

Ordinary school-chairs are provided at the table and shelves; and chairs, as well as the table, are fastened to the floor, so that the possibilities of noise from movable furniture are reduced to a minimum. Additional settees and a few ordinary chairs enable us to seat nearly forty children at once.

At present the provisions for reading consist of seven of the popular pictorial papers and juvenile magazines, the latest numbers always on the table, to be picked up at will, and the back numbers to be had at call, by the usual method of "hall slips." A set of the bound volumes of "Harper's Weekly," and of "Youth's Companion," with the two volumes of "Soldiers of the Civil War," are shelved here, and are all great favorites with the boys. A supply of books from the juvenile alcoves, and pictorial books, from the alcoves of history and travel, are likewise sent down from time to time, and many of them find readers, this latter supply being selected by the librarian.

The shelves, or reading-desks as they might be called, are specially adapted to the large volumes of "Harper," and "Youth's Companion," which are loaned over and over to whomsoever asks — provided the hands of the borrowers are clean.

Simple pictures have been framed and hung upon the walls, and light and warmth are abundant.

This reading-room was fitted up late last spring, and first opened in June, and has since been open daily, from 2 to 6 P. M., under the supervision of the janitor. Thus far the children have been quiet and orderly for the most part, and seem to enjoy their special privileges.

Another interesting fact in relation to the possible utility of this room in another direction, is that one of our teachers has twice made use of it for an hour in the forenoon, bringing her class, and devoting her time to reading, in connection with the regular studies in hand; and I think this feature might be systematized and extended with profit — certainly the idea is suggestive.

Conclusion.

Such a full report of the details was made last year that I have purposely avoided them in the present report, although many interesting facts might well be added; but this outline of the prominent features of the year's work will perhaps suffice, and is therefore submitted in that belief.

MARY A. BEAN,
Librarian.

WALNUT HILLS CEMETERY.

TRUSTEES OF WALNUT HILLS CEMETERY.

ORGANIZATION, 1890–91.

	Term Expires.		Term Expires.
Desmond FitzGerald	1891	Charles H. Stearns	1892
Leonard K. Storrs	1891	Charles S. Sargent	1893
James H. Bowditch	1892	Barthold Schlesinger	1893

Albert L. Lincoln, Jr., *Chairman, ex-officio.*
Benjamin F. Baker, *Clerk.*

REPORT OF TRUSTEES OF WALNUT HILLS CEMETERY.

The Trustees of Walnut Hills Cemetery herewith submit their report for the year ending January 31, 1891.

Seventy feet of walks have been trenched and graded, and seventy feet of underground drain put down.

Five lots, and sixteen single-grave lots have been trenched, graded, and finished.

Nine lots and nine single-grave lots have been sold.

The following is a statement of the work for the year:

Number of interments	33
Number of interments in single graves	16
Number of interments in private lots	17
Placed in the receiving tomb	7
Whole number of lots trenched and graded	239
Whole number of lots sold	171
Whole number of grave lots trenched and graded	168
Whole number of grave lots sold	121
Total interments	458

The financial account of this work is as follows: —

DR.

To cash balance on hand from previous year	$480 89	
for sale of lots and graves	1,229 00	
for interments	119 00	
for sale of hay and wood	74 11	
for foundations and brick graves	219 00	
for use of receiving tomb	86 00	
		$2,208 00

CR.

By cash paid for labor and materials		1,854 84
Balance		$353 16
Due on unsettled accounts	$172 00	

Perpetual Care Fund.

DR.

To cash balance from previous year	$804 55
cash received from sale of lots and graves	474 50
	$1,279 05

CR.

By cash deposited with N. E. Trust Company, Boston	1,279 05

Income from Perpetual Care Fund.

To cash balance from previous year	236 05
interest from annuity in Mass. Hospital Life Insurance Company	468 00
interest on deposit with N. E. Trust Company	32 29
	$736 34

CR.

By cash paid for labor and materials	335 75
Cash balance on hand	$400 59

It is the opinion of the Trustees that a house of moderate cost should be erected on the grounds, to be occupied by the Superintendent, in order that he may be always accessible to those wishing to visit the cemetery for examination or inquiry. Such a house could be erected at an estimated cost of $2,500, and the Trustees respectfully recommend the appropriation of such sum.

ALBERT L. LINCOLN,
Chairman ex-officio.
CHARLES S. SARGENT,
DESMOND FITZGERALD,
CHARLES H. STEARNS,
LEONARD K. STORRS,
BARTHOLD SCHLESINGER,
JAMES H. BOWDITCH,
Trustees.

REPORT OF THE COMMITTEE ON PLANTING TREES.

During the past season there were planted on the streets of Brookline *189 trees, as follows:

On Jamaica Road, 45; High Street, 9; Summit Avenue, 12; Cypress Street, 6; Tappan Street, 2; Englewood Avenue, 6; Clark Road, 14; Sewall Avenue, 1; St. Paul Street, 1; Centre Street, 26; Babcock Street, 1; Brook Street, 65. Total, 188.

After the planting season was over, it was deemed advisable to employ for four months a trained forester, to carefully prune the roadside trees in various parts of the town, after the best French system.

The improvement in good looks and vigor of the trees so treated was most marked, and it seems advisable to your committee to pursue a similar course the coming season, if circumstances permit.

Planting holes have been prepared, and trees purchased for setting out next April, on Norfolk and Middlesex Roads.

There was left over from the appropriation of 1889 the sum of	$1,184 86
And there was appropriated in 1890 . . .	800 00
	$1,984 86
To this was added, income from the Warren Tree Fund	182 67
Making in all	$2,167 53

* One tree replaced from injury by horse.

There has been expended	$1,518 30	
And the sum of	149 23	
is reserved to pay for trees engaged and to be planted next spring, making in all		1,667 53
Leaving a balance of		$500 00

Your committee respectfully suggest that the usual appropriation of $2,000 be voted by the town for the ensuing year.

WILLIAM STEARNS,
E. W. E. TOMPSON,
JAMES H. BOWDITCH,
Committee on Planting Trees.

REPORTS

OF THE

Town Treasurer and Collector,

OF THE TREASURER OF THE

TRUSTEES OF THE WALNUT HILLS CEMETERY,

AND OF THE TREASURER OF THE

WARREN FUND FOR PLANTING TREES,

FOR THE YEAR ENDING FEBRUARY 14, 1891.

As the drafts from the several departments on the town treasury for the January expenses are never made until the following month, the Treasurer's books cannot be closed until the middle of February. Nothing has been paid for which the town did not receive the equivalent before February 1.

General Summary of the Operations of the Town Treasury for the year ending February 14, 1891.

	Total	$613,350 00

There was borrowed $529,000, as hereinafter detailed.

In anticipation of Taxes $200,000 00

At the adjourned annual meeting, April 23, 1890, it was —

Voted, That the town treasurer be authorized to borrow, in anticipation of taxes for the present year, such sums of money as may be needed from time to time, not exceeding altogether two hundred thousand dollars, paying therefor the current market rate of interest, giving the note or notes of the town therefor, signed by the treasurer and countersigned by at least a majority of the selectmen, and to be paid from the taxes to be raised this year.

Availed of as follows: —

June 6.	Of First National Bank, Boston, at 5 per cent per annum, paid July 8, 1890	$50,000 00
June 18.	Of Brookline Savings Bank, at 3⅞ per cent per annum, paid Oct. 20, 1890	25,000 00
July 1.	Of New England Mutual Life Insurance Co., at 5 per cent per annum, paid August 22, 1890	25,000 00
July 8.	Of same at 3⅞ per cent per annum, paid Oct. 15, 1890	150,000 00
Dec. 22.	Of New England Trust Co., at 6 per cent per annum, payable May 22–25, 1891	40,000 00

The aggregate cost of all these loans was $3,310.30.

Riverdale Park $76,000 00

Riverdale Park Construction 150,000 00

At the adjourned Annual meeting, April 9, 1890, it was —

Voted, That the Treasurer be, and he is hereby authorized to borrow, under the direction of the Park Commissioners elected under chapter 185 of the Acts of the year 1875, the sum of sixty-six thousand dollars appropriated at this meeting, and the ten thousand dollars appropriated Feb. 20, 1889, at a rate of interest not exceeding four per cent per annum, the bonds or certificates of indebtedness to be given therefor, to be denominated upon their face, "Public Park Loan," to be issued from time to time as the said Park Commissioners of the town may require them, and to be made payable in such annual proportionate payments as will extinguish the same in or within ten years from their date; and the said Park Commissioners are authorized to expend the said sum for the taking in fee by purchase or otherwise of land for the purpose of a public park, under said act, — the bonds to be signed by the Treasurer and countersigned by a majority at least of the Selectmen.

Also —

Voted, That the treasurer be, and he is hereby authorized to borrow under the direction of the Park Commissioners of the town elected under chapter 185 of the Acts of 1875, the sum of one hundred and fifty thousand dollars, at a rate of interest not exceeding four per cent per annum, the bonds or certificates of indebtedness to be given therefor to be denominated upon their face, "Brookline Park Construction Loan," to be issued from time to time as the said Park Commissioners may direct, and to be made payable in such annual proportionate payments as will extinguish the same in or within twenty years from their date; and the said Park Commissioners are authorized to expend the said sum of one hundred and fifty thousand dollars for defraying the cost and expenses of constructing Muddy River or Riverdale Park, so called, in Brookline, in connection with the sanitary improvement of Muddy River, — the bonds to be signed by the Treasurer and countersigned by a majority at least of the Selectmen.

Proposals were solicited, August 14th, for $40,000, under the first vote, and $60,000 under the second, resulting in the acceptance of bids of the Brookline Savings Bank for $17,000, and N. W. Harris & Co., Boston, for $83,000, at an average premium of $2\frac{925}{1000}$ per cent, or $1,923.10.

The notes were all dated August 1st, 1890, with tenor as follows:

Public Park Loan Notes, at 4 per cent per annum, semi-annually.

				$20,000			

To summarize, the totals of the amounts thus borrowed were for —

Purchasing land for Riverdale Park	$50,000 00
And for cost of constructing said Park	80,000 00
Extension of Water Works	$42,000 00

At the special meeting July 8, 1889, it was —

Voted, That the Town Treasurer be authorized to borrow, when so directed by the Selectmen, to pay for the extension of the Water Works, under the provisions of Chapter 343 of the Acts of 1872, and Chapter 131 of the Acts of 1888, the sum of eighteen thousand dollars, paying therefor a rate of interest not exceeding four per cent. per annum, payable semi-annually, and giving therefor the notes or scrip of the town, to be denominated on their face, "Brookline Water Scrip," signed by the Treasurer and countersigned by a majority at least of the Selectmen. Such indebtedness shall be payable in such annual proportional payments as will extinguish the same in thirty years.

At the adjourned annual meeting April 23, 1890, it was —

Voted, That the Town Treasurer be authorized to borrow, when so directed by the Selectmen, to pay for land purchased or taken for the extension of the water supply, under the provisions of Chapter 343 of the Acts of 1872, and Chapter 131 of the Acts of 1888, the sum of twenty thousand dollars, paying therefor a rate of interest not exceeding four per cent. per annum, payable semi-annually, and giving therefor the notes of the town, to be denominated on their face, "Brookline Water Loan," signed by the Treasurer and countersigned by a majority at least of the Selectmen. Such indebtedness shall be made payable in such annual proportional payments as will extinguish the same in thirty years from the date of the delivery of said notes.

At the special meeting September 18, 1890, it was —

Voted, That the Town Treasurer be authorized to borrow, when so directed by the Selectmen, to pay for the extension of the Water Works, under the provisions of Chapter 343 of the Acts of 1872, and Chapter 131 of the Acts of 1888, the sum of four thousand dollars, paying therefor a rate of interest not exceeding four per cent per annum, payable semi-annually, and giving therefor the notes or scrip of the town, to be denominated on the face, "Brookline Water Scrip," signed by the Treasurer and countersigned by a majority at least of the Selectmen. Such indebtedness shall be payable in such annual proportional payments as will extinguish the same in thirty years.

Under these three votes there was borrowed, January 1, 1891, $30,000, at par, as follows:

Brookline Water Scrip, dated January 1, 1891, to the order of the Boston Manufacturers Mutual Fire Insurance Co., bearing interest at 4% per annum, payable semi-annually.

1,000 " " 1, 1896	1,000 " " 1, 1901
	$10,000

Cypress Street Bridge $35,000

At the special meeting of September 18, 1890, it was —

Voted, That the Town Treasurer be and he is hereby authorized to borrow, when so directed by the Selectmen, the sum of $35,000, paying therefor a rate of interest not exceeding four per cent. per annum, payable semi-annually, giving therefor the note or notes of the town, signed by the Treasurer and countersigned by a majority at least of the Selectmen; the said sum to be applied to the payment of the construction of the approaches to the Cypress Street bridge over the Boston & Albany railroad. Such indebtedness shall be made payable in such annual proportional payments as will extinguish the same within ten years from the date of delivery of said notes.

Nothing has yet been borrowed under this vote.

Extension of Sewers $30,000

At the special meeting of January 29, 1891, it was —

Voted, That the Treasurer is authorized to borrow, when so directed by the Selectmen, in anticipation of the taxes for the year 1891, the sum of thirty thousand ($30,000) dollars, to pay for the extension of sewers, paying therefor the current market rate of interest, giving the note or notes of the town therefor, signed by the Treasurer and countersigned by a majority at least of the Selectmen, and to be paid from the taxes to be raised in the year 1891.

February 6, 1891, there was borrowed of Brewster, Cobb, & Estabrook, at four and one-half per cent. per annum, payable November 6-9, 1891, $30,000.

Land for use of Highway and Water Departments . $12,850

At the special meeting of January 29, 1891, it was —

Voted, That the Town Treasurer be authorized to borrow, when so directed by the Selectmen, the sum of twelve thousand eight hundred and fifty dollars ($12,850), paying therefor a rate of interest not exceeding four per cent. per annum for the term of five years, to pay for the purchase of land of the Brookline Gas Light Company, for the use of the Water and Highway departments of the town, giving therefor the note or notes of the town, signed by the Treasurer and countersigned by a majority at least of the Selectmen.

Nothing has been borrowed under this vote and no money has been called for, the Brookline Gaslight Company not yet being ready to convey the property.

The Limit of Indebtedness.

Under the existing statutes governing municipal indebtedness, the amount which the town can borrow, in addition to its present debt, is as follows:—

Valuation for the assessment of taxes for 1890			$44,809,000 00
Gross Capacity (Pub. Stat. chap. 29, sec. 3) 3% is			$1,344,270 00
Present Debt		$1,659,000 00	
Deductions allowed:			
Water debt	$636,000 00		
Amount of sinking fund, par value	314,909 47	950,909 47	
Net Debt for the purpose of this calculation			708,090 53
Margin between the present net debt and the 3 per cent statutory limit			$636,179 47
Deduct amount liable to be borrowed the coming year in anticipation of taxes			300,000 00
Available Balance			$336,179 47
The Total Debt at the beginning of the year was			$1,594,200 00
There was borrowed during the year in anticipation of taxes		$290,000 00	
For Riverdale Park		50,000 00	
Riverdale Park construction		80,000 00	
Water works		30,000 00	
Construction of Centre, Freeman, and Station Streets, widening of Tappan Street, and new Engine-house on Boylston Street		39,000 00	
Dean Road Bridge		10,000 00	
Sewers		30,000 00	
			529,000 00
			$2,123,200 00
The payments were of the amounts borrowed in anticipation of taxes		$250,000 00	
And the following-described notes:			
May 1, 1888, Beacon Street, widening, 4%		10,000 00	
June 1, 1888, Public library, 4%		2,000 00	
June 1, 1888, Boylston Street School 4%		1,000 00	
June 1, 1888, Pierce Primary School 4%		1,000 00	
June 1, 1888, Brookline Avenue Play Ground, 4%		3,000 00	
Amounts carried forward		$267,000 00	$2,123,200 00

Amounts brought forward	$267,000 00	$2,123,200 00
July 1, 1880, Water Scrip 4 1-2% . .	25,000 00

E. and O. E.

GEO. H. WORTHLEY, *Treasurer.*

REPORT OF THE AUDITORS.

The Auditors have to report that they have examined the accounts of George H. Worthley, treasurer of the town of Brookline, of the Walnut Hills Cemetery Fund, and of the Warren Tree Fund for planting trees; and have found the same correctly cast and with the proper vouchers and warrants.

The accounts of the Sinking Fund, together with the securities called for by them, have been examined and found as reported by the treasurer to the town.

WM. E. LINCOLN,
GARDNER C. BROOKS,
WINTHROP S. SCUDDER,
Auditors.

BROOKLINE, Mass., March 20, 1891.

REPORT OF THE ASSESSORS.

The assessors of the town of Brookline submit their annual report for the year 1890.

The board organized with R. G. F. Candage, chairman, and Albert Cushman, clerk. The services of the clerk have not only been of great value to the board, which is here duly acknowledged, but of convenience to the citizens and of much value to the town.

As in former years, the assessors posted printed notices to the inhabitants; published notices in the Brookline Chronicle; visited all dwellings in the town; made inquiries for persons assessable for polls and property, male and female; left legal notices to tax-payers; took note of values of real estate, and of changes which had taken place in the same during the previous year.

They found gratifying evidences of the growth and prosperity of the town, in an increase of population; in many new buildings of a fine and substantial character; in the transfers and sales of real estate at advanced prices over those of the previous year, and in a large increase in the value of both real and personal estates.

That was especially noticeable along the line and in the vicinity of Beacon Street, proving that the outlay made by the town for the improvement of that street was a wise expenditure of money; and that the town is now deriving, and will continue to derive, great benefit therefrom, by the rise in real estate, the erection of a fine class of dwellings, and the increase of population and of personal property which have followed.

The assessors examined the Probate Records of Norfolk and of Suffolk counties for their knowledge and guidance in assessing estates, trusts, and guardianships; carefully examined

corporation and bank stockholders' lists at the State House, to see that the town got its proper credits for stocks held by persons who have recently become citizens of the town; corresponded with the different boards of assessors and with individuals, to a much greater extent than ever before, beside many personal interviews with persons, in order to make a just and equitable assessment upon all property.

The delicate nature of the duties of the Board of Assessors cannot be fully realized by persons who have had no experience in that line. To assess all property justly, equitably, and in accordance with the statutes of the Commonwealth, and to the satisfaction of every tax payer, requires a rare combination of qualities, — of judgment, tact, courtesy, and amiability.

In their enumeration the assessors found 3,250 male polls, 118 female polls, 1,628 houses, 96 new houses, 44 unfinished houses, 2 new, large, and expensive stables, and 23 other buildings; 301 transfers of real estate since last year; and of persons paying a property tax, 1,192 men, 275 women; 228 estates, trusts, and firms; 56 non-resident trusts, etc.; 177 non-resident real estate holders; 1,305 horses, and 538 cows. The increase of personal property, over the year 1889, was $1,303,000, and in real estate of $2,701,000, — a total gain of $4,004,000; and the whole taxable property of the town is, personal, $16,510,100; real, $30,027,200; making a grand total of $46,537,300.

That is exclusive of State, corporation, and bank stocks, held by citizens of the town, which amount to a very large sum, but in which there has been very little, if any, gain over the year 1889.

By reason of the large increase in values, and judicious appropriations by the town, the tax rate was reduced to $9 per thousand for the year 1890.

Should the appropriations for the coming year be reasonably economical, the rate for 1891 ought not to be any higher, but rather lower, if any change.

The citizens of the town ought to know, and probably do, that the growth of the town depends more largely upon

its financial standing and its tax rate, than upon anything else.

Herewith is presented the condensed statement of taxation for the year 1890, together with a table of aggregates of debt, expenditures, valuation, and rate, from February 1, 1847, to the present time.

R. G. F. CANDAGE,
GEORGE F. JOYCE,
NATHANIEL A. FRANCIS,
Assessors of Brookline.

BROOKLINE, February 2, 1891.

CONDENSED STATEMENT

OF THE TAXATION OF THE TOWN OF BROOKLINE FOR THE YEAR 1890.

Amount voted by the town for general purposes		$587,917 00
